Rethinking International Protection Raffaella Puggioni, 2017-01-09 This book provides a critical account of the concept of international protection The author questions the boundaries between protection and assistance and challenges the dominant focus on state sovereignty Drawing upon a broad range of sources she scrutinises the central role played by the state in providing legal social and economic protection which entails positive obligations upon the state Protection in this context does not

simply mean protection from persecution threats and sustained violence but emancipation By focusing on the local and national contexts wherein protection is enacted created and also contested she combines the politics of protection with the practices of protection with a special focus on Italy The resulting arguments clarify the difference between the public responsibility to protect and the private desire to assist between treating refugees as bearers of rights and considering them as objects of assistance The author argues that the absence of protection in Italy has encouraged many to leave and find protection in other EU countries This timely work is essential reading for students and scholars of migration international relations and asylum politics as well as policy makers *Human Rights Internet Reporter*, 1995 *Contemporary Issues in Refugee Law* Satvinder Singh Juss, Colin Harvey, 2013-01-01 Refugee law is going through momentous times as dictatorships tumble revolutions simmer and the Arab Awakening gives way to the spread of terror from Syria to the Sahel in Africa This compilation of topical chapters by some of the leading scholars in the field covers major themes of rights security the UNHCR international humanitarianism and state interests and sets out to map new contours The concerns over our security are replacing humanitarian concerns over the plight of others Securitization exclusion and the internal relocation of genuine refugees are now the favoured policies Yet while central idioms of protection persecution and non refoulement have changed there are also new demands on refugee law The contributors to this book ask whether there are new spheres of protection emerging for which refugee law must find a clear space such as the protection of child refugees trafficked persons gender related asylum and conscientious objectors to military service This timely and valuable book shows that in these uncertain times refugee law still has an exciting and challenging future ahead *Contemporary Issues in Refugee Law* will appeal to academics researchers students and practitioners *Modern Homelessness* Mary Ellen Hombs, 2011-04-19 This in depth examination reviews fundamental changes of the past decade that have reduced homelessness in the United States and other Western democracies Focusing on the last decade *Modern Homelessness A Reference Handbook* examines the issue in the United States and in other nations that have adopted new strategies to address homelessness and achieved notable results in preventing and ending it The handbook covers the unprecedented reductions first announced in 2007 and the crucial shifts in strategy and investment and the results that brought them about These fundamental changes are analyzed to identify the factors that proved most effective in altering the national and local dialogue and response relative to this daunting issue In addition to a brief history of homelessness in contemporary times the handbook examines key developments of the past decade in research policy housing models and service delivery that have been shown to decrease homelessness These include active partnership among the governments of the United States Canada England Australia New Zealand and others that moved the discussion in a new direction The story is brought up to date with a consideration of the effects of the 2008 economic crisis *Latino Issues* Rogelio Sáenz, Aurelia Lorena Murga, 2011-06-16 This book provides a lively understanding of the growing Latino population in the United States highlights the problems that confront this ethnic group and discusses

que han querido pensar esta noCIÓN destacan algunos filósofos como Jacques Derrida quien subraya la ambigua y reveladora intimidad que existe entre la hostilidad y la hospitalidad Emmanuel Levinas que concebía al otro como condición de posibilidad de uno mismo y de un nosotros y más recientemente el sociólogo Zygmunt Bauman que se centra en la condición que nos vincula típicamente. Dada la extrema complejidad del escenario que tratamos de comprender en este monográfico se ofrece a los lectores un conjunto de contribuciones desde diversos campos disciplinarios como la Filosofía la Antropología la Literatura o la Estética en las que se busca ayudarnos a iluminar la red de controversias que teje el espacio discursivo acerca de la hospitalidad. Rosa Benítez Andrés es Profesora de Estética y Teoría de las Artes en la Universidad de Salamanca. Ha coeditado los volúmenes Tipos múltiples. Materiales de arte y estética. Luso España 2011. Lecturas de Paul Celan. Abada 2017 y es autora del monográfico José Miguel Ullán por una estética de lo inestable. Iberoamericana 2019.
