Effective Interventions for Children in Need Barbara Maughan, 2017-03-02 This book sets out the current state of knowledge about what works in reducing impairments to children's health and development Little and Maughan's book applies a high standard of proof and reproduces only the work of the leading intervention scientists from around the world After discussing the real world challenges to more effective children's services the book goes on to cover policy and practice proven to change the lives of all children and extends also to effective programmes targeted at children with specific disorders Examples include changes in household income early years support moving families to less disadvantaged communities improving parenting and using schools to better mental health The benefits of evidence based programmes are specified as are the costs to society of not intervening The evidence is used to make recommendations about getting effective policy and practice into routine use and includes illustrations of successful applications of these ideas **Spaces for**

Children T.G. David, C.S. Weinstein, 2013-11-11 As a developmental psychologist with a strong interest in children's response to the physical environment I take particular pleasure in writing a foreword to the present volume It provides impressive evidence of the concern that workers in environmental psychology and environmental design are displaying for the child as a user of the designed environment and indicates a recognition of the need to apply theory and findings from developmental and environmental psychology to the design of environments for children This seems to me to mark a shift in focus and concern from the earlier days of the interaction between environmental designers and psychologists that occurred some two decades ago and provided the impetus for the establishment of environmental psychology as a subdiscipline Whether because children though they are consumers of designed environments are not the architect's clients or because it seemed easier to work with adults who could be asked to make ratings of environmental spaces and comment on them at length a focus on the child in interaction with environments was comparatively slow in developing in the field of environment and behavior As the chapters of the present volume indicate that situation is no longer true today and this is a change that all concerned with the well being and optimal functioning of children will welcome Lasting Effects After Preschool Consortium for Longitudinal Studies, 1979 *Pivotal Research in Early Literacy* Christina M. Cassano, Susan M.

Dougherty, 2018-07-19 This reader friendly text examines the key foundational studies in early literacy It addresses such essential questions as how research informs current practices and where the field still needs to go to provide the best learning opportunities for all children Each chapter describes the methods and findings of one to five seminal studies critically assesses their long term impact on practice and policy and offers takeaways for the classroom Leading authorities

including several authors of the original pivotal studies cover 12 essential aspects of language development literacy development and home and community literacy experiences in PreK 2 **Pamphlet - Women's Bureau** United States. Women's Bureau,1956
