Sociologies of Food and Nutrition Wm. Alex McIntosh,2013-11-21 Here Wm Alex McIntosh analyzes the relationship between food and nutrition and social factors using a wide array of sociological theories The author applies theories of social organization culture social stratification social change rural sociology the sociology of the body and social problems to empirical problems in food and nutrition By doing so he sheds light on issues such as the rise of the state population growth famine obesity eating disorders the maldistribution of food across class gender and ethnic boundaries and the changing nature of the food industry Terrorism, Radicalism, and Populism in Agriculture Luther G. Tweeten,2008-06-02 While terrorism in agriculture takes few lives the misinformation emerging from the rhetoric of anti globalists radical environmentalists and animal welfare extremists costs Americans billions of dollars in lost income every year This controversial volume illuminates the political economic and global effects of these groups on the agricultural industry The clear concise and readable book discusses specific events and issues helping readers understand how radical agriculturalists think Tweeten explains how half truths and false ideologies find their way into our political systems and bring about bad public decisions increasing losses and causing global repercussions Terrorism Radicalism and Populism in Agriculture offers enlightenment for anyone involved in business agriculture policy making and politics Rural America ,2001

Toward Sustainable Agricultural Systems in the 21st Century National Research Council,Division on Earth and Life Studies,Board on Agriculture and Natural Resources,Committee on Twenty-First Century Systems Agriculture,2010-06-25 In the last 20 years there has been a remarkable emergence of innovations and technological advances that are generating promising changes and opportunities for sustainable agriculture yet at the same time the agricultural sector worldwide faces numerous daunting challenges Not only is the agricultural sector expected to produce adequate food fiber and feed and contribute to biofuels to meet the needs of a rising global population it is expected to do so under increasingly scarce natural resources and climate change Growing awareness of the unintended impacts associated with some agricultural production practices has led to heightened societal expectations for improved environmental community labor and animal welfare standards in agriculture Toward Sustainable Agricultural Systems in the

21st Century assesses the scientific evidence for the strengths and weaknesses of different production marketing and policy approaches for improving and reducing the costs and unintended consequences of agricultural production. It discusses the principles underlying farming systems and practices that could improve the sustainability. It also explores how those lessons learned could be applied to agriculture in different regional and international settings with an emphasis on sub-Saharan Africa. By focusing on a systems approach to improving the sustainability of U.S. agriculture, this book can have a profound impact on the development and implementation of sustainable farming systems. *Toward Sustainable Agricultural Systems in the 21st Century* serves as a valuable resource for policy makers, farmers, experts in food production and agribusiness, and federal regulatory agencies.

Agriculture and the Environment Noel D. Uri, 1999. This book looks at both of these significant issues: the relationship between agricultural chemical use and the environment and the relationship between soil and water quality degradation associated with agricultural production in the environment. Interdisciplinary and Sustainability Issues in Food and Agriculture - Volume III Olaf Christen, Victor Squires, Rattan Lal and Rober J. Hudson, 2010-05-24. *Interdisciplinary and Sustainability Issues in Food and Agriculture* is a component of *Encyclopedia of Food and Agricultural Sciences, Engineering and Technology Resources in the global Encyclopedia of Life Support Systems (EOLSS)*, which is an integrated compendium of twenty-one encyclopedias. The Theme on *Interdisciplinary and Sustainability Issues in Food and Agriculture* provides the essential aspects and discusses a number of issues of importance in the development of specific agriculture and food supply systems that are closely related to general developmental trends of humankind. In this context, technology and economic development as well as socio-cultural developments affect productivity and a secure supply with food. These three volumes are aimed at the following five major target audiences: University and College students, Educators, Professional practitioners, Research personnel, and Policy analysts, managers, and decision makers, and NGOs.

Economic Trends in U.S. Agriculture and Food Systems Since World War II Milton C. Hallberg, 2008-09-08. By examining the fluctuations of the agriculture sector over the last 50 years, *Economic Trends in US Agriculture and Food Systems Since World War II* is able to give its readers a better glimpse at the future of farming. Author Milton C. Hallberg details the past and potential changes in the number of farms and farm size, farm income and expenses, and wealth of farm families and prices received, prices paid, and variability of prices. Through countless graphics and tables, Hallberg clearly presents his case for continued innovations and beneficial policies. This book is intended to be a resource for students of agriculture, but followers of agricultural history will also find it worthwhile reading.

Sustainability in Agricultural and Rural Development Gerard E. D'Souza, Tesfa G. Gebremedhin, 2019-05-23. First published in 1998, this book provides a broad but in-depth description of the issues, concepts, methods of analysis, and empirical results related to the sustainable development of agriculture and rural communities. Specifically, it examines the relationships between sustainability and individual topics such as technology, information, population, gender, land use,

community and public policy A unique aspect of this book is that the topics addressed have not previously been explored together in one publication With sustainability as the common link data and evidence are presented and then interpreted in light of individual perspective and experience in the process advancing our knowledge of this important field The book comprises of 12 chapters written by prominent authors who come from government and non government organizations as well as from various academic institutions and disciplines This book is ideal for a seminar course It is particularly intended for students in production agriculture rural sociology economics and public policy environmental sciences geography and land use planning and other social sciences Its rich insights make it a useful source of information for policy makers It can also be used as a reference by professional economists and other researchers interested in issues relating to sustainable agricultural and rural development While the coverage of some topics is by necessity more technical the book is compiled with a general audience in mind Thus it should be of interest to anyone concerned with agriculture natural resources and rural issues particularly as they relate to the future of agriculture and of rural communities

Institutions as Conscious Food Consumers Sapna Elizabeth Thottathil, Annelies Goger, 2018-08-28 Institutions like schools hospitals and universities are not well known for having quality healthy food In fact institutional food often embodies many of the worst traits of our industrialized food system with long supply chains that are rife with environmental and social problems and growing market concentration in many stages of food production and distribution Recently however non profit organizations government agencies university research institutes and activists have partnered with institutions to experiment with a wide range of more ethical and sustainable models for food purchasing also known as values based procurement Institutions as Conscious Food Consumers brings together in depth case studies from several of promising models of institutional food purchasing that aim to be more sustainable healthy equitable and local With chapters written by a diverse set of authors including leaders in the food movement and policy researchers this book Documents growing interest among non profit organizations and activists in institutional food interventions through case studies and first hand experiences Highlights emerging evidence about how these new procurement models affect agro food supply chains and Examines the role of policy and regional or geographic identity in promoting food systems change Institutions as Conscious Food Consumers makes the case that institutions can use their budgets to change the food system for the better although significant challenges remain It is a must read for food systems practitioners food chain researchers and foodservice professionals interested in values based procurement
