Margolies,2025-04-01 The Elizabethans witnessed not only a great flowering of drama but also a flourishing of fiction and the development of a literary entertainment business Printing made possible a wide distribution of cheap books that found an audience in all sections of society The large new literary market enabled the presentation of different social viewpoints and encouraged an alternative to official ideology First published in 1985 *Novel and Society in Elizabethan England* presents a whole range of English fiction of the period against its social background It considers the major authors of prose fiction John Lyly Philip Sidney Thomas Nashe Robert Greene and Thomas Deloney and examines how they organised their works for audiences with a specific social perspective In taking a functional view of literature treating the novels not as static literary artefacts but in terms of their social role Margolies redefines the idea of literary value He offers a new coherent view of the major figures of the Elizabethan novel which should challenge the thinking of students of the novel and the age of Shakespeare **Sidney's Poetics** Michael Mack,2005 Sidney s Poetics is essential reading not only for students and

Renaissance Romance Dr Nandini Das, 2013-05-28 Romance was criticized for its perceived immorality throughout the Renaissance and even enthusiasts were often forced to acknowledge the shortcomings of its dated narrative conventions Yet despite that general condemnation the striking growth in English fiction in the late sixteenth and early seventeenth centuries is marked by writers who persisted in using this much maligned narrative form In Renaissance Romance Nandini Das examines why the fears and expectations surrounding the old genre of romance resonated with successive new generations at this particular historical juncture Across a range of texts in which romance was adopted by the court by popular print and by women Das shows how the process of realignment and transformation through which the new prose fiction took shape was driven by a generational consciousness that was always inherent in romance In the fiction produced by writers such as Sir Philip Sidney Robert Greene and Lady Mary Wroth the transformative interaction of romance with other emergent forms from the court masque to cartography was determined by specific configurations of social groups drawn along the lines of generational difference What emerged as a result of that interaction radically changed the possibilities of fiction in the period The Profession of English Letters J.W.

Saunders, 2013-02-01 Published in the year 2006 The Profession of English Letters is a valuable contribution to the field of Major Works **Violence, Politics, and Gender in Early Modern England** J. Ward, 2008-11-24 This book engages in an interdisciplinary study of the establishment and entrenchment of gender roles in early modern England Drawing upon the methods and sources of literary criticism and social history this edited volume shows how politics at both the elite and plebeian levels of society involved violence that either resulted from or expressed hostility toward the early modern gender system Contributors take fresh approaches to prominent works by Shakespeare Middleton and Behn as well as discuss lesser known texts and events such as the execution of female heretics in Reformation Norwich and the punishment of prostitutes in

seventeenth century London to draw new conclusions about gender in early modern England
