a devastating impact on Toledo Today 45 percent of all glass is manufactured in China Well researched yet accessible this new book explores how the economic cultural and social development of the Glass City intertwined with its namesake industry and examines Toledo s efforts to reinvent itself amidst the Midwest s declining manufacturing sector *The Life, Art and Religious Iconography of David Wright* Peter French,2016-01-14 This book showcases the contribution Australian contemporary glass artist David Wright has made to Australian art and international glassmaking From 1970 until 2014 David Wright produced hundreds of high quality art glass windows for Australian public private and sacred spaces including significant national churches chapels and synagogues yet little scholarly research on the artist and his place in Australian art history exists Including the first catalogue raisonn   ever produced on the artist combined with a close examination of his opus his influences manufacturing methods and personal history this book demonstrates for the first time the extraordinary contribution David Wright made to Australian art and contemporary glassmaking **Behind the Glass Door** Foluke Joyce Omosule,2013-12 Foluke Joyce Omosule never forgot the love she received as a child and all the kindhearted people she grew up with in the southwestern part of Nigeria Raised by her grandparents her parents were always in her life and their caring and concern gave her the strength to overcome the many challenges she faced as she fought to get an education Her hard work paid off in the form of opportunities and one of them was the chance to go to the United States to continue her education Even after leaving home she was constantly reminded of who she was and where she came from and trust and intuition helped her move from one stage of life to the next Whether you re seeking to fit into a new place or trying to create a better life for yourself you can find inspiration in the challenges fears and pain that Foluke overcomes in *Behind the Glass Door* **Knowledge Actors** Johan   stling,David Larsson Heidenblad,Anna Nilsson Hammar,2023-10-31 Historical actors are as central to the history of knowledge as to all historical scholarship Every country every era has its biographies of eminent scientists intellectuals and educational reformers Yet the theoretical currents that have left their mark on the historical and sociological studies of knowledge since the 1960s have emphasized structures over actors collectives over individuals By contrast *Knowledge Actors* stresses the importance of historical actors and re engages with their actions from fresh perspectives The objective of this volume is thus to foster a larger discussion among historians of knowledge about the role of knowledge actors Do we want individuals and networks to take centre stage in our research narratives And if so which ones do we want to highlight and how are we to conduct our research What are the potential pitfalls of pursuing that actor centric trajectory This is the third volume in a trilogy about the history of knowledge from the Lund Centre for the History of Knowledge LUCK **Makers** Janet Koplos,Bruce Metcalf,2010-07-31 Here is the first comprehensive survey of modern craft in the United States *Makers* follows the development of studio craft objects in fiber clay glass wood and metal from its roots in nineteenth century reform movements to the rich diversity of expression at the end of the twentieth century More than four hundred illustrations complement this chronological exploration of the American craft tradition Keeping as their main

focus the objects and the makers Janet Koplos and Bruce Metcalf offer a detailed analysis of seminal works and discussions of education institutional support and the philosophical underpinnings of craft In a vivid and accessible narrative they highlight the value of physical skill examine craft as a force for moral reform and consider the role of craft as an aesthetic alternative Exploring craft s relationship to fine arts and design Koplos and Metcalf foster a critical understanding of the field and help explain craft s place in contemporary culture Makers will be an indispensable volume for craftspeople curators collectors critics historians students and anyone who is interested in American craft
