Inanna, Lady of Heaven and Earth Henriette Broekema, 2015 Inanna was the great goddess of the Sumerians a people who lived 5000 year ago in the place we know today as Iraq where was created the first urban civilization in human history Inanna the goddess of sexual love and connected with the planet Venus was responsible for the fertility of the land and the later goddesses the Greek Aphrodite and the Roman Venus adopted many aspects of Inanna The kings worshipped Inanna and celebrated with her the Sacred Marriage rite but they also needed her help during the many wars they were waging which gave Inanna the aspects of a warrior goddess As love goddess Inanna had a passionate love life and her great love was the shepherd Dumuzi not a god but a mortal human who wandered about the steppe with his cattle The peasants sang love songs about Inanna and Dumuzi during the many feasts of the successive agricultural seasons believing that their love affair stimulated the fertility of the crops and the fecundity of the livestock But their idyll was not to last for long as Dumuzi was gruesomely murdered The answer to the question of who killed Dumuzi and why is hidden deep in the history of the ancient agrarian communities The Sumerians wrote their texts on clay tablets that once dried could be preserved until our own day and thanks to this miraculous piece of luck we can cognizance of a number of magnificent hymns and myths written about Inanna These archaic texts call up human emotions that find an answering response in the hearts of people today and are still capable of moving us deeply In this book the myths are told against the back ground of Sumerian civilization and various aspects of society from this time are also discussed such as convent life divine kingship and funeral rites One aspect of the funeral rites was The Great Wailing a rite in which Inanna had an important role and which appears to have been performed in many countries around the Mediterranean in the Bronze Age and has left traces even in the Old and New Testament Henriette Broekema s book makes the complex character and history of goddess Inanna accessible to the ordinary reader and based on the texts from that time in twenty six richly illustrated chapters she succeeds in bringing the astonishing world of the goddess Inanna to life

Bron Flaptekst uitgever sinformatie *Mesopotamian Gods & Goddesses* Britannica Educational Publishing, 2014-01-01 Mesopotamian religion was one of the earliest religious systems to develop with and in turn influence a high civilization Followed by the Sumerians Akkadians Babylonians and Assyrians Mesopotamian

religion and mythology reflected the complexities of these societies and has been preserved in remnants of their cultural economic and political institutions This absorbing volume provides a glimpse of the cradle of civilization by examining Mesopotamian religious and mythological beliefs as well as some of the many gods and goddesses at the core of their stories and also looks at epics such as that of Gilgamesh and other aspects of Mesopotamian life The Role of the Sumerian Goddess Faruq Zamani, The Sumerian people once inhabited the region near the Persian Gulf known as Iraq Greeks called this country Mesopotamia which means the land between the rivers as the Euphrates and Tigris rising in Anatolia flowed through Syria and Iraq before discharging into the Persian Gulf Simurru is the name given to the northern region by the Semitic peoples later like the word Sumerian which was later used for the southern region According to the Sumerians their land was called Kien gi or land of the lordly En after the priest king of Sumer En Sometime after 4000 BC the Sumerians moved to this coastal area but it is unclear from where they came There is no connection between their language and any other language spoken in the region After sailing upriver from the Persian Gulf they migrated inland from the coastal area On the other hand Sumerians came from the northeast of Mesopotamia and traveled down the river to the south Simurru could indicate that the Sumerians once lived in the northern region The Sumerians must have encountered people who had already settled in the Persian Gulf area for a long time when they entered since a few cities had names that did not match Sumerians but were most likely derived from an unknown language Examples include Uruk E nunna and Shuruppak Similarly Buranuna the name of the Euphrates River makes no sense in Sumerian whereas Idigna the name of the Tigris River might be explained as the blue river Farmers had established small settlements along these two great rivers during the fifth millennium BC To irrigate agricultural crops they diverted water from rivers through canals There was little rainfall in this area and the sun burned mercilessly during the summer months so everyone lived entirely off floodwater from the rivers The rivers could be dangerous though as the land was flat and there was always the danger that the river would overflow its banks and change its course inundating new areas and destroying crops and water supplies The great rivers carried silt through the plain forming swamps along the Persian coast Here the inhabitants grew cane for making little reed houses for the gods God Enki was responsible for this domain He brought civilization to the Sumerians and lived underground in a freshwater residence the Abzu located below the earth's surface but above the ocean's saltwater expanse *Sumerian Mythology* Joshua Brown, 2021-02-24 55% OFF for Bookstores NOW at 29 95 instead of 39 95 Do you want to discover the Sumerian history and mythology that have inspired men and women around the world for thousands of years Your Customers Will Never Stop to Read and Read Again this Awesome Book Sumerian history and mythology have been shrouded in mystery for thousands of years These tales of the world's very first civilization is now being exposed to the light of day fascinating men and women around the world Sumerian civilization has become an intrinsic part of how we live today even if most of us are unaware of it The way that we measure time observe the stars and even plant and grow crops has a lot to do with the

advancements made by the Sumerians more than six thousand years ago And heroes like Gilgamesh have helped define what it means to be a hero today They were men who became gods earning their place in immortality in more ways than one The Sumerians used their stories as a way to instruct others and how they lived and even to help themselves understand their world you will learn the formative tales of gods and heroes to help you understand who the Sumerians were and why they were important This book explores the tales of gods and heroes in a concise easy to read fashion These tales of heroes and gods were deeply important to the Mesopotamian people and learning about them is the only way to understand the kind of world they lived in and how it was different from our own It was a world of birds with the faces of lions gods with the wings of birds and seductive goddesses who symbolically married the kings of the various city states The Sumerians told many tales of gods like Inanna An Ashur and Enlil tales that helped the civilizations of Mesopotamia endure for nearly 4000 years Indeed European travelers to the Orient in the 18th century discovered that there were still districts where the goddess Inanna more than five thousand years old then was still worshipped in secret The world of the Sumerians was unlike our own The people at the heart of Sumerian civilization living in modern day Iraq Kuwait Turkey and other places these people were part of a culture so far removed from the way that we think and perceive today as to be almost unrecognizable You will learn about the Gilgamesh and Enkidu the Anzu bird who the major gods and goddesses were who the important heroes were and how Sumerian society left a legacy that continues with us today Poets and historians recorded Mesopotamian tales on cuneiform tablets but we have made the deciphering work easy for you Buy it NOW and let your customers get addicted to this amazing book

