The Golden Age of Railway Posters ,2015-05-07

Few sights can reawaken memories of happy holidays of yesteryear as vividly as the superb railway posters that were so much a part of the great age of mass rail travel Between the 1930s and 1950s regarded by many as the heyday of advertising graphic art a huge range of posters appeared bearing slogans proclaiming the attractions of such resorts as Weston super Mare in Smiling Somerset and presenting a colourful picture of Britain at its best Through images as diverse as bustling cities scenes of rural tranquility and majestic mountain landscapes they offer an escapist paradise where appealingly uncrowded beaches basking in permanent sunshine are just a train journey away This beautiful collection includes over 80 vintage posters from the 30s 40s and 50s with individual poster captions describing the artists and locations depicted Michael Pailin recaptures the spirit of the great days of railway holidays and train excursions in his entertaining introduction an era that is both within living memory and yet part of a bygone age *Railway Posters* Lorna Frost,2012-07-20 Railway posters have huge appeal for the modern audience but just what explains this continuing interest Enduring images of iconic locomotives bathing beauties and characters such as Sunny South Sam are testament to the creativity of the railway company marketing departments and the posters tell us not only about railway history and technology architectural and engineering accomplishments but also about the cultural and social significance of the railways The influence of the railway industry on our cities and coastlines and on the development of leisure time and holiday resorts can be seen in the recurring images of ramblers bathers and idyllic tourist destinations This book explores the changing styles and functions of the railway poster from the early pre grouping days through to the inter war golden age and nationalised British Railways **All Aboard!** Lynn Johnson,1999-06 Travel back to the wonder years of rail in this beautiful compendium of art and illustration Through luggage labels maps posters advertisements promotional brochures napkins and other colorful ephemera All Aboard celebrates our romance with the railroad Its pages provide a nostalgic look at rail travel as it used to be from the exciting early days at the turn of the century through its heyday in the 30s and through World War II Lynn Johnson and Michael O Leary have collected hundreds of period images from Deco era logos that evoke the sleek streamlined style of the day to wartime propaganda posters highlighting the muscularity of freight locomotives that transported weapons and tanks for American troops All Aboard also explores the art of the Orient Express and great European lines the rugged rails of Canada and exotic points abroad This exciting new resource for train enthusiasts and everyone on the lookout for terrific images recreates the splendor of the modern locomotive era **Poetics of the Poster** David H. T. Scott,2010-01-01 This book sets out to explore the way with the onset of a new and integral relationship between text and image the modern poster is able to evolve distinctive persuasive strategies that will transform modern advertising The book shows how this fundamental development is closely related to

contemporary developments in the visual arts in particular Futurism and Art Deco and reflects the increasing cross fertilisation and symbiosis between art and graphic design The book focuses in particular on the way conventional textual strategies metaphor metonymy rebus are adapted by the modern poster to produce visual or textual visual equivalents which through their employment of combined pictorial and linguistic elements maximise their attractive or persuasive power over the viewer reader A key aim of the book is to clarify the assumptions on which semiology the study of signs is based in the context of modern poster artists practice The text image relation is explored through five chapters focussing on 1 the rhetoric of image text in general 2 text and image in airline logos British Airways and Air France 3 visual metonymies in boxing posters 4 text and image in posters expressing speed 5 text image in Swiss tourist posters There are approximately 120 colour illustrations arranged in groups that reflect the different orientations of the chapters

The World's First Railway System Mark Casson,2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other's territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography

Travel Marketing and Popular Photography in Britain, 1888-1939 Sara Dominici,2017-10-05 This book explores how popular photography influenced the representation of travel in Britain in the period from the Kodak led emergence of compact cameras in 1888 to 1939 The book examines the implications of people's increasing familiarity with the language and possibilities of photography on the representation of travel as educational concerns gave way to commercial imperatives Sara Dominici takes as a touchstone the first fifty years of activity of the Polytechnic Touring Association PTA a London based philanthropic turned commercial travel firm As the book reveals the relationship between popular photography and travel marketing was shaped by the different desires and expectations that

consumers and institutions bestowed on photography this was the struggle for the interpretation of the travel image

An Historical Geography of Railways in Great Britain and Ireland David Turnock, 2016-12-05 Although a great deal has been published on the economic social and engineering history of nineteenth century railways the work of historical geographers has been much less conspicuous This overview by David Turnock goes a long way towards restoring the balance It details every important aspect of the railway s influence on spatial distribution of economic and social change providing a full account of the nineteenth century geography of the British Isles seen in the context of the railway The book reviews and explains the shape of the developing railway network beginning with the pre steam railways and connections between existing road and water communications and the new rail lines The author also discusses the impact of the railways on the patterns of industrial urban and rural change throughout the century Throughout the historical geography of Ireland is treated in equal detail to that of Great Britain

