Tales of New England By: Sarah Orne Jewett Sarah Orne Jewett,2017-09-21 Jewett comments on Tales of New England From a March 1890 letter to Horace Scudder at The Atlantic Cary Letters 63 I wished to ask you at once if it would not be better to push this book through and let it come out before summer since it simply makes one of a series and if I should make up another volume of short stories in the autumn they might get into each other s way and trip up You see I betray a sad lack of confidence in my children You do not express disapproval of the title which I put on the cover Tales of New England It says itself well and easily and perhaps will do as well as another though I was not sure of that at first You do not think it too ambitious But what are they Tales of if not Sarah Orne Jewett September 3 1849 June 24 1909 was an American novelist short story writer and poet best known for her local color works set along or near the southern seacoast of Maine Jewett is recognized as an important practitioner of American literary regionalism Jewett s family had been residents of New England for many generations and Sarah Orne Jewett was born in South Berwick Maine Her father was a doctor specializing in obstetrics and diseases of women and children and Jewett often accompanied him on his rounds becoming acquainted with the sights and sounds of her native land and its people As treatment for rheumatoid arthritis a condition that developed in early childhood Jewett was sent on frequent walks and through them also developed a love of nature In later life Jewett often

visited Boston where she was acquainted with many of the most influential literary figures of her day but she always returned to South Berwick small seaports near which were the inspiration for the towns of Deephaven and Dunnet Landing in her stories Jewett was educated at Miss Olive Rayne's school and then at Berwick Academy graduating in 1866 She supplemented her education through an extensive family library Jewett was never overtly religious but after she joined the Episcopal church in 1871 she explored less conventional religious ideas For example her friendship with Harvard law professor Theophilus Parsons stimulated an interest in the teachings of Emanuel Swedenborg an eighteenth century Swedish scientist and theologian who believed that the Divine was present in innumerable joined forms a concept underlying Jewett's belief in individual responsibility She published her first important story in the Atlantic Monthly at age 19 and her reputation grew throughout the 1870s and 1880s Her literary importance arises from her careful if subdued vignettes of country life that reflect a contemporary interest in local color rather than plot Jewett possessed a keen descriptive gift that William Dean Howells called an uncommon feeling for talk I hear your people Jewett made her reputation with the novella The Country of the Pointed Firs 1896 A Country Doctor 1884 a novel reflecting her father and her early ambitions for a medical career and A White Heron 1886 a collection of short stories are among her finest work Some of Jewett's poetry was collected in Verses 1916 and she also wrote three children's books Willa Cather described Jewett as a significant influence on her development as a writer and feminist critics have since championed her writing for its rich account of women's lives and voices **A**

Herring,2018-05-04 This book contains 127 stories of Lost Mines and Treasurers in New England covering the States of Connecticut Maine Massachusetts New Hampshire New York Rhode Island and Vermont Many of the stories concern treasurers buried by the French British Indians and Colonial settlers during the many wars that rocked the area in the 18th and 19th centuries I have also included a few stories from early newspapers on the Treasure of Oak Island which discuss the early history of the site It seems that interest has been revived in the area by a Television Show which has run for five seasons seeking the treasure believed to be there At the end of 2017 they actually found a piece of 16th century jewelry

containing a faceted Rhodonite Garnet and a lead cross and a few pieces of hardware I found the data for this book while doing research on old mines for my series of books *Mines of the American West* The Lost Mines and Treasurers were identified from articles in early American newspapers and other sources considered reliable Where possible for those lost treasures still to be found I have tried to tie them to modern mines or areas and include some background data on such areas In doing this some of them seemed to fall short in the area of fact and logic The reader should understand that this is a collection of data from old and new publications and not a focused specifically on the effort to find the specific properties although some research especially from a logic standpoint has been done If the reader can glean critical information from these original articles and the limited research that allows or helps him or her to locate a lost mine or lost treasure I wish him or her well and leave it to them to reap the rewards The print version of this book has been produced in the 8 1/2 X 11 format to keep the price low If done in 6 X 9 or smaller the book would be 2 or 3 times as many pages in length and would cost substantially more to increased on demand print costs These seem to be heavily influenced by the total number of pages While this may be one of the seeming drawbacks to on demand printing the benefit of on demand printing is that specialty books such as this are now practical to publish where the target market may be relatively small and minimal returns to the author are acceptable The Harvard Monthly ,1895 **The Bay State Monthly** ,1904 *The Literature of the American People* Arthur Hobson Quinn,1951 **The Publishers Weekly** ,1906 **Reading for Realism** Nancy Glazener,1997

Reading for Realism presents a new approach to U S literary history that is based on the analysis of dominant reading practices rather than on the production of texts Nancy Glazener s focus is the realist novel the most influential literary form of the nineteenth and twentieth centuries a form she contends was only made possible by changes in the expectations of readers about pleasure and literary value By tracing readers collaboration in the production of literary forms *Reading for Realism* turns nineteenth century controversies about the realist romance and sentimental novels into episodes in the history of readership It also shows how works of fiction by Rebecca Harding Davis Henry James Nathaniel Hawthorne and others participated in the debates about literary classification and reading that in turn created and shaped their audiences Combining reception theory with a materialist analysis of the social formations in which realist reading practices circulated Glazener s study reveals the elitist underpinnings of literary realism At the book s center is the Atlantic group of magazines whose influence was part of the cultural machinery of the Northeastern urban bourgeoisie and crucial to the development of literary realism in America Glazener shows how the promotion of realism by this group of publications also meant a consolidation of privilege primarily in terms of class gender race and region for the audience it served Thus American realism so often portrayed as a quintessentially populist form actually served to enforce existing structures of class and power
