## **Tales Of Itt An Insiders Report:**

*Tales of ITT* Thomas S. Burns, 1974      *Western Corporations and Covert Operations in the early Cold War* Margaret Murányi Manchester, 2024-05-28 This book examines the Vogeler Sanders espionage case that ruptured ties between the US and UK and Hungary in 1949 and analyses this as an example of Western covert operations in the early Cold War The work focuses on the 1949 case of ITT in Hungary where two of its executives the American Robert A Vogeler and the Briton Edgar Sanders were arrested by the secret police tortured forced to confess put on a public show trial and found guilty of espionage This happened at a time that the US and the UK were cooperating in numerous operations to undermine the credibility of the communist regime and to encourage local resistance by all means short of war Using the case as a lens to examine the dynamics of the early Cold War the book integrates business history diplomatic history and intelligence history and thereby traces the impact of the case on Anglo Hungarian American Hungarian and Anglo American relations during the critical period of 1949 1956 Vogeler s case had a strong impact on the growing criticism of the Truman Administration s containment policies and contributed to the demand for a more activist policy of liberation of captive peoples His experiences also rallied the business community especially trade associations such as the National Foreign Trade Council the US Chamber of Commerce and the National Association of Manufacturers to support the anti communist crusade both abroad and at home Vogeler s wife also waged a personal campaign to secure her husband s release and exemplifies the activism of conservative and Catholic women who waged their own anti communist crusade The book thus tells the rest of the story often omitted in traditional works This book will be of much interest to students of Cold War history intelligence studies and European political history      Leadership's Adversary Michael Wade, 2002 Managing employees is one of the most challenging tasks

imaginable and the relationship between supervisor and worker is not always smooth Often this situation occurs because of poor management style which overemphasises either results or personal relationships This book presents an analysis of different managing methods and tries to balance the jobs of leading and managing employees      **Catalog of Copyright**

**Entries. Third Series** Library of Congress. Copyright Office, 1976      **Poisoning the Press** Mark Feldstein, 2010-09-28 It is March 1972 and the Nixon White House wants Jack Anderson dead The syndicated columnist Jack Anderson the most famous and feared investigative reporter in the nation has exposed yet another of the President s dirty secrets Nixon s operatives are ordered to stop Anderson at all costs permanently Across the street from the White House they huddle in a hotel basement to conspire Should they try Aspirin Roulette and break into Anderson s home to plant a poisoned pill in one of his medicine bottles Could they smear LSD on the journalist s steering wheel so that he would absorb it through his skin lose control of his car and crash Or stage a routine looking mugging making Anderson appear to be one more fatal victim of Washington s notorious street crime Poisoning the Press Richard Nixon Jack Anderson and the Rise of Washington s Scandal Culture recounts not only the disturbing story of an unprecedented White House conspiracy to assassinate a journalist but also the

larger tale of the bitter quarter century battle between the postwar era's most embattled politician and its most reviled newsman. The struggle between Nixon and Anderson included bribery, blackmail, forgery, spying, and burglary, as well as the White House murder plot. Their vendetta symbolized and accelerated the growing conflict between the government and the press, a clash that would long outlive both men. Mark Feldstein traces the arc of this confrontation between a vindictive president and a flamboyant crusading muckraker who rifled through garbage and swiped classified papers in pursuit of his prey, stoking the paranoia in Nixon that would ultimately lead to his ruin. The White House plot to poison Anderson, Feldstein argues, is a metaphor for the poisoned political atmosphere that would follow and the toxic sensationalism that contaminates contemporary media discourse. Melding history and biography, *Poisoning the Press* unearths significant new information from more than two hundred interviews and thousands of declassified documents and tapes. This is a chronicle of political intrigue and the true price of power for politicians and journalists alike. The result: Washington's modern scandal culture was Richard Nixon's ultimate revenge.

*Incorporating Architects* Aaron Cayer, 2025. By the end of the twentieth century, US architecture and engineering firms held more capital than entire countries, employed more people than were housed in most cities, and rented offices in more nations than comprised the UN. Within them, architects were designing not single buildings but urban systems, including the multinational infrastructures, legal codes, and financial mechanisms on which those systems came to depend. However, despite the extraordinary power of these architects, their histories remain shrouded in myth and concealed by design. This forensic analysis traces a history of architects at one such firm, AECOM, as they assembled their own multinational corporation and embedded themselves in the operations of American empire after World War II, shielding themselves from the instabilities of a postwar political economy. *Incorporating Architects* reveals how architects, through their businesses more than their drawings or buildings, modulated the political economy, gripped the reins of their profession, and produced the global injustices that define our neoliberal present.

*Management in the Human Service Organization* United States. Office of Family Assistance, 1980. ***The Publishers Weekly***, 1974-07. ***New York Magazine***, 1974-10-28. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

**Library of Congress Catalogs** Library of Congress, 1976. ***Up Against the Corporate Wall*** S. Prakash Sethi, 1977. *The New York Times Book Review*, 1974-10. *Catalog of the Communications Library*, University of Illinois. University of Illinois at Urbana-Champaign. Library, 1975. *The Wagner Collection of Business and Corporate History, Formed Thru 1986*, 1987.
