Goldin Paul,2020-07-16 Recasting the Past: The Art of Chinese Bronzes, 1100-1900 Pengliang Lu,2025-02-28 Bronze vessels were the ultimate emblems of power in ancient China Beginning in the twelfth century the rediscovery of ancient bronzes as evidence of an earlier golden age led to a revival of bronze casting This publication is the first comprehensive study of these later Chinese bronzes in archaic styles which were commissioned by emperors and officials from the twelfth through the nineteenth centuries to assert political legitimacy and alignment with traditional values Redressing the misconception that these works were mere imitations of the ancient vessels they emulated Recasting the Past demonstrates that they were in fact creative reinterpretations of antique shapes and decorative motifs that were fundamentally new creations with their own aesthetic and functional character Featuring nearly two hundred objects many never before published including ceremonial bells incense burners flower vases ritual vessels and writing utensils Pengliang Lu explores their cultural and political significance from the Song dynasty through the Qing dynasty and shows their enormous influence on Chinese art and culture

Ancient Chinese bronzes ,1976 **Max Loehr and the Study of Chinese Bronzes** Robert W. Bagley,2008 Max Loehr 1903 1988 the most distinguished historian of Chinese art of his generation is celebrated above all for a 1953 art historical study of Chinese bronzes that effectively predicted discoveries Chinese archaeologists were about to make Those discoveries in turn overthrew the theories of Loehr s great rival Bernhard Karlgren 1889 1978 a Swedish sinologue whose apparently scientific use of classification and statistics had long dominated Western studies of the bronzes Revisiting a controversy that was ended by archaeology before the issues at stake were fully understood Robert Bagley shows its methodological implications to be profound Starting with a close reading of the work of Karlgren he uses an analogy with biological taxonomy to clarify questions of method and to distinguish between science and the appearance of science Then turning to Loehr he provides the rationale for an art history that is concerned above all with constructing a meaningful history of creative events one that sees the intentionality of designers and patrons as the driving force behind stylistic change In a concluding chapter he analyzes the concept of style arguing that many classic confusions in art historical theorizing arise from a failure to recognize that style is not a property of objects Addressed not just to ancient China specialists or historians of Chinese art this book uses Loehr s work on bronzes as a case study for exploring central issues of art history It will be of interest to anyone concerned with the analysis of visual materials Chinese Bronze Ware Song Li,2011-03-03 Chinese Bronze Ware provides an accessible introduction to ancient China s magnificent bronze culture with full colour illustrations
