

History of the Germans

The Germans Of History

Steven Mueller

The Germans Of History:

The Germans: Double History Of A Nation Emil Ludwig, 2020-09-17 This is Emil Ludwig's 1941 book *The Germans Double History of A Nation* A history of the German people rather than of Germany itself this fascinating volume offers a unique insight into the spirit and personality of the Germans and is highly recommended for those with an interest in European history Contents include The Dreams of World Domination from Charlemagne to Gutenberg 800 1500 Struggle for the Creed from Luther to Kepler 1500 1650 Schism of State and Spirit from the Great Elector to Goethe 1650 1800 World Citizens and Nationalists from Beethoven to Bismarck etc Emil Ludwig 1881 1948 was a German writer famous for his biographies of great historical figures Many classic books such as this are becoming increasingly rare and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with a specially commissioned new biography of the author

The Germans: Emil Ludwig, 1941 *A Mighty Fortress* Steven Ozment, 2005-01-18 The word German was being used by the Romans as early as the mid first century B C to describe tribes in the eastern Rhine valley Nearly two thousand years later the richness and complexity of German history have faded beneath the long shadow of the country's darkest hour in World War II Now award winning historian Steven Ozment whom *The New Yorker* has hailed as a splendidly readable scholar gives us the fullest portrait possible in this sweeping original and provocative history of the German people from antiquity to the present holding a mirror up to an entire civilization one that has been alternately Western Europe's most successful and most perilous

Chapters of German History Veit Valentin, 2020-06-29 Originally published in 1940 this book covers German history including chapters on Prussia the beginning of the Frankfurt Parliament and the civil war for the constitution

History of the German People from the First Authentic Annals to the Present Time Edward Sylvester Ellis, Augustus R. Keller, 1916 *The Germans of History* Steven Mueller, 2000-08-01 Steven Mueller's *The Germans of History* provides a welcome addition to any library of German or European history Included are approximately 350 biographies of historic German personalities a 2 000 year narrative history of the German nation and valuable information on its rulers and royal families Included are famous rulers statesmen inventors artists philosophers scientists musicians and many more Inside you will find such personalities ranging from Luther to Durer Bismarck to Frederick the Great Goethe to Gutenberg and Beethoven to Bach

A Mighty Fortress Steven Ozment, 2004-03-30 The word German was being used by the Romans as early as the mid first century B C to describe tribes in the eastern Rhine valley Nearly two thousand years later the richness and complexity of German history have faded beneath the long shadow of the country's darkest hour in World War II Now award winning historian Steven Ozment whom *The New Yorker* has hailed as a splendidly readable scholar gives us the fullest portrait possible in this sweeping original and provocative history of the German people from antiquity to the present holding a mirror up to an entire civilization one that has been alternately Western Europe's most successful and most perilous *A Mighty Fortress* boldly examines Germany's

tumultuous twentieth century in light of its earliest achievements as a prosperous civil and moral society tracing a line of continuity that began in ancient times and has endured through the ages despite its enemies and itself Ozment's story takes us from the tribes of the Roman Empire and the medieval dynasties to the fall of the Berlin Wall and reunification He shows that the Germans are a people who desire national unity yet have kept themselves from it by aligning with autocratic territorial governments and regional cultures From Luther Kant Goethe and Beethoven to Marx Einstein Bismarck and Hitler the country's leading figures have always tried to become everything and more than what ordinary mortals could be In fact Germans living centuries apart have shared in different ways a common defining experience that is unique to their culture a convergence of external provocation and wounded pride and an unusual ability to exercise great power in response to both In this work of penetrating virtuoso scholarship Steven Ozment captures the soul of a nation that is at once ordered and chaotic disciplined and obsessive proud and uncertain Epic in scope refreshing in its insights and written with nuance acumen and verve *A Mighty Fortress* presents the history of the Germans as the story of humanity writ large **German History** Hans Kohn, 2019-06-28 Originally published in 1954 this book presents the view of nine liberal German historians in reconsideration of the dominant concepts of German political and cultural history in the immediate post war years They review critically not only the rise and rule of National Socialism but also the strength of authoritarianism and militarism the weakness of democracy and liberal attitudes in 19th Century Germany The essays were published in German periodicals and pamphlets between 1945 and 1952 and collected in this volume and translated into English they represent a survey of one of the most important intellectual movements of reconsideration and of political and moral readjustment after World War II

