A Tale of Two Villages Ho Yin Lee, Lynne Delehanty DiStefano, 2002 This book examines the threats of recent development to two of the oldest villages in Hong Kong's New Territories. It is at once a valuable document about Hong Kong's cultural heritage and a testimony to the ways in which sensitive and intelligent approaches to conservation can help safeguard the cultural heritage of Asia.

The Great Difference James Hayes, 2012-07-01 James Stewart Lockhart called it the great difference. Returned from an inspection tour of the newly leased extension to Hong Kong territory in August 1898, Lockhart, a senior Hong Kong colonial official, had used this phrase to describe the gulf between the New Territories and its people and the existing British colony of Hong Kong and its inhabitants. In this volume, James Hayes argues that this great difference led the colonial government to administer the New Territories and its people differently from the old urban area from the outset, resulting in repercussions that affect present-day Hong Kong. The study covers the whole period of the Lease with all its crowded events and dramatic changes as they affected the native inhabitants and their relationship with the government and over time the many times larger new urban population. James Hayes, PhD, London, is a scholar of the Hong Kong region and its people. He worked in the New Territories for almost half his thirty-two years of government service and was Regional Secretary in charge of district administration there in 1985-87. His publications include *Friends and Teachers: Hong Kong and Its People* (1953-87, Hong Kong University Press, 1996) and *South China Village Culture* (2001).

Global Hong Kong Cindy Wong, Gary McDonogh, 2014-06-03 Global Hong Kong locates Hong Kong in the contemporary globalizing world. Hong Kong, as the authors argue, is an archetypal place sitting at the intersection of East and West. It is also a major center for global capital flows and world trade. Moreover, in recent years, the island's global cultural power has become increasingly evident as Hong Kong popular culture has spread to the West via a booming film industry. While looking at issues of postcoloniality, transnationalism, and economic globalization, Wong and McDonogh focus on the new cultures and social formations of contemporary Hong Kong as well as the transformation of the physical city itself. They also trace the new interconnections, economic, demographic, social, and cultural, between Hong Kong and other parts of the world that have been fostered by globalization. Books in this series look at how nations and regions across the world are navigating the tumultuous currents of globalization. Concise, descriptive, interdisciplinary, and theoretically informed, they serve as ideal introductions to the peoples and places of our increasingly globalized world.
