The Prison As Metaphor Re Imagining International Relations Studies In International Relations Vol 1:

The Prison as Metaphor Michael P. Marks, 2004 Whether wittingly or unwittingly scholars of international relations have peppered the field with a wide range of metaphors that serve as vehicles for theorizing about world affairs Yet as pervasive as metaphors are in international relations theory theorists efforts to employ metaphorical imagery to suggest new ways of thinking have been haphazard and sporadic In this book Michael P Marks suggests a new metaphor with which to conceptualize international relations the modern prison Many of the same questions that are asked about the so called anarchy of the international system are also frequently asked of life among prison inmates Marks finds that lessons from inmate relations can be applied to the study of international affairs This comparison between the prison and international relations reveals how the construction of human interaction in both realms is infinitely complex

International Relations Theory Michael Haas, 2016-12-27 While many texts on international relations deal only with ideologies this book goes beyond discussion of ideology to provide an understanding of how global economics politics and society operate The book begins with a history of the International Studies Association which was founded to develop empirically based knowledge and was opposed to ideological isms as biased guides to policy The book focuses on four major paradigms Marxian Mass Society Community Building and Rational Choice with diagrams indicating their empirical predictions over time The Marxian paradigm focuses on scientific claims of Marx and Engels The Mass Society paradigm explains why democracies become dysfunctional The Community Building paradigm explains how communities can be and are built at the local national regional and international levels The Rational Choice paradigm assembles proposed explanations of reason based economic political and social life to demonstrate what they have in common Other candidates for paradigms are reviewed with a focus on why they need further development to become major paradigms at the decision making dyadic societal national and international system levels of analysis

Warring with Words Michael Hanne, William D. Crano, Jeffery Scott Mio, 2014-08-01 Scholars in many of the disciplines surrounding politics explicitly utilize either a narrative perspective or a metaphor perspective though rarely the two in combination to analyze issues theoretical and practical domestic and international in the broad field of politics Among the topics they have studied are competing metaphors for the state or nation which have been coined over the centuries in diverse cultures the frequency with which communal and international conflicts are generated at least in part by the clashing religious and historical narratives held by opposing groups the cognitive short cuts employing metaphor by which citizens make sense of politics the need for political candidates to project a convincing self narrative the extent to which the metaphors used to formulate social issues determine the policies which will be developed to resolve them the failure of narratives around the security of the nation to take account of the individual experiences of women and children This volume is the first in which eminent scholars from disciplines as diverse as social psychology anthropology political theory international relations feminist political science and media studies have sought to integrate the narrative and the

metaphor perspectives on politics It will appeal to any scholar interested in the many ways in which narrative and metaphor function in combination as cognitive and rhetorical instruments in discourse around politics *The Linguistics of Crime* John Douthwaite,Ulrike Tabbert,2023-01-05 Bringing together scholars from a range of disciplines this book explores the analysis of crime related language Drawing on ideas from stylistics pragmatics cognitive linguistics metaphor theory critical discourse analysis multimodality corpus linguistics and intertextuality it compares and contrasts the linguistic representation of crime across a range of genres both fictitious crime novels and crime in TV film and music and in real life crime reporting prison discourse and statements used in courts It touches on current political topics like BlackLivesMatter human child trafficking and the genocide of the Kurds among others making it essential reading for linguists criminologists and those with a general interest in crime related topics alike Covering a variety of text genres and methodological approaches and united by the aim of deciphering how crime is portrayed ideologically this book is the next step in developing research at the intersection of linguistics criminology literature and media studies **IBSS: Political Science: 2004 Vol. 53** The British Library of Political and Economic Science,2005-10-26 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French [American Book Publishing Record](#) ,2004 **Forthcoming Books** Rose Arny,2003 □□□□ ,2008 **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland),2004-05 **IJER Vol 5-N1** International Journal of Educational Reform,1996-01-01 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of
