Joiner, 2007 The Union inland navy that became the Mississippi Squadron is one of the greatest yet least studied aspects of the Civil War Without it however the war in the West may not have been won and the war in the East might have lasted much longer and perhaps ended differently The men who formed and commanded this large fighting force have with few exceptions not been as thoroughly studied as their army counterparts The vessels they created were highly specialized craft which operated in the narrow confines of the Western rivers in places that could not otherwise receive fire support Ironclads and gunboats protected army forces and convoyed much needed supplies to far flung Federal forces. They patrolled thousands of miles of rivers and fought battles that were every bit as harrowing as land engagements yet inside iron monsters that created stifling heat with little ventilation This book is about the intrepid men who fought under these conditions and the highly improvised boats in which they fought The tactics their commanders developed were the basis for many later naval operations Of equal importance were lessons learned about what not to do The flag officers and admirals of the Mississippi Squadron wrote the rules for modern riverine warfare Understanding Modern Warfare David Jordan, James D. Thomas Campbell, 2011-04-11 No body of water was more vital to the Confederacy s efforts in the Civil War than the Mississippi River and its tributaries Though the Confederate Congress declared the Mississippi free and open to all states north and south the Union launched plans for an effective blockade of the 1700 miles of Southern coastline coupled with a strong naval and army thrust down the Mississippi Valley from Cairo Illinois to the Gulf of Mexico To defend the river and to prevent Union forces from advancing the South would require a strong naval force There was only one problem with the strategy The Confederacy had no navy On February 25 1861 Confederate president Jefferson Davis nominated Stephen R Mallory to be secretary of the newly formed Confederate States Navy Mallory faced significant obstacles no shipyards few skilled craftsmen and machinists and a lack of production facilities to process raw materials Mallory was able to overcome
