The Politics Of Womens Work The Paris Garment Trades 1750 1915:

The Politics of Women's Work Judith G. Coffin, 2014-07-14 Few issues attracted more attention in the nineteenth century than the problem of women's work and few industries posed that problem more urgently than the booming garment industry in Paris. The seamstress represented the quintessential working girl and the sewing machine the icon of modern femininity. The intense speculation and worry that swirled around both helped define many issues of gender and labor that concern us today. Here Judith Coffin presents a fascinating history of the Parisian garment industry from the unraveling of the guilds in the late 1700s to the first minimum wage bill in 1915. She explores how issues related to working women took shape and how gender became fundamental to the modern social division of labor and our understanding of it. Combining the social history of women's labor and the intellectual history of nineteenth century social science and political economy, Coffin sets many questions in their fullest cultural context. What constituted women's work? Did women belong in the industrial labor force? Why was women's work equated with low pay? Should not a woman enjoy status as an enlightened homemaker/consumer? The author examines patterns of consumption as well as production, setting out for example the links among the newly invented sewing machine, changes in the labor force, and the development of advertising with its shifting and often unsettling visual representations of women labor and machinery. Throughout, Coffin challenges the conventional categories of work/home and women's identity. Eighteenth-Century Brittany Nancy Locklin, 2016-02-17 Based on a solid foundation of archival research that ranges from tax rolls to notarial records, this study adds an important chapter to our understanding of women in pre-industrial Europe. Through a rigorous examination of primary documents peculiar to eighteenth-century Brittany, the author demonstrates the difficulties engendered in broad generalities about European women and makes a strong case for the necessity for historians to account for regional differences in women's experiences. In particular, Nancy Locklin makes a compelling argument for the need to incorporate a broader basis upon which women attained their identity. Indeed, Locklin rightly contends that most women in pre-industrial European societies were recognized and perhaps saw themselves through a variety of identities over the course of their lives, depending on their age, familial connections, marital status, and the type of work they performed, and that often these identities overlapped. Locklin also shows the extent to which legal and ideological prescriptions painted a relatively negative picture of women's status, but that a close examination of women's participation in family, community, and commercial affairs reveals a much more complex and divergent reality. France and Women, 1789-1914 James McMillan, Professor James F Mcmillan, 2002-01-08 France and Women 1789 1914 is the first book to offer an authoritative account of women's history throughout the nineteenth century James McMillan author of the seminal work *Housewife or Harlot* offers a major reinterpretation of the French past in relation to gender throughout these tumultuous decades of revolution and war This book provides a challenging discussion of the factors which made French political culture so profoundly sexist and in particular it shows that many of the myths about progress and emancipation associated with modernisation and the coming of mass politics do not stand up to close scrutiny It also reveals the conservative nature of the republican left and of the ingrained belief throughout French society that women should remain within the domestic sphere James McMillan considers the role played by French men and women in the politics culture and society of their country throughout the 1800s

Between the Sheets Hannah Frydman, 2025-07-15 *Between the Sheets* reveals a space hidden in plain sight in Third Republican Paris where deviant sexualities and lives could be experimented with and financed despite republican attempts at growing and norming the population through the heterosexual family That space was the newspaper which was not simply a tool of normalization and a site of dominant discourse as it has frequently been imagined Reading between the lines Hannah Frydman shows how through the Belle époque classifieds the newspaper became a tool for living lives otherwise as information flowed from it not just vertically but also laterally facilitating person to person communication The sexual relationships exchanges and services enabled by this communication were far from utopian Surviving and thriving outside of social norms often required exploiting others Yet by attending to the lives and livelihoods enabled by the classifieds ethical or otherwise *Between the Sheets* demonstrates that

thanks to new innovations in media technologies queer and nonnormative lives in this period were lived in the center as well as on the margins It was this centrality however that inspired efforts to place new moral controls on mass cultural forms and technologies After World War I in an interwar moment often characterized as one of sexual liberation the press s queerness was subjected to ever increasing surveillance and control with repercussions for press freedom writ large These repercussions echo into our age of social media with its promise of unfettered connection which inspires repressive legislation to keep sexuality and with it freedom in its crosshairs
