The Politics Of Literature Poland 1945 1989:

The Politics of Literature Carl Tighe, 1999 This study of post war Polish intellectual history analyses the interface between politics and literature under communism It suggests that it was not the Catholic Church but the writers of the lay left who were the critics and opponents of Stalinism *Soviet Soft Power in Poland* Patryk Babiracki, 2015-05-15 Concentrating on the formative years of the Cold War from 1943 to 1957 Patryk Babiracki reveals little known Soviet efforts to build a postwar East European empire through culture Babiracki argues that the Soviets involved in foreign cultural outreach tried to use soft power in order to galvanize broad support for the postwar order in the emerging Soviet bloc Populated with compelling characters ranging from artists writers journalists and scientists to party and government functionaries this work illuminates the behind the scenes schemes of the Stalinist international propaganda machine Based on exhaustive research in Russian and Polish archives Babiracki's study is the first in any language to examine the two way interactions between Soviet and Polish propagandists and to evaluate their attempts at cultural cooperation Babiracki shows that the Stalinist system ultimately undermined Soviet efforts to secure popular legitimacy abroad through persuasive propaganda He also highlights the limitations and contradictions of Soviet international cultural outreach which help explain why the Soviet empire in Eastern Europe crumbled so easily after less than a half century of existence The Walls Behind the Curtain Harold B. Segel, 2012-11-11 Because of their visibility in society and ability to shape public opinion prominent literary figures were among the first targets of Communist repression torture and incarceration Authors such as Aleksandr Solzhenitsyn famously documented the experience of internment in Soviet gulags Little however has been published in the English language on the work of writers imprisoned by other countries of the Soviet bloc For the first time *The Walls Behind the Curtain* presents a collection of works from East European novelists poets playwrights and essayists who wrote during or after their captivity under communism Harold B Segel paints a backdrop of the political culture and prison and labor camp systems of each country detailing the onerous conditions that writers faced Segel then offers biographical information on each writer and presents excerpts of their writing Notable literary figures included are Vaclav Havel Eva Kanturkova Milan Simecka Adam Michnik Milovan Djilas Paul Goma Tibor Dery and Visar Zhiti as well as many other writers This anthology recovers many of the most important yet overlooked literary voices from the era of Communist occupation Although translated from numerous languages and across varied cultures there is a distinct commonality in the experiences documented by these works *The Walls Behind the Curtain* serves as a testament to the perseverance of the human spirit and a quest for individual liberty that many writers forfeited their lives for **Composing the Party Line** David G. Tompkins, 2013-10-15 This book examines the exercise of power in the Stalinist music world as well as the ways in which composers and ordinary people responded to it It presents a comparative inquiry into the relationship between music and politics in the German Democratic Republic and Poland from the aftermath of World War II through Stalin's death in 1953 concluding with the slow process of de

Stalinization in the mid to late 1950s The author explores how the Communist parties in both countries expressed their attitudes to music of all kinds and how composers performers and audiences cooperated with resisted and negotiated these suggestions and demands Based on a deep analysis of the archival and contemporary published sources on state party and professional organizations concerned with musical life Tompkins argues that music as a significant part of cultural production in these countries played a key role in instituting and maintaining the regimes of East Central Europe As part of the Stalinist project to create and control a new socialist identity at the personal as well as collective level the ruling parties in East Germany and Poland sought to saturate public space through the production of music Politically effective ideas and symbols were introduced that furthered their attempts to in the parlance of the day engineer the human soul Music also helped the Communist parties establish legitimacy Extensive state support for musical life encouraged musical elites and audiences to accept the dominant position and political missions of these regimes Party leaders invested considerable resources in the attempt to create an authorized musical language that would secure and maintain hegemony over the cultural and wider social worlds The responses of composers and audiences ran the gamut from enthusiasm to suspicion but indifference was not an option **Empson, Wilson Knight, Barber, Kott** Hugh Grady, 2014-03-27 Great Shakespeareans
