

The Presence of Eternity: History and Eschatology by RUDOLF BULTMANN

The nature and meaning of history are arrestingly explored in this new book by one of Europe's great contemporary thinkers.

Professor Bultmann presents a concise survey of what man has thought about his own destiny from the origins of history in myth up to the ideas of Teilhard. The views of each man who has made a permanent contribution to the philosophy of history—the Hebrew prophets, the Greeks, Paul, Augustine, Hegel, and Spengler among others—are perceptively set forth and evaluated.

The Presence Of Eternity History And Eschatology:

The Presence of Eternity Rudolf Bultmann, 1957 Bultmann begins with a discussion of ancient cyclical understandings of history before exploring the fundamental eschatological shift in historical understanding Bultmann credits the Judeo-Christian tradition with reconceptualizing history as linear with a clear end culminating in the second coming of Christ But as Bultmann argues this new understanding of history was not without its own problems The early church's profound disappointment in Christ's failure to return forced a Christian reinterpretation of history a teleological one that flourished in the Renaissance and eventuated surprisingly in Marxism According to Bultmann this teleology neglects the individual's participation in the Christ event In the end Bultmann draws on Paul and John to challenge this purely teleological approach and ground a Christian understanding of history and eschatology in the historical event of Christ that is both timeless and immediately present Only through this Christ event both in the past and future does life find eternal meaning From publisher's site *History and Eschatology* Rudolf Bultmann, 1957

History and Eschatology Rudolf Bultmann, 1962 **The Semantics of Qur'anic Language: al-Āhira** Ghassan el Masri, 2020-06-02 In *The Semantics of Qur'anic Language* al-ira Ghassan el Masri offers a semantic study of the concept al-ira the End in the Qur'an The study is prefaced with a detailed account of the late antique concept of etymologia Semantica Etymology In his work he demonstrates the necessity of this concept for appreciating the Qur'an's rhetorical strategies for claiming discursive authority in the Abrahamic theological tradition The author applies the etymological tool to his investigation of the theological significance of al-ira and concludes that the concept is polysemous and tolerates a large variety of interpretations The work is unique in that it draws extensively on Biblical material and presents a plethora of pre-Islamic poetry verses in the analysis of the concept **The Continuum**

History of Apocalypticism Bernard McGinn, John J. Collins, Stephen Stein, 2003-10-01 Apocalypticism has been the source of hope and courage for the oppressed but has also given rise on many occasions to fanaticism and intolerance The essays in this volume seek neither to apologize for the extravagance of apocalyptic thinkers nor to excuse the perverse actions of some of their followers Rather they strive to understand a powerful perhaps even indispensable element in the history of Western religions that has been the source of both good and evil and still is yet today The Editors *The Continuum History of Apocalypticism* is a 1 volume select edition of the 3 vol *Encyclopedia of Apocalypticism* first published in 1998 The main historical surveys that provided the spine of the *Encyclopedia* have been retained while essays of a thematic nature and a few whose subject matter is not central to the historical development have been omitted The work begins with 8 articles on *The Origins of Apocalypticism in the Ancient World* extending from ancient Near Eastern myth through the Old Testament to the Dead Sea Scrolls Jesus Paul and the Book of Revelation Next are 7 articles on *Apocalyptic Traditions from Late Antiquity to ca 1800 C E* including early Christian theology radical movements in the Middle Ages and both Jewish and Islamic apocalypticism in the classic period The final section *Apocalypticism in the Modern Age* includes 10 articles on

apocalypticism in the Americas in Western and Eastern Europe and finally in modern Judaism and modern Islam

Stjerna, Deanna A.
