Winnipeg Beach Dale Barbour,2012-06-08 During the first half of the twentieth century Winnipeg Beach proudly marketed itself as the Coney Island of the West Located just north of Manitoba s bustling capital it drew 40 000 visitors a day and served as an important intersection between classes ethnic communities and perhaps most importantly between genders In *Winnipeg Beach* Dale Barbour takes us into the heart of this turn of the century resort area and introduces us to some of the people who worked played and lived in the resort Through photographs interviews and newspaper clippings he presents a lively history of this resort area and its surprising role in the evolution of local courtship and dating practices from the commoditization of the courting experience by the Canadian Pacific Railway s Moonlight Specials through the development of an elaborate amusement area that encouraged public dating and to its eventual demise amid the moral panic over sexual behaviour during the 1950s and 60s

developments in the Austro Hungarian empire in the final era of its existence A series of articles published in the volume are illustrative of the Rechtsstaat tendencies as detectable in the functioning of the Austro Hungarian administration and the judiciary and also in the field of Church State relationships Against that background there is also discussed the liberalism of the Austro Hungarian regime in the area of emigration as well as the grass roots initiative of the Poles in laying the foundations of Polonia restituta at the time when World War I had not yet come to its end Last but not least some authors present fairly individual topics such as the role of the fidei comissuni in promoting the preservation of cultural legacy in the Hungarian part of the empire or the survival of Hungarian serfdom tradition in the area of Poland controlled post war Spisz and Orawa *Rocky Mountain Tales* Arlene Pervin,2010-05-12 The development of the West was an exciting and

Poetry in the English Language Grosvenor Library,1902 **Tales of a Country Obstetrician** Daniel M.

Avery,2012-12-13 Daniel M Avery has been fascinated with the human body ever since he was young so it was natural that he should grow up to become a successful doctor As a funeral director he had his first opportunity to learn about anatomy disease processes and trauma He even witnessed the medical examiner performing autopsies in the morgue Once he became a doctor his adventures were more interesting although there are decisions he regrets For instance he would have never called the university to tow away an illegally parked recreation vehicle if he had known it belonged to the dean of the medical school In spite of the seriousness of the medical profession he enjoyed his share of light moments as well When a female resident delivered a baby and got blood all over her she asked if she could borrow a pair of underwear We wear different sizes and I only have one pair Dr Avery replied All physicians have at one time or another wished they had written down the highlights of their careers Dr Avery does so with no regrets examining the challenges adventures and funny moments that have defined his life as an Alabama doctor in *Tales of a Country Obstetrician* Doctor Tales Blair Beebe M. D.,2008-11

Stories about American healthcare have been told in print on film on television and radio and in every form imaginable The story of American healthcare however has never been told in quite the same way as in Dr Blair Beebe s *Doctor Tales* Through lyrical and compelling narrative Dr Beebe uses fourteen tales to tell his story of how our healthcare structure evolved to become the most advanced and problematic system in the world Beginning with the viewpoint of an impressionable twenty one year old first year medical student he continues with numerous patient encounters in hospital settings and ends with a

fictional community's response to an avian influenza epidemic transposed from a real outbreak in the Far East Doctor Tales draws from the lives of real doctors nurses and patients to show the changes that have occurred during the second half of the twentieth century that have led to spectacular new treatments and equally stunning shortfalls in healthcare **The Story of the Canadian Pacific Railway** Keith Morris,1916 **True Tales of the Paranormal** Kimberly Molto,2002-09-01 There are things in this world that we cannot explain and occurrences that make us ponder the very nature of our existence True Tales of the Paranormal is an intriguing examination of reincarnation premonitions and other spooky inexplicables from a scientific perspective exploring modern scientific theories and current research The author also provides suggestions on how to deal with paranormal experiences and where to go for help and information Even readers who have never had psychic experiences will be drawn into the lives of those who have and will be left questioning the world as we know it *True Tales of American Life* Paul Auster,2010-11-25 Chosen by Paul Auster out of the four thousand stories submitted to his radio programme on National Public Radio these 180 stories provide a wonderful portrait of America in the twentieth century The requirement for selection was that each of the stories should be true and each of the writers should not have been previously published The collection that has emerged provides a richly varied and authentic voice for the American people whose lives loves griefs regrets joys and sense of humour are vividly and honestly recounted throughout and adeptly organised by Auster into themed sections The section composed of war stories stretches as far back as the Civil War still the defining moment in American history while the sequence of Meditations conclude the volume with a true and abiding sense of transcendence The resultant anthology is both an enduring hymn to the strange everyday of contemporary American life and a masterclass in the art of storytelling **Canadian Bookman** ,1924 Extraordinary Tales from Manitoba History J. W. Chafe,Historical and Scientific Society of Manitoba,Manitoba Historical Society,1973 **Bryson City Tales** Walt Larimore,2004-07-04 Gift Local 11 1 2006 9 95 My Canadian Memories Sarah Macnaughtan,1920 **Put some Concrete in your Breakfast: Tales from Contemporary Nursing** Rasa Kabaila,2023-03-09 This book gives a sincere yet honest representation of modern nursing in all its forms rather than purely focusing only on the good the funny the sad or the ugly This book provides a collection of stories that concentrate on nursing that validates educates and encourages those undertaking a career in nursing In addition this book also celebrates the amazing rewards that the unique career of nursing has to offer for those who can find a way to persevere through the challenges There is a high rate of burnout among nurses in their early days of practice because of the high demands placed on them by the healthcare system hospital administrations the expectations of management patients families and carers and the sheer size of the patient loads with complex needs these days The global pandemic erupting has now pushed a health care service that was already under pressure to now be in complete crisis The world now knows that we need more nurses employed to be able to move forward from this calamity This book closes that gap in that it encourages the readers to continue to pursue a career in nursing despite the challenges that the profession

holds while also positively promoting the incredible work that nurses do The chapters within this book explore a cornucopia of different aspects of nursing including caring for dying patients dealing with bodily fluids and how patients are not very good at working out how sick they really are The book also covers how to manage the care of patients with complex mental illnesses and those contemplating suicide This book is targeted at nurses who may feel a little overwhelmed with the world that is nursing but who wish to thrive and further their career Discussion questions at the end of the book further add to the reflection and learning process of the reader

Encounters in Avalanche Country Diana L. Di Stefano, 2013-11-01 Every winter settlers of the U S and Canadian Mountain West could expect to lose dozens of lives to deadly avalanches This constant threat to trappers miners railway workers and their families forced individuals and communities to develop knowledge share strategies and band together as they tried to survive the extreme conditions of avalanche country The result of this convergence author Diana Di Stefano argues was a complex network of formal and informal cooperation that used disaster preparedness to engage legal action and instill a sense of regional identity among the many lives affected by these natural disasters Encounters in Avalanche Country tells the story of mountain communities responses to disaster over a century of social change and rapid industrialization As mining and railway companies triggered new kinds of disasters ideas about environmental risk and responsibility were increasingly negotiated by mountain laborers at the elite levels among corporations and in socially charged civil suits Disasters became a dangerous crossroads where social spaces and ecological realities collided illustrating how individuals groups communities and corporate entities were all tangled in this web of connections between people and their environment Written in a lively and engaging narrative style Encounters in Avalanche Country uncovers authentic stories of survival struggles frightening avalanches and how local knowledge challenged legal traditions that defined avalanches as acts of god Combining disaster mining railroad and ski histories with the theme of severe winter weather it provides a new and fascinating perspective on the settlement of the Mountain West
