

A vintage movie poster for the film 'The Premature Burial'. The central image shows a man in a dark suit and white shirt lying in an open wooden coffin, his eyes wide open and mouth agape in a shocked expression. He is holding a small white object in his hands. The coffin is set against a bright orange, arched background. Below the coffin, the title 'THE PREMATURE BURIAL' is written in large, bold, yellow, stylized letters. Surrounding the coffin are four men in light-colored trench coats, looking down at the body with expressions of concern and investigation. The overall style is reminiscent of classic horror movie posters from the mid-20th century.

The Premature Burial:

The Premature Burial Edgar Allan Poe, 2015-05-06 This book contains Edgar Allan Poe's 1844 short story The Premature Burial. The narrator describes his life-long obsession and a resulting disorder that sees him slip in and out of death-like trances. His true fear is being mistaken for dead during a trance and buried without his knowledge, a situation that he takes numerous precautions against. After finding himself waking in a claustrophobic and confined space, he is able to confront his fears and embrace the inevitable.

Edgar Allan Poe (1809-1849) was an American author, editor, poet, and critic. Most famous for his stories of mystery and horror, he was one of the first American short story writers and is widely considered to be the inventor of the detective fiction genre. Many antiquarian books such as this are becoming increasingly rare and expensive. We are republishing this volume now in an affordable, high-quality edition complete with a specially commissioned new biography of the author.

The Premature Burial Edgar Allan Poe, 2015-07-17 The Premature Burial is a horror short story on the theme of being buried alive, written by Edgar Allan Poe (1809-1849) and published in 1844 in The Philadelphia Dollar Newspaper. Fear of being buried alive was common in this period, and Poe was taking advantage of the public interest. The story has been adapted to a film. In The Premature Burial, the first person, unnamed narrator describes his struggle with things such as attacks of the singular disorder which physicians have agreed to term catalepsy, a condition where he randomly falls into a death-like trance. This leads to his fear of being buried alive. The true wretchedness, he says, is to be buried while alive. He emphasizes his fear by mentioning several people who have been buried alive. In the first case, the tragic accident was only discovered much later when the victim's crypt was reopened. In others, victims revived and were able to draw attention to themselves in time to be freed from their ghastly prisons. The narrator reviews these examples in order to provide context for his nearly crippling phobia of being buried alive. As he explains, his condition made him prone to slipping into a trance, state of unconsciousness, a disease that grew progressively worse over time. He became obsessed with the idea that he would fall into such a state while away from home and that his state would be mistaken for death. He extracts promises from his friends that they will not bury him prematurely, refuses to leave his home, and builds an elaborate tomb with equipment allowing him to signal for help in case he should awaken after death. The story culminates when the narrator awakens in pitch darkness in a confined area; he has been buried alive, and all his precautions were to no avail. He cries out and is immediately hushed; he realizes that he is in the berth of a small boat, not a grave. The event shocks him out of his obsession with death.
