The Power of Scale: A Global History Approach John Bodley, 2015-06-01 Throughout history the natural human inclination to accumulate social power has led to growth and scale increases that benefit the few at the expense of the many John Bodley looks at global history through the lens of power and scale theory and draws on history economics anthropology and sociology to demonstrate how individuals have been the agents of social change not social classes Filled with tables and data to support his argument this book considers how increases in scale necessarily lead to an increasingly small elite gaining disproportionate power making democratic control more difficult to achieve and maintain **The Power of the Poor in History** Gustavo Gutierrez, 2004-10-29 Gustavo Gutierrez the doyen of the Latin American liberation theologians published his landmark *A Theology of Liberation* in English in 1973 In *The Power of the Poor in History* he presents in eight major essays his developing theological insights A faithful history of the late discussions in Bengal, on the power of transportation without trial, assumed as a right by the supreme government of India, to be exercised on any Englishman, who may honestly avail himself of the freedom of the press. Goods, Power, History Arnold J. Bauer, 2001-04-30 Why do we acquire the things we do Behind this apparently ingenuous question are several answers some straightforward and others more interesting To feed ourselves might be the first response for we can easily see that we expend much energy in the quest for food Clothing and shelter as well would seem to constitute our basic needs Yet we quickly see that even in the Garden of Eden people want more than they need This simple impulse has created the ever mounting abundance we call progress and nearly all of the subsequent trouble on our planet Four main interwoven themes run through this exploration of material culture and consumption in Latin America over the past five centuries supply and demand the relationships between consumption and identity the importance of ritual both ancient and modern in what we buy and the relationship between colonial and post colonial power in consumption
