offline and online harm and how these roles do not occur in isolation in terms of the victims and families abusive experiences In doing so it demonstrates the range of harm experienced in the context of intimate partner abuse and homicide and outlines the overlapping nature of offline and online harm without prioritising one form of harm over the other instead considering the harm experienced as a continuum Providing theoretical and empirical contributions that are largely absent from existing victimology and harm literature Learning from Victims Family Narratives The Impact of Offline and Online Harm in Cases of Intimate Partner Homicide will be of interest to scholars researchers students and practitioners exploring the modern conceptualisation of harm and its impact on individuals beyond the victim and perpetrator **Stories,**
