Afro-Asian Connections in Latin America and the Caribbean Debbie Lee-DiStefano, Luisa Marcela Ossa, 2018-11-27 Afro Asian Connections in Latin America and the Caribbean explores the connections between people of Asian and African descent in Latin America and the Caribbean Although their journeys started from different points of origin spanning two separate oceans their point of contact in this hemisphere brought them together under a hegemonic system that would treat these seemingly disparate continental ancestries as one Historically an overwhelming majority of people of African and Asian descent were brought to the Americas as sources of labor to uphold the plantation agrarian economies leading to complex relationships and interactions The contributions to this collection examine various aspects of these connections The authors bring to the forefront perspectives regarding history literature art and religion and engage how they are manifested in these Afro Asian relationships and interactions They investigate what has received little academic engagement outside the acknowledgement that there are groups who are of African and Asian descent In regard to their relationships with the dominant Europeanized center references to both groups typically only view them as singular entities What this interdisciplinary collection presents is a more cohesive approach that strives to place them at the center together and view their relationships in their historical contexts

Coming to Our Senses Dierdra Reber, 2016-02-02 *Coming to Our Senses* positions affect or feeling as our new cultural compass ordering the parameters and possibilities of what can be known From Facebook likes to Coca Cola loves from emotional intelligence in business to emotional contagion in social media affect has displaced reason as the primary catalyst of global culture Through examples of feeling in the books film music advertising cultural criticism and political discourse of the United States and Latin America Reber shows how affect encourages the public to reason on the strength of sentiment alone Well being represented by happiness and health and ill being embodied by unhappiness and disease form the two poles of our social judgment whether in affirmation or critique We must then reenvision contemporary politics as operating at the level of the feeling body so we can better understand the physiological and epistemological conditions affirming our cultural status quo and contestatory strategies for emancipation

Background Noise Saúl Yurkiévich, 2003 Background Noise introduces to the English speaking world the poetry of Argentinian writer Saul Yurkievich in a bilingual edition His poetry is a play of language and ideas with language leading the way His longer poems are collages full of similarities and contrasts that remain unresolved not circumscribed by a determination to harmonize or integrate Also important to Yurkievich are sound and rhythm His poems are like jazz solos spontaneously flowing in response to nothing but themselves And therefore they are great joys to read aloud But beneath the pleasures of Yurkievich s riffs there is a troubling despair There is a sense in the poems of our inability to know to find to get what we desire Writing in the tradition of Huidobro Vallejo and the early Neruda Yurkievich s work both celebrates and laments the world s pandemonium The title poem begins tenebrous turbid turmoil turbulence an

incantation of chaos Also included in this volume is an interview with Yurkievich and his friend the late fiction writer Julio Cortazar about their approaches to writing Book jacket **Catalogue of the Books for Boys and Girls, with Additions to 30th June, 1910 [in the High Street Branch]** Bolton (England). representation and performance in both elite and popular culture She also tracks how characteristics associated with these women have accrued across the Atlantic world Widely understood to embody the bridge between European subject and African other the mulata contains the sensuality attributed to Africans in a body more closely resembling the European ideal of beauty This symbol bears far reaching implications with shifting contradictory cultural meanings in Cuba Fraunhar explores these complex paradigms how why and for whom the image was useful and how it was both subverted and asserted from the colonial period to the present From the early seventeenth century through Cuban independence in 1899 up to the late revolutionary era Fraunhar illustrates the ambiguous figure s role in nationhood citizenship and commercialism She analyzes images including key examples of nineteenth century graphic arts avant garde painting and magazine covers of the Republican era cabaret and film performance and contemporary iterations of gender Fraunhar s study stands out for attending to the phenomenon of mulataje not only in elite production such as painting but also in popular forms popular theater print culture later films and other media where stereotypes take hold Indeed in contemporary Cuba mulataje remains a popular theme with Cubans as well as foreigners in drag shows reflecting queerness in visual culture *Monthly Bulletin of the Providence Public Library* Providence Public Library (R.I.),1898
