The Glorious Enterprise:

The Glorious Enterprise John Maass,1973 Sesqui! Thomas H. Keels,2017-03-20 In 1916 Philadelphia department store magnate John Wanamaker launched plans for a Sesqui Centennial International Exposition in 1926 It would be a magnificent world s fair to celebrate the 150th anniversary of the Declaration of Independence The Sesqui would also transform sooty industrial Philadelphia into a beautiful Beaux Arts city However when the Sesqui opened on May 31 1926 in the remote muddy swamps of South Philadelphia the fair was unfinished with a few shabbily built and mostly empty structures Crowds stayed away in droves fewer than five million paying customers attended costing the city millions of dollars Philadelphia became a national scandal a city so corrupt that one political boss could kidnap an entire world s fair In his fascinating history Sesqui noted historian Thomas Keels situates this ill fated celebration a personal boondoggle by the all powerful Congressman William S Vare against the transformations taking place in America during the 1920s Keels provides a comprehensive account of the Sesqui as a meeting ground for cultural changes sweeping the country women s and African American rights anti Semitism eugenics Prohibition and technological advances **Chronological Retrospect, Or Memoirs of the Principal Events of Mahommedan History from the Death of the Arabian Legislator to the Accession of the Emperor Akbar and the Establishment of the Moghul Empire in Hindustan. Westminster and Foreign Quarterly Review , 1880 **Liahona** , 1924 Designing the Centennial Bruno
Giberti, 2014-07-11 The 1876 United States Centennial Exhibition in Philadelphia was not only the United States first
important world's fair it signaled significant changes in the very shape of knowledge. Quarrels between participants in the
exhibition represented a greater conflict as the world transitioned between two different kinds of modernity: the
Enlightenment of the seventeenth and eighteenth centuries to the High Modern period of the nineteenth and twentieth
centuries. At the center of this movement was a shift in the perceived relationship between seeing and knowing and in the
perception of what makes an object valuable: its usefulness as a subject of study and learning versus its ability to be bought
and sold on the market. Arguments over design of the Centennial reflected these opposing viewpoints. Initial plans were
rigidly structured, dividing the exhibits by country and type. But as some exhibitors became more interested in the
preferences of their audience, they adopted a more modern stance. Objects traditionally displayed in isolated glass boxes were
placed in fictive context: the necklace draped over a mannequin, the vase set on a table in a model room. As a result, the
audience could more easily perceive these items as commodities suitable for their own environments and the fair as a place
to find ideas for a material lifestyle. Designing the Centennial is a vital first look at the design process and the nature of the
display. Bruno Giberti uses official reports of the U.S. Centennial Commission and photographs of the Centennial Photographic
Company as well as the ephemera of the exhibition and literary accounts in books, magazines, and newspapers to illuminate
how the 1876 fair revealed changes to come in future world's fairs, museums, department stores, and in the nature of display
itself. **Philip II and Alexander the Great** Elizabeth Carney, Daniel Ogden, 2010-06-24 This collection of previously
unpublished articles examines the careers and impact of Philip II and his son Alexander the Great. Some of the articles
consider only one of the Macedonian rulers, although most deal with both and with the relationship, actual or imagined,
between the two.
