## **Taking Control Politics In The Information Age:**

*Class Politics in the Information Age* Donald Clark Hodges, 2000 *Class Politics in the Information Age* uncovers the origins development aims means and moral and political hypocrisy of the new class of professionals In line with a broad consensus that expertise has replaced capital as the decisive asset in the informational economy Hodges asserts that professionals have replaced capitalists as the premier exploiting class The dictatorship of the proletariat predicted by Marx is the United States a dictatorship of experts BOOK JACKET *Global politics in the information age* Mark J. Lacy, Peter Wilkin, 2024-07-30 *Global politics in the information age* available in paperback for the first time presents a provocative and wide ranging introduction to the notion that information technologies are creating new formations of power control and resistance across the planet The essays ranging from the language used by the Bush administration to shape the war on terror the attempts to control the circulation of informational products the strategies of media management deployed to shape how the war in Iraq during 2003 was presented in the public sphere through to the attempts to brand economic globalisation and strategies of resistance developed by the anti globalisation movement unearth the new transformations that are unfolding in the twenty first century This collection of essays brings together academics working across the social sciences from International Relations Political Economy Sociology and Media Studies to provide the reader with a number of different perspectives on the way that flows of images capital ideologies and informational goods are creating global spaces of control and resistance The book seeks to rethink approaches to global politics that see information society as closing down spaces of resistance while at the same time exploring the new formations of power that informational society is making possible The book offers clearly explained theoretical insight into the debates that are shaping discussion on global politics and information society with case studies that will be of interest to the student seeking to make sense of the changes that are unfolding Culture and Politics in the Information Age Frank Webster, 2001 This volume addresses these key issues through an analysis of important theoretical debates on issues such as digital democracy cultural politics and transnational communities Featuring contributors from both sides of the Atlantic the book contains a series of case studies on new social movements including campaigns on the environment gender animal rights and human rights It combines cutting edge research with theoretical material and makes an important contribution to this highly topical and rapidly growing area This book will be invaluable reading for students in areas including Politics Communications and IT Sociology and Cultural Studies Taking Control Morley Winograd, Dudley W. Buffa, 1996 The authors offer a blueprint for politics in the technological age that takes advantage of the capabilities of high technology information delivery systems to appeal to the most educated powerful players in the economy National ad promo Public Administration in an Information Age I. Th. M. Snellen, Wim B. H. J. van de Donk, 1998 This book is a joint effort of researchers who have been involved in research projects and programmes that have been trying to chart and reflect upon the implications of Information and Communication

Technologies ICTs for Public Administration Tilburg Rotterdam Kassel Irvine Nottingham Glasgow Since the fifties computers had largely facilitated and the transformation of the minimal Night Watch state into the modern Welfare state through their contribution to their effectivity productivity and efficiency In most Handbooks of Public Administration computers are seen as neutral instruments and most of the time the role of computer technologies in the transformation of public administration is completely neglected This deafening silence is a great contrast with the way ICT s are actually changing public administration The faster the developments in a field of study are the more difficult it is to let the theories related to that field of study mature In such circumstances most statements will remain provisional and context dependent 25 years of research in Irvine California and Kassel Germany and more than 10 years of research in Tilburg Rotterdam The Netherlands and about seven years of research in Glasgow Nottingham the United Kingdom nonetheless enables the presentation of a modest image of public administration as it is entering the information age Researchers in each of these groups have nevertheless not stopped trying to phrase theories about the implications of informatization for public administration with a more or less large scope that are robust in different contexts and over longer periods of time These results and theories covering a broad set of elements of the body of knowledge of public administration are presented in this volume As the authors try to demonstrate in this book informatization developments in public administration do not only challenge the existing body of knowledge of the public administration discipline but they are also opening up new perspectives and paradigms for the study of public administration

Modernizing Democracy F. Stevens Redburn, 2006 *Millennial Makeover* Morley Winograd, Michael D. Hais, 2008-02-04 This new in paperback edition includes a new afterword written specifically for this volume Morley Winograd and Michael D Hais review the developments of the 2008 presidential election and demonstrate how the coming of age of a millennial generation and the expansion of a new communication technology produced another realignment just as these twin forces of change have done throughout U S history

**Nuclear Weapons in the Information Age** Stephen J. Cimbala, 2012-02-02 In today s information age the coexistence of nuclear weapons with advanced conventional weapons and information based concepts of warfare is a military contradiction Nuclear deterrence was initially predicated on geopolitical military and technical assumptions These were based on Cold War politics rational deterrence theory the concept of mutual vulnerability and the fact that information and technology diffusion were limited Today however far from being obsolete nuclear and other weapons of mass destruction have not only survived but have become weapons for states that face security threats including perceived threats of nuclear blackmail or expectation of conflicts This study focuses on this unplanned coexistence of two distinct arts of war including the possibility that states like the U S may be held hostage to nuclear blackmail by outlier regimes or terrorists such as North Korea It shows that restricting nuclear proliferation should still be on the agenda of policymakers and calls for a revitalized global nonproliferation regime This unique survey by a leading expert will appeal to anyone interested in arms control nuclear

proliferation and defense policy      Cyber Security Politics Myriam Dunn Cavelty, Andreas Wenger, 2022-02-15 This book examines new and challenging political aspects of cyber security and presents it as an issue defined by socio technological uncertainty and political fragmentation Structured along two broad themes and providing empirical examples for how socio technical changes and political responses interact the first part of the book looks at the current use of cyber space in conflictual settings while the second focuses on political responses by state and non state actors in an environment defined by uncertainties Within this it highlights four key debates that encapsulate the complexities and paradoxes of cyber security politics from a Western perspective how much political influence states can achieve via cyber operations and what context factors condition the limited strategic utility of such operations the role of emerging digital technologies and how the dynamics of the tech innovation process reinforce the fragmentation of the governance space how states attempt to uphold stability in cyberspace and more generally in their strategic relations and how the shared responsibility of state economy and society for cyber security continues to be re negotiated in an increasingly trans sectoral and transnational governance space This book will be of much interest to students of cyber security global governance technology studies and international relations The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license      **What We Learned in the Rainforest** Tachi

Kiuchi, Bill Shireman, 2001-02-02 What We Learned in the Rainforest presents a surprising new business principle by applying strategies and practices gleaned from nature by emulating what it once sought to conquer business can adapt rapidly to changing market conditions and attain greater and more sustainable profits With clear direct language and dozens of real world examples Kiuchi and Shireman show how a company can become a complex living system that doesn't merely balance competing interests but truly integrates them Examples from leading companies include How Coca Cola CEO Doug Daft uses diversity to drive sales How Intel founder Gordon Moore creates profit by design How Bill Coors builds businesses on the theory that all waste is lost profit How Shell profits as an industrial ecosystem What Weyerhaeuser and activists learned from each other How Dow earns 300% returns and Dupont builds market share with eco effectiveness and more This book shows that the old model of business the machine model that pitted business against nature is growing obsolete In the emerging economy businesses excel when they emulate what they once sought to conquer They maximize performance as they become like nature like a complex living system By moving beyond the industrial machine model and applying the dynamic principles of the rainforest instead business can learn how to create more profit than ever and to do so more sustainably Written by two would be arch enemies a hard nosed CEO of a major corporation and a dedicated environmentalist this book doesn't just balance competing interests it integrates them into a truly revolutionary new paradigm Kiuchi and Shireman present numerous real world examples from leading companies business strategies and management practices that maximize business performance by all measures economic social and environmental They illustrate the powerful business model
