The Gods Unknown:

The Gods Unknown Robert Charroux,1972 *The Acts of the Apostles* Ben Witherington,1998 This groundbreaking commentary is the first to provide a detailed social and rhetorical analysis of the book of Acts At the same time it gives detailed attention to major theological and historical issues **A Collection of Ancient Jewish and Heathen Testimonies to the Truth of the Christian Religion** Nathaniel Lardner,1766 A Large Collection of Ancient Jewish and Heathen Testimonies to the Truth of the Christian Religion Nathaniel Lardner,1766 A Large Collection of Ancient Jewish and Heathen Testimonies to the Truth of the Christian Religion Nathanail Lardner,1766 **A Large Collection of Ancient Jewish and Heathen Testimonies to the Truth of the Christian Religion, with Notes and Observations: Containing the testimonies of heathen writers of the third century, and to the conversion of Constantin, the first Christian emperor** Nathaniel Lardner,1766 *A Large Collection of Ancient Jewish and Heathen Testimonies to the Truth of the Christian Religion* Lardner,1766 **Studies in Jewish and Christian History (2 vols)** Elias J. Bickerman,2007-06-30 Elias J Bickerman who passed away a quarter of a century ago was one of the twentieth century s great historians of the ancient world His innovative genius and breathtaking erudition are evident in his writings many of which are now considered classics Bickerman s contributions to the history of ancient Judaism and early Christianity remain particularly significant but his three volume collection *Studies in Jewish and Christian History* has been out of print for some time Thus the publication of this new edition of *Studies* now entirely in English along with Bickerman s most famous book *The God of the Maccabees* is designed to bring Bickerman s central studies on ancient Judaism and early Christianity to a new generation of students and scholars Calmet's Dictionary of the Holy Bible Augustin Calmet,1847 **The Holy Bible Containing the Old and New Testaments: the Text Printed from the Most Correct Copies of the Present Authorized Translation, Including the Marginal Readings and Parallel Texts: Matthew to Acts** Adam Clarke,1851 **pt. 1. Psalms to Maccabees** ,1823 *The critical review, or annals of literature* ,1792 **The Critical Review: Or, Annals of Literature** Tobias Smollett,1792 **A Cyclopaedia of Biblical Literature. Edited by J. K. Illustrated by Numerous Engravings** John Kitto,1862 **The Holy Bible** ,1818 The Holy Bible, Containing the Old & New Testaments ,1911 Notes on the International S. S. Lessons for 1884 R. R. Meredith,2025-07-11 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **The Place of God at the Bookends of the Bible** David W. Larsen,2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts The acts typically include creation fall redemption and finally restoration But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible How might this aid our research

reading and application And why is this being proposed now This book explores these questions The larger context is the production of the place of God a home and homeland wherein God with his people dwell on earth Since place is underdeveloped in biblical studies the book presents a new method for interpreting place Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible Finally the book defends this proposal with an in depth placial commentary of the bookends of the Bible since these bookends provide keys to unlock this message thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective

Barnes **Notes on the NT (Barnes)** Albert Barnes, Verse by verse the author covers the entire New Testament carefully and understandably explaining every verse and offering a practical application for Christian living **Greek Gods Abroad** Robert Parker, 2017-06-06 From even before the time of Alexander the Great the Greek gods spread throughout the Mediterranean carried by settlers and largely adopted by the indigenous populations By the third century b c gods bearing Greek names were worshipped everywhere from Spain to Afghanistan with the resulting religious systems a variable blend of Greek and indigenous elements Greek Gods Abroad examines the interaction between Greek religion and the cultures of the eastern Mediterranean with which it came into contact Robert Parker shows how Greek conventions for naming gods were extended and adapted and provides bold new insights into religious and psychological values across the Mediterranean The result is a rich portrait of ancient polytheism as it was practiced over 600 years of history
