The Prison Industrial Complex And The Global Economy:

Prison-Industrial Complex and the Global Economy Linda Evans, Eve Goldberg, 2009-09-01 The prison business in the US is not based on locking up punishing or rehabilitating dangerous hoodlums Follow the money and find how the prison industrial complex fits into the New World Order of free trade and imprisoned people the war on drugs and capital flight

The Prison Industrial Complex and the Global Economy Eve Goldberg, Linda Evans, 2005 **The Prison-industrial Complex & the Global Economy** Eve Goldberg, Linda Evans, 2009 A look at the economic motives for continued excessive imprisonment of individuals The Prison-industrial Complex & the Global Economy Eve Goldberg, 2009 *Global Lockdown* Julia Sudbury, Julia Chinyere Oparah, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Prison Industrial Complex For Beginners** James Braxton Peterson, 2016-02-10 Prison Industrial Complex For Beginners is a graphic narrative project that attempts to distill the fundamental components of what scholars activists and artists have identified as the Mass Incarceration movement in the United States Since the early 1990s activist critics of the US prison system have marked its emergence as a complex in a manner comparable to how President Eisenhower described the Military Industrial Complex Like its institutional cousin the Prison Industrial Complex features a critical combination of political ideology far reaching federal policy and the neo liberal directive to privatize institutions traditionally within the purview of the government The result is that corporations have capital incentives to capture and contain human bodies The Prison Industrial Complex relies on the law and order ideology fomented by President Nixon and developed at least partially in response to the unrest generated through the Civil Rights Movement It is and has been enhanced and emboldened via the US war on drugs a slate of policies that by any account have failed to do anything except normalize the warehousing of nonviolent substance abusers in jails and prisons that serve more as criminal training centers than as redemptive spaces for citizens who might re enter society successfully Prison Industrial Complex For Beginners is a primer for how these issues emerged and how our awareness of the systems at work in mass incarceration might be the very first step in reforming an institution responsible for some of our most egregious contemporary civil rights violations

Beneath the Mountain: An Anti-Prison Reader Mumia Abu-Jamal, Jennifer Black, 2024-07-16 Essential radical texts by enslaved jailed and imprisoned Americans edited by renowned political prisoner Mumia Abu Jamal and activist scholar Jennifer Black Filled with insight and energy this extraordinary book gifts us the opportunity to encounter people s understanding of the fight for freedom from the inside out Ruth Wilson Gilmore author of *Golden Gulag* and *Abolition Geography* Martin Luther King told us what he saw when he went to the mountaintop But there s also the foot of the mountain and there are also the regions beneath the surface I want to try to tell you a little something about those regions Angela Y Davis author of *Angela Davis An Autobiography* *Beneath the Mountain* is a reader s guide for understanding the evolution of anti prison tenets This essential core of primary texts provides an arc of insurgent writings by dissidents and

revolutionaries who experienced incarceration and state terror first hand With contributions from John Brown Frederick Douglass and Crazy Horse to Assata Shakur Malcolm X and Leonard Peltier it also includes a previously unpublished communique from Angela Davis written from jail at the time when she was forging the anti prison critique that has since inspired a national movement Beneath the Mountain offers a record of the historic foundations for the contemporary abolition movement What emerges from these texts is an emancipatory vision that inspires the work being done today a vision centered on organizing and solidarity as an antidote to repression An invaluable resource for readers on both sides of prison walls this compendium of resistance and hard won vision will be essential to all who seek to develop an abolitionist critique and to further an understanding of the nature of repression and liberation New Directions in Crime and Deviancy Simon Winlow, Rowland Atkinson, 2013-06-07

Criminology is at a crossroads In the last two decades it has largely failed to produce the kind of new intellectual frameworks and empirical data that might help us to explain the high levels of crime and interpersonal violence that beset inner city areas and corrode community life Similarly it has failed to adequately explain forms of antisocial behaviour that are just as much a part of life in corporate boardrooms as they are in the ghettos of north America and the sink estates of Britain Criminology needs to rethink the problem of crime and re engage its audience with strident theoretical analysis and powerful empirical data In *New Directions in Crime and Deviancy* some of the world's most talented and polemical critical criminologists come together to offer new ideas and new avenues for analysis The book contains chapters that address a broad range of issues central to 21st century critical criminology ecological issues and the new green criminology the broad impact of neoliberalism upon our cultural and economic life recent signs of political resistance and opposition systemic and interpersonal forms of violence growing fear and enmity in cities the backlash against the women's movement the subjective pathology of the serial killer computer hacking and so on Based on key papers presented at the historic York Deviancy Conferences this cutting edge volume also contains important critical essays that address criminological research methods and the production of criminological knowledge It is key reading material for those with an academic interest in critical cultural and theoretical criminology and crime and deviance more generally *The Imperial University* Piya Chatterjee, Sunaina Maira, 2014-04-15

At colleges and universities throughout the United States political protest and intellectual dissent are increasingly being met with repressive tactics by administrators politicians and the police from the use of SWAT teams to disperse student protestors and the profiling of Muslim and Arab American students to the denial of tenure and dismissal of politically engaged faculty *The Imperial University* brings together scholars including some who have been targeted for their open criticism of American foreign policy and settler colonialism to explore the policing of knowledge by explicitly linking the academy to the broader politics of militarism racism nationalism and neoliberalism that define the contemporary imperial state The contributors to this book argue that academic freedom is not a sufficient response to the crisis of intellectual repression Instead they contend that battles fought over academic containment

must be understood in light of the academy's relationship to U.S. expansionism and global capital. Based on multidisciplinary research, autobiographical accounts, and even performance scripts, this urgent analysis offers sobering insights into such varied manifestations of the imperial university as CIA recruitment at Black and Latino colleges, the connections between universities and civilian and military prisons, and the gender and sexual politics of academic repression.

White Reconstruction Dylan Rodriguez, 2020-10-27

A compelling study of how the idea of white supremacy persists long after the Civil Rights Act, as thoughtful as it is fierce. David Roediger, author of *The Sinking Middle Class: A Political History*. We are in the fray of another signature moment in the long history of the United States as a project of anti-Black and racial colonial violence. Long before November 2016, white nationalism, white terrorism, and white fascist statecraft proliferated. Thinking across a variety of archival, testimonial, visual, and activist texts from Freedmen's Bureau documents and the Join LAPD hiring campaign to Barry Goldwater's hidden tattoo and the Pelican Bay prison strike, Dylan Rodriguez counter-narrates the long post-civil rights half-century as a period of White Reconstruction in which the struggle to reassemble the ascendancy of White Being permeates the political and institutional logics of diversity, inclusion, formal equality, and multiculturalist white supremacy. Throughout White Reconstruction, Rodriguez considers how the creative, imaginative, speculative, collective labor of abolitionist praxis can displace and potentially destroy the ascendancy of White Being and Civilization in order to create possibilities for insurgent thriving.
