Murphy,2012-05-04 Short enough to be synoptic yet long enough to be usefully detailed A Short History of Writing Instruction is the ideal text for

undergraduate courses and graduate seminars in rhetoric and composition. It preserves the legacy of writing instruction from antiquity to contemporary times with a unique focus on the material educational and institutional context of the Western rhetorical tradition. Its longitudinal approach enables students to track the recurrence over time of not only specific teaching methods but also major issues such as social purpose writing as power, the effect of technologies, the rise of vernaculars, and writing as a force for democratization. The collection is rich in scholarship and critical perspectives, which is made accessible through the robust list of pedagogical tools included, such as the Key Concepts listed at the beginning of each chapter and the Glossary of Key Terms and Bibliography for Further Study provided at the end of the text. Further additions include increased attention to orthography or the physical aspects of the writing process, new material on high school instruction, sections on writing in the electronic age, and increased coverage of women rhetoricians and writing instruction of women. A new chapter on writing instruction in Late Medieval Europe was also added to augment coverage of the Middle Ages, fill the gap in students' knowledge of the period, and present instructional methods that can be easily reproduced in the modern classroom.

*A Short History of Writing Instruction* James Jerome Murphy, 2012. *A Short History of Writing Instruction* preserves the legacy of writing instruction from antiquity to contemporary times with a unique focus on the material educational and institutional context of the Western rhetorical tradition.

**Equitable Literacy Instruction for Students in Poverty** Doris Walker-Dalhouse, Victoria J. Risko. Differences in performance between students of poverty and more advantaged students are reflective of an opportunity gap as opposed to a gap in student ability. This book argues that significant attention must be given to eliminating the barriers that produce educational inequities in student achievement. Walker-Dalhouse and Risko focus on disparities in literacy achievement that might be attributed to color-blind practices, deficit mindsets, low expectations, or context-neutral practices. Situating literacy learning within a comprehensive view of literacy development, they provide a set of instructional practices that will best support students living in poverty. Specifically, vignettes from kindergarten through middle school classrooms are used to demonstrate practices that address critical areas of the reading process, are responsive to students' racial, ethnic, cultural, gender, and linguistic histories and assets, attend to students' strengths and needs, and go beyond the impact of short-term testing to support optimal and sustainable learning. Educators and school leaders can use this resource to transform schools into nurturing and vibrant communities that are committed to change, equity, and diversity.

**Book Features:** Provides recommendations and detailed guidance for enacting literacy instruction that will close opportunity gaps for students living in poverty. Includes vignettes from leading literacy educators and researchers that demonstrate high-quality literacy instruction implemented in K-8 classrooms. Presents instruction that is responsive to differences and honors the languages, literacies, and cultural resources that students bring to their learning. Offers specific recommendations and practices that can guide advocacy for change. The authors correct the deficit misperceptions by showing how students experiencing poverty are the targets, not the causes, of educational disparities. What a different world schools would be if we

each embraced these lessons From the Afterword by Paul C Gorski founder Equity Literacy Institute     SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS Elva Duran,2013-04-01 Students whose first language is not English are the fastest growing group in public schools in all regions of the United States Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken and presently most schools in the U S are under educating many English learners The achievement of Hispanic students needs to improve dramatically over the next five years and this book describes the cornerstone elements for bringing about this change The initial chapter introduces direct instruction to be used with reading and literacy programs Chapters 2 and 3 provide excellent review of the literature in language development and address developing language instruction listening and speaking with Spanish speaking students and offers what a comprehensive language development program should look like Chapter 4 reviews academic language and literacy instruction while the next addresses the components of instruction in Spanish Chapter 6 offers lesson plan suggestions for Spanish speaking students while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs Finally Chapter 10 discusses two way bilingual immersion and shares actual classroom schedules and lessons This unique text will help in the preparation of primary grade teachers throughout the U S so that they may be successful with Hispanic students entering the public schools with little or no English background It will also be a useful tool for school districts staff development in addressing school improvement goals for increasing the achievement of Hispanic students     **Books in Print** ,1991     School Education ,1902
