Easternization of the West Colin Campbell,2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences **Massacre at Camp Grant** Chip

Americans Mexican Americans and Tohono O odham Indians massacred more than a hundred Apache men women and children who had surrendered to the U S Army at Camp Grant near Tucson Arizona Thirty or more Apache children were stolen and either kept in Tucson homes or sold into slavery in Mexico Planned and perpetrated by some of the most prominent men in Arizona s territorial era this organized slaughter has become a kind of phantom history lurking beneath the Southwest s official history strangely present and absent at the same time Seeking to uncover the mislaid past this powerful book begins by listening to those voices in the historical record that have long been silenced and disregarded Massacre at Camp Grant fashions a multivocal narrative interweaving the documentary record Apache narratives historical texts and ethnographic research to provide new insights into the atrocity Thus drawing from a range of sources it demonstrates the ways in which painful histories continue to live on in the collective memories of the communities in which they occurred Chip Colwell Chanthaphonh begins with the premise that every account of the past is suffused with cultural historical and political characteristics By paying attention to all of these aspects of a contested event he provides a nuanced interpretation of the cultural forces behind the massacre illuminates how history becomes an instrument of politics and contemplates why we must study events we might prefer to forget
