The Goats Who Killed The Leopard:

The Goats who Killed the Leopard Judy Hawes,1970-01-01 In Ethiopia boys do not speak to their fathers until they are spoken to but Abebe had to convince his father that modern science could cure the family's flocks better than the medicine man

The Foo-Foo Tree and more Efik Folktales Rotimi Ogunjobi,2015-12 The Foo Foo Tree and more Efik Folktales is a selection of folklore thought to have originated from the Efik people The Efik are native to South East Nigeria even though they were said to have migrated from the Cameroons Originally the economy of the region which they occupy was based on fishing and trading This aspect of their daily lives as well as the mortal dread of the Ekpe secret society which regularly made and enforced laws will be seen to have formed the bedrock of their local anecdotes

Wild Cats of the World Mel Sunquist,Fiona Sunquist,2017-05-15 Did you know that European royalty once used cheetahs to hunt deer or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start Have you ever wondered whether domestic cats really do land on their feet when they fall or how Canada lynx can stalk their prey in the winter without falling through the deep snow Wild Cats of the World is a treasure trove of answers to questions like these and many others for anyone who's interested in learning more about the world's felids including the ones with whom we

share our homes Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source many of them quite difficult to find including scientific papers descriptions of hunts archeological findings observations by naturalists and travelers reports from government agencies and newsletters from a wide variety of organizations Weaving information from these sources together with their own experiences observing wild cats around the world the Sunquists have created the most comprehensive reference on felids available Each of their accounts of the 36 species of cat contains a description of the cat including human interactions with it as well as detailed data on its distribution ecology and behavior status in the wild and efforts to conserve it Numerous photographs including more than 40 in full color illustrate these accounts Ranging from the two pound black footed cat to the five hundred pound tiger and from the African serval with its satellite dish ears to the web footed fishing cat of Asia *Wild Cats of the World* will fascinate and educate felid fans of any stripe or spot *Aroma of Orange Pekoe* by Jeff Tikari Jeff Tikari,2015-10-13 A book comprising anecdotes and snippets from the lives of tea planters a breed that lived in far flung and remote areas which were in some cases not connected by rail or road and depended heavily on weekly air supplies that were delivered by war vintage Dakotas or single engined aircraft that landed on grass strips built by plantation labourers Scottish and British planters were the pioneers who felled vast jungles to create Plantations They built roads factories and bungalows for themselves and for their wives who visited from Scotland and England They built clubs where they played games tennis squash cricket soccer and polo and where they danced entertained and drank to ease the solitary life and cope with the rugged living conditions A thoroughly entertaining volume that describes the amusing tales and episodes of the life of tea and coffee planters from northeast India south India and the Highlands of Papua New guinea *Wishbone* Laura C. Jarmon,2003 Jarmon English U of Tennessee Martin studies the history and attempts to trace the origins of several prevalent themes in African American folklore using folk tale collections from the US and Africa The themes link subjects with symbolic content such as tar baby with binding and transcription and the skull with presence and propriety An introduction presents Jarmon s methodology her thesis is that these narratives are a type of modal discourse that is symbolized by the motifs of the wishbone and crossroads which she sees as emblematic of the concept of margins and reflective of a mood of indeterminacy Annotation c 2003 Book News Inc Portland OR booknews com **The Houghunters' Annual** ,1928 **Publications of the Princeton Expedition to Abyssinia** Enno Littmann,1910 The Cross & the Prodigal Kenneth E. Bailey,2010-08-20 Drawing on his extensive knowledge of both the New Testament and Middle Eastern culture Kenneth E Bailey presents an interpretation of the parable of the prodigal son from a Middle Eastern perspective and in doing so powerfully demonstrates its essentially Christian message **Our Youth** ,1888 The British Mission to Uganda in 1893 Sir Gerald Herbert Portal,1894 In Haunts of Wild Game Frederick Vaughan Kirby,1896 *Where Animals Talk* Robert Hamill Nassau,1912 **The Snow Leopard and the Goat** Shafqat Hussain,2020-01-10 Who should bear the cost of protecting charismatic wildlife Following the

downgrading of the snow leopard's status from endangered to vulnerable by the International Union for Conservation of Nature in 2017 debate has renewed about the actual number of snow leopards in the wild and the most effective strategies for coexisting with these enigmatic animals. Evidence from Pakistan and other countries in the snow leopard's home range shows that they rely heavily on human society; domestic livestock accounts for as much as 70 percent of their diet. Maintaining that the snow leopard is a wild animal, conservation NGOs and state agencies have enacted laws that punish farmers for attacking these predators while avoiding engaging with efforts to mitigate the harms suffered by farmers whose herds are reduced by snow leopards. This ethnography examines the uneven distribution of costs and benefits involved in snow leopard conservation and shows that for the conservation of nature to be successful, the vision, interests, and priorities of those most affected by conservation policies in this case, local farmers, must be addressed. A case history of Project Snow Leopard in the mountains of northern Pakistan, which inspired similar programs in India, Bhutan, Nepal, Mongolia, Afghanistan, and Tajikistan, describes how the animal's food habits are studied, how elusive individuals are counted, and how a novel kind of snow leopard insurance has protected the species by compensating farmers for livestock losses. The Snow Leopard and the Goat demonstrates that characterizing this conflict as one between humans, farmers, and wildlife, snow leopards, is misleading, as the real conflict is between two human groups: farmers and conservationists who see the snow leopard differently.

Ewe Comic Heroes (RLE Folklore) Zinta Konrad, 2015-02-11 The trickster character is prominent in the cultural, particularly narrative traditions of many different peoples throughout the world. Comic and serious, stupid and clever, benevolent and evil, winner and loser, the trickster is a study in contradictions. The trickster cannot be pigeonholed for he does not fit into any neat categories or definitions. This study, first published in 1994, aims to give the reader the opportunity to experience in some small measure the dynamic and exciting dramatic oral narrative performances of the Ewe people of West Africa.

Red Strangers Elspeth Huxley, 2006-05-04 Growing up in Kenya in the early twentieth century, the brothers Matu and Muthegi are raised according to customs that they are told have existed since the beginning of the world. But when the red strangers come, sunburned Europeans who seek to colonize their homeland, the lives of the two Kikuyu tribesmen begin to change in dramatic new ways. Soon their people are overwhelmed by unknown diseases that traditional magic seems powerless to control. And as the strangers move across the land, the tribe rapidly finds itself forced to obey foreign laws that seem at best bizarre and that at worst entirely contradict the Kikuyu's own ancient ways, rituals, and beliefs.
