The Power Of Thirteen:

Book of Shadow A.L. Hawke, 2025-08-03 Cursed the moment I fell in love with her While home in Raleigh for semester break I didn't expect my girlfriend Alondra to ask me for a favor present my Book of Shadows to the leader of a satanic cult She was looking for a new male witch for her coven Of course she knew it wouldn't be me But when a curse took hold of our college campus and the spirits I thought I'd left behind came back I realized I couldn't keep the book closed much longer Now something dark surrounds me Is it the work of the wizard with the devilish goatee Or is it a little girl possessed by something far worse I lit a dark shadow and now I feel only confusion Whatever this darkness is it's coming for Alondra our family and every witch in Hawthorne

Kronnus 13: The Dark James Sharkey, 2021-07-18 Zak Connors returns to Kronnus City to search for the remaining Trejoarian children and to continue his fight with Daniel Kronnus As his powers grow the harder it becomes to block out other people's thoughts Battles rage inside his head as he contends with the Dark

The Books of Contemplation Mark Verman, 2012-02-01 The earliest medieval Jewish mystical writings or kabbalah date from the late twelfth and early thirteenth centuries This is the first book to focus on the most prodigious group active at that time the Circle of Contemplation The Circle of Contemplation generated a mystical theology that differs radically from mainstream kabbalistic theosophy Two of this group's penetrating speculations on God and the origins of the universe are The Book of Contemplation and The Fountain of Wisdom A meticulous and systematic study of these writings forms the core of this book Verman discovered that the Circle of Contemplation produced a series of distinct treatises each entitled The Book of Contemplation and attributed to the same fictitious author These treatises embodying one of the most intriguing puzzles of medieval literature are included here The author concludes that these writings were a product of thirteenth century Spain not France as claimed by Gershom Scholem His conclusion engendered a critical evaluation of the premises of Scholem's historiography of early medieval Jewish mysticism

Time and the Technosphere José Argüelles, 2002-08-03 A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time Reveals September 11 as the signal of the end of artificial time according to the Law of Time Long awaited sequel to the author's bestselling book The Mayan Factor Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity In Time and the Technosphere Jos Argüelles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live Argüelles defines the actual nature of time as the frequency of synchronization Applying this Law of Time to an understanding of the entire system of life on Earth he shows that in order to not destroy Earth's ability to sustain life we must change our definition of time and adopt a natural harmonic calendar based on the 13 moon 28 day cycle Until the creation of the Gregorian calendar and the 60 minute hour most of humanity lived by the 28 day cycle of natural time The adoption of artificial time has subjected us to a 12 60 time frequency that governs the entire global industrialized civilization the technosphere With the collapse of the Twin Towers on September 11

a fissure was created in this artificial technosphere opening up the noosphere Earth's mental envelope Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004 a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor In Time and the Technosphere* Argelles reveals the clear distinction between third dimensional astronomical time and the fourth dimensional synchronic order of the Law of Time which holds enormous potential for the future of humanity

The Dog Who Spoke and More Mayan Folktales James D. Sexton, Fredy Rodríguez-Mejía, 2014-10-22 In the delightful Mayan folktale *The Dog Who Spoke* we learn what happens when a dog's master magically transforms into a dog man who reasons like a man but acts like a dog This and the other Mayan folktales in this bilingual collection brim with the enchanting creativity of rural Guatemala's oral culture In addition to stories about ghosts and humans turning into animals the volume also offers humorous yarns Hailing from the Lake Atitlán region in the Guatemalan highlands these tales reflect the dynamics of and conflicts between Guatemala's Indian Ladino and white cultures The animals humans and supernatural forces that figure in these stories represent Mayan cultural values social mores and history James D Sexton and Fredy Rodríguez-Mejía allow the thirty three stories to speak for themselves first in the original Spanish and then in English translations that maintain the meaning and rural inflection of the originals Available in print for the first time with a glossary of Indian and Spanish terms these Guatemalan folktales represent generations of transmitted oral culture that is fast disappearing and deserves a wider audience

The Hebrew Letters Rabbi Yitzchak Ginsburgh, 1990 *Sefer Yetzirah* the Book of Creation one of the earliest Kabbalistic works teaches that the letters of the Hebrew alphabet are the building blocks of creation Each letter has its own significance spiritual energy and reason for existing In this revised version of Rabbi Ginsburgh's best selling *The Alef Beit Jewish Thought Revealed Through the Hebrew Letters* he explains how each letter's name form and numerical value play a role in the creative process of the cosmos He draws on the understandings of the well known mystic the Baal Shem Tov in depicting how each letter has nine dimensions with impact in three worlds the physical spiritual and Divine In every letter there is the true completion of the soul a chance to unite consciousness with the code of creation Includes glossary footnotes and index
