Tales of the Intercoastal Waterway John J. Koneazny,2005-04 I m not sure there are any other books like it The time between the time of the last crusade and the discovery of the New World is somewhat of a dead spot in history This story is set in that time period This story takes the reader back to 14th century England and sets him her down there during the time of the 100 Year War in a time of political turmoil and upheaval when little value was placed on human life A time of brother against brother father against son That time in history when chivalry was becoming a thing of the past When political intrigue and lawlessness assured that no man was safe not even the king **The Killings Inthe Keys** Colonel John J. Koneazny,2011-06-17 Frankly I dont know whether to call this manuscript fact or fiction I know that what I have been able to check is fact but this is mainly hearsay as told to me by the real Harley Grant I met Harley Grant of course I have changed his name in Public Market just as I have had Mike Bender meet him in the beer isle The second time I ran into him I invited him over to the Green Flash our houseboat tied in Losers Lagoon for a drink Dottie invited him for supper and after supper we sat around drinking Sam Adams Dottie finally went to bed and we were still batting our gums It was then that Harley told me this story that he swears is true It was two in the morning when he finished When he finished I shook my head in disbelief I told him that I was going to check on it He told me that I would find nothing Big oil had destroyed any trace that it had ever happened This I took with a grain of salt I told this tale to a friend a Lt Commander in the Coast Guard He said Let me check on it maybe I can find something in one of the old logs I had almost forgotten about it when he got back to me Jack there may be something to that story you told me I found this entry in the ships log of one of the decommissioned 84 foot cutters Be on the lookout for a 70 or 80 foot yacht with xs and zs in its name which was last seen in Key West This rekindled my interest and I went back to Harley and asked him to show me Hidden Cay He took me down to the gate but he said that Mike and Lois were on an extended stay in Goa Yes there were peafowl on the property But that is the only verification that I could find except I did locate Neal Forest and in a drunken stupor he admitted that he did row a couple of Chinks out to a big yacht In this book I of course invented much of the dialogue and changed all the names I tried to keep it as realistic as it was when Harley first told it by having Mike Bender tell the story Further research proved fruitless I was stonewalled everywhere I went I even had one threat not to write a book about it To hell with it I am going to write it and call it FICTION **Fairy Tale Blues** Tina Welling,2009-03-03 From the author of Crybaby Ranch who writes with insight humor and complete control Tim Sandlin On the night of her twenty sixth wedding anniversary AnnieLaurie McFall does the unthinkable Without a word

U.S. Army Sea Tales Walter L. Grey Jr., 2010-08-16 The army marine field is a little known part of the army by both the civilians and the many soldiers People think of the combat arms infantry armor and artillery and while they are the heart of the army there are other branches without which the combat arms would cease to be an effective fighting force Arguably the most important element ensuring that the combat arms have beans and bullets is the Transportation Corps The motto of the Transportation Corps is Spearhead of Logistics because Nothing happens until something moves In my years as an army mariner I have had many interesting and sometimes humorous experiences My experiences are nothing compared with those of other army mariners This book is not just about my experiences but of other sea going sailors as well Some of the stories are hilarious and I believe all are interesting The book is divided into three elements The heart of the book is the Sea Tales but Mr Richard Killblane the Army Transportation Corps historian graciously provided me with many fascinating interviews of army mariners conducted by personnel in his office The histories of many army watercraft companies are the final elements of the book and provides the reader with the differences of watercraft units and their missions I have found my own experience to be very interesting and rewarding I recall one day working on the engine room logbook sitting at the galley table and glancing out of the door at the water in Skiffs Creek and thinking of how fortunate I was to be sitting there and not working in an office I have had a wide variety of duties in my twenty two year career but nothing compares with working on the water I can relate to what Samuel Clemmons wrote in his book Life on the Mississippi For I loved the profession far better than any I have followed since I feel that says it all I am now retired but I have the memories of my experiences