Germany in the World: A Global History, 1500-2000 David Blackbourn, 2023-06-06 Brilliantly conceived and majestically written this monumental work of European history recasts the five hundred year history of Germany With *Germany in the World* award winning historian David Blackbourn radically revises conventional narratives of German history demonstrating the existence of a distinctly German presence in the world centuries before its unification and revealing a national identity far more complicated than previously imagined Blackbourn traces Germany's evolution from the loosely bound Holy Roman Empire of 1500 to a sprawling colonial power to a twenty first century beacon of democracy Viewed through a global lens familiar landmarks of German history the Reformation the Revolution of 1848 the Nazi regime are transformed while others are unearthed and explored as Blackbourn reveals Germany's leading role in creating modern universities and its sinister involvement in slave trade economies A global history for a global age *Germany in the World* is a bold and original account that upends the idea that a nation's history should be written as though it took place entirely within that nation's borders

The Seduction of Culture in German History Wolf Lepenies, 2009-01-10 During the Allied bombing of Germany Hitler was more distressed by the loss of cultural treasures than by the leveling of homes Remarkably his propagandists broadcast this fact convinced that it would reveal not his callousness but his sensitivity the destruction had failed to crush his artist's

spirit It is impossible to begin to make sense of this thinking without understanding what Wolf Lepenies calls *The Seduction of Culture in German History* This fascinating and unusual book tells the story of an arguably catastrophic German habit that of valuing cultural achievement above all else and envisioning it as a noble substitute for politics Lepenies examines how this tendency has affected German history from the late eighteenth century to today He argues that the German preference for art over politics is essential to understanding the peculiar nature of Nazism including its aesthetic appeal to many Germans and others and the fact that Hitler and many in his circle were failed artists and intellectuals who seem to have practiced their politics as a substitute form of art In a series of historical intellectual literary and artistic vignettes told in an essayistic style full of compelling aphorisms this wide ranging book pays special attention to Goethe and Thomas Mann and also contains brilliant discussions of such diverse figures as Novalis Walt Whitman Leo Strauss and Allan Bloom *The Seduction of Culture in German History* is concerned not only with Germany but with how the German obsession with culture sense of cultural superiority and scorn of politics have affected its relations with other countries France and the United States in particular

Speculations on German History Barry Emslie, 2015 Provocative and spiced with humor this book uses a cultural studies approach to examine the fraught relationship in German history between material reality and ideology German history never loses its fascination It is exceptionally varied contradictory and raises difficult problems for the historian In a material sense there have been a great many Germanies so that it was long unclear what Germany would amount to geopolitically while German intellectuals fought constantly over the ideas of Germany Provocative and spiced with humor *Speculations* tackles Germany's successes and catastrophes in view of this fraught relationship between material reality and ideology Concentrating on the period from Friedrich the Great until today the book is less a conventional history than an extended essay It moves freely within the chosen period and because of its cultural studies disposition devotes a great deal of attention to German writers artists and intellectuals It looks at the ways in which German historians have attempted to come to terms with their own varying notions of nation culture and race An underlying philosophical assumption is that history is not one dominant narrative but a struggle between competing simultaneous narratives like all those Germanies of the past and of the mind history is plural Barry Emslie pursues this agenda into the present arguing that there has been an unprecedented qualitative change in the Federal Republic in the quarter century since unification Barry Emslie lives and teaches in Berlin He is the author of *Richard Wagner and the Centrality of Love* Boydell Press 2010 and *Narrative and Truth An Ethical and Dynamic Paradigm for the Humanities* Palgrave Macmillan 2012

The Peculiarities of German History David Blackbourn, Geoff Eley, 1984 This book investigates the role of bourgeoisie society and the political developments of the nineteenth century in the peculiarities of German history Most historians attribute German exceptionalism to the failure or absence of bourgeois revolution in German history and the failure of the bourgeoisie to conquer the pre industrial traditions of authoritarianism However this study finds that there was a bourgeois revolution in Germany though not the traditional

type This so called silent bourgeois revolution brought about the emergence and consolidation of the capitalist system based on the sanctity and disposability of private property and on production to meet individual needs through a system of exchange dominated by the market In this connection this book proposes a redefinition of the concept of bourgeois revolution to denote a broader pattern of material institutional legal and intellectual changes whose cumulative effect was all the more powerful for coming to be seen as natural **Gendering Modern German History** Karen Hagemann, Jean H.

