Elites, Language, and the Politics of Identity Gregg Bucken-Knapp, 2012-02-01 Why and when do linguistic cleavages within a nation become politicized Using Norway where language has played a particularly salient role in the nation's history as a case study Gregg Bucken Knapp explores these questions and challenges the notion that the politicization of language conflict is a response to language problems He shows that political elites often view language conflict as a political opportunity placing it on the policy agenda as an effective mobilizing tool to serve their own nonlinguistic political ends Although language oriented interest groups may fight to achieve desired language policies they are generally unsuccessful when their preferences clash with the broader objectives of political elites This book focuses on understanding just how language policies emerge

Teaching Transformed Roland Tharp, 2018-02-12 The social organization of teaching and learning particularly in classrooms has not yet been recognized as a foundational element of education However social constructionist views of human development cognition and schooling as well as the increasing challenges of cultural and linguistic diversity make it a vital concern for teachers researchers and policymakers This book introduces the concept of educational social organization assembles the pertinent theory and evidence and suggests future directions for training and policy The four goals of school reform academic excellence fairness inclusion and harmony can be achieved simultaneously by transforming the final common pathway of all school reform

instructional activity Teaching Transformed is a new vision for classrooms based on consensus research findings and unified practice prescriptions explained and justified by new developments in sociocultural theory and clarified by an explicit five phase developmental guide for achieving that transformation Teaching Transformed is both visionary and practical both theoretical and data driven and determined to create effective education for all students Professional educators parents and any reader concerned with saving our schools will find this book necessary to understand our current plight and to envision a realistic means of transformation

**Transforming the Culture of Schools** Jerry Lipka,With Gerald V. Mohatt,Esther Ilutskik,2014-01-21 This book speaks directly to issues of equity and school transformation and shows how one indigenous minority teachers group engaged in a process of transforming schooling in their community Documented in one small locale far removed from mainstream America the personal narratives by Yup k Eskimo teachers address the very heart of school reform The teachers struggles portray the first in a series of steps through which a group of Yup k teachers and university colleagues began a slow process of reconciling cultural differences and conflict between the culture of the school and the culture of the community The story told in this book goes well beyond documenting individual narratives by providing examples and insights for others who are involved in creating culturally responsive education that fundamentally changes the role and relationship of teachers and community to schooling

*More Than God Demands* Anthony Urvina,Sally Urvina,2016-03-15 Near the turn of the twentieth century the territorial government of Alaska put its support behind a project led by Christian missionaries to convert Alaska Native peoples and along the way bring them into civilized American citizenship Establishing missions in a number of areas inhabited by Alaska Natives the program was an explicit attempt to erase ten thousand years of Native culture and replace it with Christianity and an American frontier ethic Anthony Urvina whose mother was an orphan raised at one of the missions established as part of this program draws on details from her life in order to present the first full history of this missionary effort Smoothly combining personal and regional history he tells the story of his mother s experience amid a fascinating account of Alaska Native life and of the men and women who came to Alaska to spread the word of Christ confident in their belief and unable to see the power of the ancient traditions they aimed to supplant

*Social Context Reform* Paul Thomas,Brad J. Porfilio,Julie Gorlewski,Paul R. Carr,2014-06-20 Currently both the status quo of public education and the No Excuses Reform policies are identical The reform offers a popular and compelling narrative based on the meritocracy and rugged individualism myths that

are supposed to define American idealism This volume will refute this ideology by proposing Social Context Reform a term coined by Paul Thomas which argues for educational change within a larger plan to reform social inequity such as access to health care food higher employment better wages and job security Since the accountability era in the early 1980s policy public discourse media coverage and scholarly works have focused primarily on reforming schools themselves Here the evidence that school only reform does not work is combined with a bold argument to expand the discourse and policy surrounding education reform to include how social school and classroom reform must work in unison to achieve goals of democracy equity and opportunity both in and through public education This volume will include a wide variety of essays from leading critical scholars addressing the complex elements of social context reform all of which address the need to re conceptualize accountability and to seek equity and opportunity in social and education reform
