into the digital era the profound impact of information technology on intellectual and cultural life is universally
acknowledged but still poorly understood The sheer complexity of the technology coupled with the rapid pace of change
makes it increasingly difficult to establish common ground and to promote thoughtful discussion Responding to this
challenge Switching Codes brings together leading American and European scholars scientists and artists including Charles
Bernstein Ian Foster Bruno Latour Alan Liu and Richard Powers to consider how the precipitous growth of digital information
and its associated technologies are transforming the ways we think and act Employing a wide range of forms including essay
dialogue short fiction and game design this book aims to model and foster discussion between IT specialists who typically
have scant training in the humanities or traditional arts and scholars and artists who often understand little about the
technologies that are so radically transforming their fields Switching Codes will be an indispensable volume for anyone
seeking to understand the impact of digital technology on contemporary culture including scientists educators policymakers
and artists alike *The Art of Contemporary China (World of Art)* Jiang Jiehong, 2021-04-13 A redefinition of contemporary
