The Politics Of Poetic Form Poetry And Public Policy:

The Politics of Poetic Form Charles Bernstein, 1990 *The Politics of Poetic Form Poetry and Public Policy* is a series of essays from a discussion that occurred at the New School for Social Research in New York The discussion mines the relationship between poetic composition and political expression Poetry's relationship to public policy typically has a questionable margin of relation Not only does this volume posit that poetry is a dynamic medium for the consideration of political ideas it focuses on the ideological weight specific formal innovations bring to poetry Some of the contributors include Bruce Andrews Charles Bernstein Tina Darragh Alan Davies Carla Harryman Lyn Hejinian Susan Howe P Inman Jackson Mac Low Nathaniel Mackey Bob Perelman Kit Robinson Jerome Rothenberg Ron Silliman James Sherry and Diane Ward

Blake, Nationalism, and the Politics of Alienation Julia M. Wright, 2004 Despite his reputation as a staunch individualist and repeated attacks on institutions that constrain the individual's imagination Julia Wright argues that William Blake rarely represents isolation positively and explores his concern with the kind of national community being established

Poetics of Politics Sebastian M. Herrmann, Carolin Alice Hofmann, Katja Kanzler, Stefan Schubert, Frank Usbeck, 2015-04-22 This volume proposes the poetics of politics as an analytic angle to interrogate contemporary cultural production in the United States As recent scholarship has observed American literature and culture around the turn of the millennium while still deeply informed by the textual self-consciousness of postmodernism are marked by a rekindled interest in matters of social concern This revived interest in politics is frequently read as a grand epochal transition Sidestepping such a logic of periodization this book points to the interplay between the textual and the political as a dynamic always locally specific that affords unique insights into the characteristics of the contemporary moment The sixteen case studies in this book explore this interplay across a wide range of media genres and modes Together they make visible a broad cultural concern with negotiating social relevance and textual self-awareness that permeates and structures contemporary US popular culture

A Nomad Poetics Pierre Joris, 2003-11-05 In his first collection of critical essays Joris maps the success and limitations of contemporary avant-garde poetics This investigation leads him to envision a nomadic poetics as a strategy for new poetic work for translation and fundamentally for an ethics of early 21st-century life

Jayne Cortez, Adrienne Rich, and the Feminist Superhero Laura Hinton, 2016-03-25 One a lyric confessional poet and essayist the other a jazz spoken word performance artist Adrienne Rich and Jayne Cortez were American feminist superheroes who produced extensive bodies of poetic work that reveal strangely overlapping visions but in radically different voices and poetic styles This book reconsiders the poetry activism of Cortez and Rich side by side engaging poetics theory cultural studies and popular media in its literary analyses A collection of eight integrated chapters by multiple poetry critics as well as an artist statement narrative by Wonder Woman sculptor Linda Stein the book focuses upon the voice of bravado the various calls for global justice and Third Wave feminist intersectional critiques all embodied within these two women's poetic texts The book also examines the

twentieth century figure of the American superhero particularly Wonder Woman bringing popular culture studies into conversation with literary criticism as well as visual art through the inclusion of Stein's commentary and illustrations This beautiful and compelling book experiments with the festschrift concept by inviting multiple and competing disciplinary views on U S feminist poetics women's art and aesthetics racial and sexual identities as well as politics and performance all in tribute to the power of poetry by Cortez and Rich

Opposing Poetries: Readings Hank Lazer, 1996 Explains to structural engineers some of the basic equations for analyzing and designing buildings that were devised at the end of the 19th century but were so unmanageably complex to solve that they were displaced by approximation techniques until the recent advent of electronic computer Heyman engineering U of Cambridge warns that some of the equations turn out not to fit reality as close as future occupants of buildings might prefer and explains how to use them and in what context Annotation copyrighted by Book News Inc Portland OR

Disjunctive Poetics Peter Quartermain, 1992-06-26 Disjunctive Poetics examines some of the experimental contemporary writers including Stein and Zukofsky whose work forms a counterpoint to the mainstream writing of our time Peter Quartermain suggests that the explosion of such modern writing is linked to the severe political social and economic dislocation of non English speaking immigrants who arriving in America at the turn of the century found themselves uprooted

from their tradition and disassociated from their culture
