## **The Gods That Were:**

**The Gods Were Astronauts** Erich von Däniken, 2002 Why do nearly all the world's major religions share similar myths Erich Von Däniken author of the runaway international bestseller *Chariots of the Gods* believes he knows the winged deities populating ancient religious texts were in reality extraterrestrials Fully illustrated with compelling color and black and white photographs the book takes us from Myanmar to Peru's and Egypt's unexplained landing strips **The Daily Life of the**

**Greek Gods** Giulia Sissa, Marcel Detienne, 2000 Discusses the everyday life of the gods of the Iliad including what their bodies were made of how they received nourishment their social life on Olympus and among humans and their loves festivities and disputes **They Would Be Gods** Anthony K. Forwood, 2011 *The Gods Are Silent* Daniel Dickson

Boateng, 2017-12-29 As a custodian of the gods was handed down to him by his father Papa is popular and powerful feared and revered as the most potent priest in the village of Adiembra builds confidence in himself and believes there is no power above his gods However there is a problem that tears him apart his last wife is unable to bear him a child Papa consults a god in the North who makes his last wife conceive with a condition to make a sacrifice every new moon During labor she struggles to live but dies Papa soon forgets the pain and hurt of death as the beautiful baby girl grows Papa forgets to perform the sacrifice on a few occasions as the god of the North asked The god strikes bringing punishment on the little girl with an abscess that causes her to decay till death Papas boys rebel and elope turning against him and his gods In anger Papa beats up wives and sends them away to their families living his life alone He makes love to a prostitute during a visit to his friend An ant falls from his penis he bleeds until his health deteriorates Papa loses connection with the gods and his family and consequently commits suicide **Encyclopædia Britannica, Or, A Dictionary of Arts and Sciences**, 1771

**Handbook to Life in Ancient Rome** Lesley Adkins, Roy A. Adkins, 1998 This handy reference provides full access to the 1 200 years of Roman rule from the 8th century B C to the 5th century A D including information on art literature law and engineering 150 illustrations *The Gods of Nibiru in the Ancient Near East* Ryan Moorhen, No direct explanation is given for the origin and nature of the luminous bodies the sun the planets and the stars Because as far back as our written sources go the Sumerians regarded the moon god who went by the names Sin and Nanna as the son of the air god Enlil it does not seem unreasonable to suggest that they saw the moon as a bright air like body fashioned from the atmosphere As the sun god Utu and the Venus goddess Inanna are always referred to in the texts as children of the moon god these luminous bodies were probably imagined as having come from the moon after the latter had been formed from the atmosphere The big ones walk around the moon like wild oxen and the little ones that are scattered around the moon like grain are considered the rest of the planets and stars **Twenty-five Years in East Africa** John Roscoe, 1969 **The Gods Are Watching** David D. McCormick, 2018-12-26 In 1500 BCE the Minoan king's celebrated artist Paleus is invited by the prince of Egypt to travel to Thebes to paint a mural in Egypt's royal palace But the unsuspecting Paleus and his family and friends arrive in an empire

reeling from years of war and are quickly caught up in rebellions political intrigue and even an assassination attempt on the royal family To complete his omission successfully and survive the chaos surrounding him Paleus must use his wits to deal with natural disasters uninvited passions and powerful magic and appease the Egyptian gods themselves **Battling the Gods** Tim Whitmarsh,2015 The absence of centralized religious authority made for an extraordinary variety of perspectives on sacred matters from the devotional to theatheos or godless Whitmarsh explores this kaleidoscopic range of ideas about the gods focusing on the colorful individuals who challenged their existence Among these were some of the greatest ancient poets and philosophers and writers as well as the less well known Diagoras of Melos perhaps the first self professed atheist Democritus the first materialist Socrates executed for rejecting the gods of the Athenian state Epicurus and his followers who thought gods could not intervene in human affairs the brilliantly mischievous satirist Lucian of Samosata Before the revolutions of late antiquity which saw the scriptural religions of Christianity and Islam enforced by imperial might there were few constraints on belief *The Gods of the Egyptians, Volume 1* E. A. Wallis Budge,2012-04-30 Volume 1 contains 16 chapters including The Gods of Egypt Hell and the Damned Ra the Sun God and His Forms and The Horus Gods 34 plates and 38 illustrations Religion of the Gods Kimberley Christine Patton,2009 In many of the world s religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships Various interpretations of this seeming paradox have been advanced Some suggest that it represents sacrifice to a higher deity Proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities However such explanations do not do justice to the complexity and diversity of this phenomenon In *Religion of the Gods* Kimberley C Patton uses a comparative approach to take up anew a longstanding challenge in ancient Greek religious iconography why are the Olympian gods depicted on classical pottery making libations The sacrificing gods in ancient Greece are compared to gods who perform rituals in six other religious traditions the Vedic gods the heterodox god Zurvan of early Zoroastrianism the Old Norse god Odin the Christian God and Christ the God of Judaism and Islam s Allah Patton examines the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences Instead of looking for invisible recipients or lost myths Patton proposes the new category of divine reflexivity Divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human realm Above all divine ritual is generative both instigating and inspiring human religious activity The religion practiced by the gods is both like and unlike human religious action Seen from within the religious tradition gods are not big people but other than human Human ritual is directed outward to a divine being but the gods practice ritual on their own behalf Cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed Offering the first comprehensive study and a new theory of this fascinating phenomenon *Religion of the Gods* is a significant contribution to the fields of

classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself
