acquisition of information and images that characterized a direct engagement with the idea of China. The central figure in this story is Henri-Léonard Bertin (1720–1792) who served as a minister of state under Louis XV and briefly Louis XVI. Both his official position and personal passion for all things Chinese placed him at the center of intersecting networks of like-minded individuals who shared his ideal vision of China as a nation from which France had much to learn. John Finlay examines a fascinating episode in the rich history of cross-cultural exchange between China and Europe in the early modern period, and this book will be an important and timely contribution to a very current discussion about Sino-French cultural relations. This book will be of interest to scholars in art history, visual culture, European and Chinese history.