Stories of the Goddess Marit Clementz,Ingvild Forbord,2024-05-14 The well known archaeologist Marija Gimbutas found through her excavations and research in Europe from prehistoric times that there have been societies that lived in peace for millennia and where the highest deity was feminine Gimbutas believed women played a central role in the religions and society of what she called ancient Europe In societies where the goddess was the supreme deity life was celebrated not death and men and women were equal People lived in harmony with nature and built their cities on fertile plains The knowledge of a possible peaceful society where the goddess ruled and where the union between man and woman was sacred has made women and men believe that a better world is possible On this background Clementz and Forbord try to find traces of the Great Goddess in symbolism that recurs in myths and fairy tales The book reproduces a selection of these and sheds new light on them with the help of religious historical theory We join the goddess Inanna to the underworld hear the legend of Kuan Yin follow the tracks of the black Madonnas investigate the Grail mysteries look into the Great Goddess of the North and see fairy tales about true love in a new light The interested reader can look forward to many moments of realization in the company of the authors and their interpretations of known and unknown myths and fairy tales all from a female perspective Ingvild Forbord is a teacher with a major in the history of religion Marit Clementz is a teacher and professional storyteller Together they run the Women s Academy which organizes workshops and travels related to the

In the World of Sumer Samuel Noah Kramer, 1988 Samuel Noah Kramer is the leading authority on the interpretation and reading of civilization's oldest literature His life and life's work are so thoroughly intertwined that his autobiography is also the story of the recovery of the language and literature of the Sumerians From young Talmudist to the patriarch of Sumerology Kramer recounts his long and distinguished career Writing for the non specialist he paints a panoramic view of Sumerian literature and provides thumbnail sketches of the individuals with whom he collaborated

The Anunnaki Guidebook William A. Hinson, 2017-10-27 The Sumerian King List allegedly recorded all the rulers of Earth over 400 000 years who were said to be gods demigods or immortals or one soul playing all the roles In Sumerian Mythology the Anunnaki were a pantheon of good and evil gods and goddesses duality who came to Earth to create the human race According to some resources these gods came from Nibiru Planet of the Crossing The Assyrians and Babylonians called the planet Marduk after their chief god The Sumerians believed one year on the planet Nibiru called a sar was equivalent in time to 3 600 Earth years The Anunnaki therefore had lifespans that were 120 sars which is $120 \times 3\,600$ or 432 000 years According to the Sumerian King List 120 sars had passed from the time the Anunnaki arrived on Earth to the time of the Great Flood According to Ancient Alien Theory the Anunnaki and other alien groups came to Earth and seeded the human race in many variations This research was led by Zecharah Sitchin and Erich von Däniken among others you can see much of their research on the History Channel Series Ancient Aliens which is also found on YouTube This physical evidence of ancient astronauts can be found throughout our planet leading one to conclude that different races visited here at different periods in Earth's history or the same aliens return and set up various civilizations in which they could inhabit and experience In the first large civilization on earth ancient Mesopotamia we must first look at the Sumerian and Akkadian mythologies The Sumerians were the first civilization on our planet to put their stories down in writing and the first to establish the names and histories of their many gods The Sumerian gods include the following examples Enki the god of water and wisdom Ninhursag the earth mother Dumuzi the shepherd Inanna the goddess of love and war Ereshkigal the goddess of the underworld and the list goes on The Akkadian civilization which replaced the Sumerian civilization changed the name of the original gods The Babylonians replaced the Akkadian civilization and changed the stories around The Babylonians believed in a male dominated society they were the first to introduce the concepts of good and evil The snake became a symbol of evil women became chaos and demons the intermediaries became the modern demons Some of the Babylonian gods included Ishtar the goddess of love and war Ea the god of wisdom Nintu Mami Belet Ili

the mother of gods Tammuz the shepherd Irkalla the goddess of the underworld Do you see some similarities The Egyptian gods and goddesses Osiris the god of the dead ruler of the underworld Sekhmet god of war and Hathor goddess of love In the Greek myths the gods and goddesses are similar with the others Ares the god of war Aphrodite the goddess of love Athena the goddess of wisdom Hades the god of the underworld If you read these mythologies in chronological order from Sumerian gods to Akkadian gods to Babylonian gods to Egyptian gods to Greek gods and to Roman gods you will find that the names and point of view changes but their attributes are virtually identical However the Sumerians were more nature based they did not have the concepts of good and evil By the time we get to the Babylonians their stories are more masculine in nature You will find words in their stories that you will not find in the Sumerian stories The Babylonians introduced the concept of good and evil their women had to ask permission they had no voice These stories suggest that their society would control nature This is the same concept in Greek and Egyptian mythologies they were also more society based rather than Nature based It is the author s conclusion that these early Sumerian gods the Anunnaki were the same gods of later civilizations
