Congress. House. Committee on Ways and Means, 1989 **The Great Powers and Global Struggle, 1490-1990** Karen A. Rasler, William R. Thompson, 2021-10-21 In *The Great Powers and Global Struggle* Karen A. Rasler and William R. Thompson focus on two themes the rise and fall as well as the relative decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict *Working with Women and AIDS* Judy Bury, Sheena McLachlan, Sheena McLachlan, Val Morrison, 2002-08-26 Women now account for one third of the ten million people with HIV infection worldwide Yet until very recently most services were geared towards men and doctors and other professionals were often unprepared for the particular issues that women would raise *Working with Women and AIDS* provides a unique and readable combination of up to date medical information a discussion of social issues personal accounts and practical advice about ways of working with women affected by HIV and AIDS Written by people working in the field the book explores issues

such as contraception pregnancy and prostitution which are of central concern to those involved in the care of the increasing number of women affected by HIV infection and AIDS
