The God Cell:

The Cell of the Gods Howard J. Bastian, 2011-12 The world as it exist today stemmed from one Ancient god who is an eternal cell This cell supplied all the needs of the god in an un changing environment The lights that emanated from this cell are the original pure brilliant rays In a world unimaginable to human understanding the Ancient one divided himself to perform tasks when it was needed for service All creation was create by him and attached to his rays that shone from his magnificent cell The creations were given the essentials to perform in his cell In some cases the free choice was manipulated and as a result evil took place that resulted in a war The Ancient one in his wisdom and humility established an elaborate redemption and judgement plan in order to restore his cell *The God Cell* Wilbur Bradbury, 1976 A crazed scientist discovers a means of triggering an awesome super cell in animals that gives them powerful abilities of comprehension for now they seek revenge and no one can hold them at bay *Half Eye of the Gods* ajige horeb, 2007-12 Annually about 300 000 African babies are born with sickles cell disorders A bold deception threatens to plunge the family of ex miss Nigeria when her two sons are diagnosed with sickle cell Anaemia Intrigue and family crisis mingle in one of the finest mysteries as Femi her first son is held hostage not by guns or bombs but by a defect in the globin chain of Haemoglobin as a result of sickle cell disease Soon she is obsessed with consulting the African gods for solution to her problems From this moment Ibun and her family are caught up in a nightmare whirlwind of marital isolation deception and serial death in her family Her marriage was at a breaking point Basically traditional Africans consult the gods of good health for medical problems like infertility and mysterious illness Will the African gods come to the aid of former Miss Nigeria The truth that she will learn is the most shocking deception of all It is a skillfully piece with a savage twist in the story Germ-line of the Gods - God Gametes 3 and The Entanglement and Decay of Planet Earth Robert Jameson, 2013 The thesis presented in this book argues that life on earth is part of the reproductive system of an external parent species and our human soul the germ cell a gamete of a Father Being We hold that all physical life on earth is the soma and whether it relates to the lives of individuals or of species can only have limited tenure As a gamete however our soul is part of the germ line of our creator beings and has the potential to live on after our death and the extinction of our species **Slave Species of the Gods** Michael Tellinger, 2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species first proposed by Zecharia Sitchin in The 12th Planet Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago However as Michael Tellinger reveals the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200

000 years ago Sent to Earth in search of life saving gold these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold thus beginning our global traditions of gold obsession slavery and god as dominating master Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre biblical clay tablets Tellinger shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA which explains why less than 3 percent of our DNA is active He identifies a recently discovered complex of sophisticated ruins in South Africa complete with thousands of mines as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based he details the actual events behind these tales of direct physical interactions with god concluding with the epic flood a perennial theme of ancient myth that wiped out the Anunnaki mining operations Tellinger shows that as humanity awakens to the truth about our origins we can overcome our programmed animalistic and slave like nature tap in to our dormant Anunnaki DNA and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe

The Bible and Christianity in the Scientific Perspective Byung Kook Hwang, 2025-07-31 Korean Christianity must now be reborn as a biblical agape religion of love and life away from the religion of salvation and self love that seeks personal blessing God is love 1 John 4 8 Jesus is the source of life There is life in Jesus Christ John 1 4 and Jesus is the Word of life 1 John 1 1 The core of the Christian faith is faith alone in God and Jesus Christ True Christians must understand the Bible correctly obey and believe in God and live righteously and good according to the Bible and God's will The life of Jesus Christ is the highest standard of life for people to imitate Christians in Korea should live

Blume,2013-08 *Evo illusion* takes a completely objective and

science based look at evolution Blume details his pathway from his childhood of being raised very much a religious creationist to his early fascination with science and then to his becoming beguiled by evolution and Charles Darwin in his first paleontology class in college Blume then tells of his surprising and enlightening reversal Evo illusion tells a fascinating story of biology astronomy physics particle physics and other sciences that would certainly interest any person who reads it no matter what their position is on evolution It takes the reader from the beginning of the universe to the first living cells on Earth to the first multicellular organism and then to the formation of modern organisms Blume uniquely utilizes thought experiments that the readers can easily do which allow them to figure what may and may not have happened during the early steps on the pathway to the formation of multicellular organisms

The Dome of Eden Stephen H. Webb, 2010-01-01 What would biology look like if it took the problem of natural evil seriously This book argues that biological descriptions of evolution are inherently moral just as the biblical story of creation has biological implications A complete account of evolution will therefore require theological input The Dome of Eden does not try to harmonize evolution and creation Harmonizers typically begin with Darwinism and then try to add just enough religion to make evolution more palatable or they begin with Genesis and pry open the creation account just wide enough to let in a little bit of evolution By contrast Stephen Webb provides a theory of how evolution and theology fit together and he argues that this kind of theory is required by the internal demands of both theology and biology The Dome of Eden also develops a theological account of evolution that is distinct from the intelligent design movement Webb shows how intelligent design properly discerns the inescapable dimension of purpose in nature but like Darwinism itself fails to make sense of the problem of natural evil Finally this book draws on the work of Karl Barth to advance a new reading of the Genesis narrative and the theology of Duns Scotus to provide the necessary metaphysical foundation for evolutionary thought
