**City Creatures** Gavin Van Horn,Dave Aftandilian,2015-11-03 This anthology explores Chicago s surprisingly diverse wildlife through essays poetry paintings and photographs We usually think of cities as the domain of humans but we are just one of thousands of species that call the urban landscape home While Chicago residents are likely familiar with squirrels pigeons and dogs many would be surprised to learn about the leafhoppers and water bears black crowned night herons and bison beavers and massasauga rattlesnakes that are living alongside them City Creatures introduces readers these and other creatures through a variety of creative contributions Contributors bring a story based approach to this urban safari taking readers on birding expeditions to the Magic Hedge at Montrose Harbor on the North Side canoe trips down the South Fork of the Chicago River better known as Bubbly Creek and insect collecting forays or restoration work days in the suburban forest preserves The book is organized into six sections each highlighting one type of place in which people might encounter animals in the city and suburbs For example schoolyard chickens and warrior wasps populate Backyard Diversity and a chorus of deep freeze frogs awaits in Water Worlds Its powerful combination of insightful narratives numinous poetry and full color art will help readers see the city and the creatures who share it with us in an entirely new light

*Urban Wildlife Adaptation* Yves Earhart,AI,2025-01-23 Urban Wildlife Adaptation presents a fascinating exploration of how animals and plants actively evolve and adapt to survive in human dominated urban environments The book challenges the outdated notion of cities as biological wastelands instead revealing them as dynamic ecosystems where wildlife develops sophisticated survival strategies through behavioral physiological and genetic adaptations Through compelling case studies spanning six continents the book showcases remarkable examples of urban adaptation including birds modifying their songs to overcome city noise and raccoons developing enhanced problem solving abilities The research combines traditional ecological fieldwork with cutting edge technology using tools like thermal imaging GPS tracking and AI driven analysis to document these evolutionary changes Each chapter builds systematically from immediate behavioral responses to long term genetic modifications supported by extensive field observations and citizen science initiatives What sets this work apart is its comprehensive approach to understanding urban ecosystems bridging the gap between academic research and practical applications While maintaining scientific rigor the book presents complex ecological concepts in an accessible manner making it valuable for both professionals and educated general readers The insights offered are particularly relevant for urban planners conservationists and anyone interested in promoting biodiversity in increasingly urbanized landscapes providing practical solutions for human wildlife coexistence while advancing our understanding of rapid evolution in anthropogenic environments

**Chicago's Parks** John Graf,2000-07-10 No other city in the world has a

park system as great as Chicagos which includes over 550 parks totaling more than 7 000 acres Each park has its own story as well as unique characteristics and history and yet the majority of Chicagoans are not aware of the wealth variety and sheer number of parks that exist to say nothing of the ideas they project the history they commemorate and the origins of their names Chicagos Parks A Photographic History seeks to remedy this oversight From Chicagos first park Dearborn Park to its more famous parks of Grant and Lincoln this book provides a wealth of information concerning the origins of the names and plans of these Chicago landmarks A formal plan for the creation of a park system was developed in 1869 and soon Chicago had some of the greatest parks to be found anywhere in the world When Chicago was founded in 1837 the citys fathers adopted the motto *urbs in horto* or the city set in a garden Despite the numerous changes that have taken place over the past 160 years Chicago is still a city set in a garden Chicagos Parks A Photographic History captures the growth of that garden with its nearly 200 historic photographs

**Urban Wildlife Management, Second Edition** Clark E.

Adams,2012-06-15 When the first edition of Urban Wildlife Management was published two years ago it provided conservationists ecologists and wildlife professionals with a welcome shift in the way that interactions between humans and wildlife were viewed and managed Instead of focusing on ways to evict or eradicate wildlife encroached on by urban development this unique work took a holistic ecosystems approach Gathering information from more than five hundred academic sources and the popular media this book educated us on the complete nature of the problem See what s new in the Second Edition New information garnered from secondary data sets Added contributions from an extended list of leading wildlife specialists Original research conducted by the authors and their students New chapters on urban soils urban waters and zoonotic diseases More perspective essays and case studies Single species profiles in each chapter that focus on management issues Numerous tables examining trends by species and by region Through discussions of past and present approaches in the United States the book explores the changing landscape of wildlife management and future approaches Urban habitats and hazards are defined in terms of green and gray spaces Sociopolitical issues are discussed in terms of wildlife management stakeholder responsibilities and legal considerations And wildlife are viewed as adaptive inhabitants of an evolving ecosystem rather than as interlopers in a humans only world The author maintains a blog exploring wildlife in our own backyard

**A Detroit Story** Claire W. Herbert, 2021-03-16 Bringing to the fore a wealth of original research A Detroit Story examines how the informal reclamation of abandoned property has been shaping Detroit for decades Claire Herbert lived in the city for almost five years to get a ground view sense of how this process molds urban areas She participated in community meetings and tax foreclosure protests interviewed various groups followed scrappers through abandoned buildings and visited squatted houses and gardens Herbert found that new residents with more privilege often have their back to the earth practices formalized by local policies whereas longtime more disempowered residents usually representing communities of color have their practices labeled as illegal and illegitimate She teases out how these divergent treatments reproduce long standing inequalities in race class and property ownership