Railroad Nation Carlos Arnaldo Schwantes, 2025-05-15 From passenger tickets wall calendars and advertising posters to train orders and bills of lading railroads have left a colorful paper trail across America In Railroad Nation historian Carlos Arnaldo Schwantes examines a fascinating array of these materials showcasing the railroad industry s incredible variety of eye catching illustrations to enliven their timetables and promotional brochures Schwantes traces the evolution of railroad commercial art from drab black and white broadsides and text only advertisements that the early railroads placed in local newspapers to the riotous m lunge of color graphics in the early twentieth century when the visual appeal of public timetables and their thousands of different brochures enticed settlers to create farms ranches and towns alongside newly laid tracks Railroad Nation offers readers an unparalleled look at the ephemera of the railroad industry highlighting the vibrant history of railroading in America through its rich tapestry of visual materials

The St Ives Branch Line Richard C. Long, 2022-09-19 A pictorial history of the rise fall and rebirth of

the scenic railway in Cornwall featuring never before published photos In 1963 comic duo Flanders and Swann composed Slow Train a lament for some of the many railway lines proposed for closure by Dr Beeching Among the destinations listed in their song is the refrain from St Erth to St Ives Constructed in 1877 as the last broad gauge line to be built in the UK the St Ives branch did not close in the 1960s and survives to this day now widely regarded as one of the most scenic railways in Europe How did it escape closure and how did it come to be built in the first place Why did the war departments of the world have their eyes on St Ives in the years before the First World War How did a town once renowned for the inescapable smell of fish become one of the most popular tourist resorts in the UK Did the Great Western Railway invent the Cornish Riviera Why was a heliport proposed for St Erth Where did a thirty two ton ballast digger end up in 2008 And how did two young men find themselves four miles from the nearest station in 1860 Containing over 100 images mostly in colour and many never published before this book sets out to answer these and many more questions Praise for The St Ives Branch Line A detailed historical and photographic record of the line from its very beginnings to the present day An excellent reference for anyone interested in Cornwall s railways or scenic UK branch lines in general Model Rail Magazine If you are looking for a comprehensive and well illustrated overview of the St Ives line throughout its life this book will meet your requirements admirably West Somerset Railway Association *The Railway Magazine* ,2002 **Eleven Minutes Late** Matthew Engel,2010-02-05 Britain gave railways to the world yet its own network is the dearest definitely and the worst probably in Western Europe Trains are deeply embedded in the national psyche and folklore yet it is considered uncool to care about them For Matthew Engel the railway system is the ultimate expression of Britishness It represents all the nation s ingenuity incompetence nostalgia corruption humour capacity for suffering and even sexual repression To uncover its mysteries Engel has travelled the system from Penzance to Thurso exploring its history and talking to people from politicians to platform staff Along the way Engel half John Betjeman half Victor Meldrew finds the most charmingly bizarre train in Britain the most beautiful branch line the rudest railwayman and after a quest lasting decades an Individual Pot of Strawberry Jam **Eleven Minutes Late** is both a polemic and a paean and it is also very funny *The Consumerist Manifesto* Martin P. Davidson,2013-09-27 Advertising is no longer on the defensive It has survived the snobbery of the 50s the conspiracy theories of the 60s and the semiology of the 70s to be embraced and apotheosised by the 80s *The Consumerist Manifesto* is the first book to examine the advertising process from within the agency itself and from the wider perspective of advertising s dual relationship as both consumer and object with contemporary cultural theory Martin Davidson follows the creation of successful campaigns and explores how advertising has succeeded in setting the tone for even larger aspects of our material and personal lives With the impact of postmodernism and popular culture and the subsequent collapse of the old anti advertising critique the books reveals how advertising came to be embraced as the idiom of the enterprise culture and how it became central to the decades assault on traditional notions of political and cultural value Martin Davidson explores the

wider implications of advertising's dominance for cultural theory art anthropology and language Finally Martin Davidson asks how this new critique will have to develop if the industry's new credibility is to be maintained For the Love of Trains Ray Hamilton,2018-05-10 More than just a means of transport trains connect communities evoke memories and promise adventures galore This fact packed miscellany tracks their development from the earliest locomotives to today's superfast trains stopping off along the way to explore great railway journeys iconic stations and memorable depictions in the arts **A**