Quataert, 2007-08-01 Writing on the history of German women has like women's history elsewhere undergone remarkable expansion and change since it began in the late 1960s Today Women's history still continues to flourish alongside gender history but the focus of research has increasingly shifted from women to gender This shift has made it possible to make men and masculinity objects of historical research too After more than thirty years of research it is time for a critical stocktaking of the gendering of the historiography on nineteenth and twentieth century Germany To provide a critical overview in a comparative German American perspective is the main aim of this volume which brings together leading experts from both sides of the Atlantic They discuss in their essays the state of historiography and reflect on problems of theory and methodology Through compelling case studies focusing on the nation and nationalism military and war colonialism politics and protest class and citizenship religion Jewish and non Jewish Germans the Holocaust the body and sexuality and the family this volume demonstrates the extraordinary power of the gender perspective to challenge existing interpretations and rewrite mainstream arguments *German History, 1770-1866* James J. Sheehan, 1989 Now available in paperback this is a uniquely authoritative study of Germany from the mid eighteenth century to the formation of the Bismarckian Reich James J Sheehan gives an extensive account of social and cultural as well as political developments and shows that the creation of a Prussian led nation state should not be seen as natural or inevitable He shows how German history in this period was shaped by three separable yet closely linked developments the rise of sovereign territorial states the expansion of economic activity and social mobility and the emergence of a literary culture Revolutions in Modern German History Andrew G.

Bonnell, 2025-05-29 Andrew G Bonnell's innovative survey examines the history of revolution in modern Germany by focusing on key revolutionary developments in the German states There is coverage of Germany and the French Revolution the 1848 revolutions the Industrial Revolution the 1918-19 revolution the Nazi revolution of 1933 the revolution from above in Eastern Germany 1945-49 and the revolution in East Germany in 1989-90 *Revolutions in Modern German History* sheds new light on the subject by stressing the continuity of conflicts between revolution and counter revolution in German history thereby restoring a sense of the dramatic social conflicts that punctuated the history of the country It also reveals the significance of wider European and transnational developments of revolutionary and counter revolutionary movements and events Bonnell even reconstructs a sense of the participants changing horizon of expectations during these events by looking in depth at the lives of men and women who lived and experienced these tumultuous times A Short History of German Literature

Hosmer, 1892 *Germany and the Germans from an American Point of View* Price Collier, 1913 *A History of Germany, from the Earliest Times* Charlton Thomas Lewis, 1885 A History of Modern Germany Martin Kitchen, 2011-05-02

Featuring revised and extended coverage the second edition of *A History of Modern Germany* offers an accessible and engagingly written account of German history from 1800 to the present Provides readers with a long view of modern German history revealing its continuities and changes Features updated and extended coverage of German social change and modernization class religion and gender Includes more in depth coverage of the German Democratic Republic Examines Germany's social political and economic history Covers the unification of Germany the German Empire the Weimar Republic the Third Reich post war division the collapse of Communism and developments since re unification Addresses regional history rather than focusing on the dominant role of Prussia Germany and the Germans from an American Point of View Price Collier, 1914

This is likewise one of the factors by obtaining the soft documents of this **The Germans Of History** by online. You might not require more get older to spend to go to the ebook foundation as without difficulty as search for them. In some cases, you likewise realize not discover the pronouncement The Germans Of History that you are looking for. It will enormously squander the time.

However below, when you visit this web page, it will be consequently extremely simple to acquire as skillfully as download guide The Germans Of History

It will not take on many get older as we run by before. You can attain it even if fake something else at home and even in your workplace. appropriately easy! So, are you question? Just exercise just what we present below as capably as review **The Germans Of History** what you past to read!
