Illustrated by Donald Grant** Dorothy Marion REID,1964 **Quests for Fire** ,2012-09-04 It is hard to imagine life without fire Heat light food where would we be without these essentials Although we do not rely on fire as much today as in times past nor have as much direct contact with it fire was often crucial to survival when the stories in this collection were first told People often told stories about it what their lives were like without fire how they first acquired it and how it changed their lives This collection of nine traditional tales retold by Jon C Stott draws from eight different countries Learn how Maui stole fire twice New Zealand how Coyote and his friends captured fire United States how Opossum brought fire back to the people Mexico and how Vasilisa used the Baba Yaga s fire Russia The main characters of these stories differ in many aspects Some are well known heroes and some are insignificant members of their groups Some made their quests for fire alone and some worked with others Some were brave and unselfish and some sought personal glory But all knew that fire was essential for their people *Nanabozho and the Great Serpent* Chris Kientz,Duke Redbird,2015 This is a story about the trickster Nanabozho The story of Nanabozho and the Great Serpent is one of many flood stories from around the world Page 32 Once Upon a Time Sheila Egoff,2005-09-01 In *Once Upon a Time* My Life with Children s Books Sheila Egoff tells the story of her working life from her early voracious

reading through all her significant contributions to libraries in Canada and to our national understanding of our own literature for children She brings both a critical eye and a personal touch to this book which reads as a memoir and as an account of important developments in Canadian writing and librarianship In this time of cuts to budgets for books and for librarians there is much here to reflect upon *Earth Tales from around the World* Michael J. Caduto,2016-11-29 Stories come from around the world but they grow from the very earth upon which they are first told Michael J Caduto invites readers to listen while the Earth tells these stories through his lyrical retellings of tales such as Hare Rescues the Sun and The Coming of Fire **Healing the Mind through the Power of Story** Lewis Mehl-Madrona,2010-06-18 Psychiatry that recognizes the essential role of community in creating a new story of mental health Provides a critique of conventional psychiatry and a look at what mental health care could be Includes stories used in the author s healing practice that draw from traditional cultures around the world Conventional psychiatry is not working The pharmaceutical industry promises it has cures for everything that ails us yet a recent study on antidepressants showed there is no difference of success in prescribed pharmaceuticals from placebos when all FDA reported trials are considered instead of just the trials published in journals Up to 80 percent of patients with bipolar depression remain symptomatic despite conventional treatment and 10 to 20 percent of these patients commit suicide In *Healing the Mind through the Power of Story* Dr Mehl Madrona shows what mental health care could be He explains that within a narrative psychiatry model of mental illness people are not defective requiring drugs to fix them What needs fixing is the ineffective stories they have internalized and succumbed to about how they should live in the world Drawing on traditional stories from cultures around the world Dr Mehl Madrona helps his patients re story their lives He shows how this innovative approach is actually more compatible with what we are learning about the biology of the brain and genetics than the conventional model of psychiatry Drawing on wisdom both ancient and new he demonstrates the power and success of narrative psychiatry to bring forth change and lasting transformation

Political Spirituality for a Century of Water Wars James W. Perkinson,2019-04-11 This book offers resources for re imagining the biblical vision of water for a time quickly emerging as the century of water wars It takes its urgency from the author s 5 year activist engagement with a grass roots led social movement pushing back on Detroit water shutoffs as global climate crises intensify Concerned with both white supremacist biopolitics and continuing settler colonial reliance on the Doctrine of Christian Discovery and beholden to an interreligious methodology of crossing over and coming back the text creatively re reads the biblical tradition under tutelage to the mythologies and practices of various indigenous cultures Algonquian Huron Haitian Vodouisant and Celtic Norman whose embrace of water is animate and spiritual as well as political and communal Not enough today merely to engage the political battle over water rights however indigenous wisdom and biblical prophecy alike insist that recovery of water spirituality is central to a sustainable future [Tribal Criminal Law and Procedure](#) Carrie E.
