Why Do People Sing? Paddy Scannell, 2019-07-09 In Why Do People Sing Paddy Scannell

explores some of the mysteries at the heart of vocal communication What explains the communicative musicality of the voices between parent and child as a baby learns to talk Can readers of fiction hear the voices of authors and characters within soundless written texts How has radio affected voice talk music and singing and how has it made them public in new ways And by putting the voice into recordings to what extent have broadcasting technologies provided a radically new resource for historians These questions and more are explored in the first three chapters In the final chapter Scannell boldly puts into words the inexpressible experience of listening to singing wherein the glory of the human voice finds its purest expression This highly original book makes a distinctive intervention by stressing the inherently positive qualities of talk rather than language as the basis for communication Concise and beautifully written it is suitable for students and scholars of media communication and other disciplines across the humanities as well as general readers with an interest in this fascinating topic

Parenting and Theory of Mind Scott A. Miller, 2016-02-22 Parenting and Theory of Mind represents the conjunction of two major research literatures in child psychology One is longstanding The question of how best to rear children has been a central topic for psychology ever since psychology began to develop as a science The other research literature is a good deal younger though quickly expanding Theory of mind ToM has to do with understanding of the mental world what people children in particular know or think about mental phenomena such as beliefs desires and emotions An important question that research on TOM addresses is where do children s ToM abilities come from In particular how do children s experiences shape their development If we know the formative experiences that underlie ToM then we may be able to optimize this important aspect of development for all children The last 15 or so years have seen a rapid expansion of the literature on the social contributors to ToM including hundreds of studies directed to various aspects of parenting These studies have made clear that parents can be important contributors to what their children understand about the mental world This is the first book to comprehensively bring together the literature on ToM and parenting summarizing what we know about how parenting contributes to one of the most important outcomes in cognitive development and outlining future directions for research in this growing area

The Collapse of the Fact/Value Dichotomy and Other Essays Hilary Putnam,2004-03-30 If philosophy has any business in the world it is the clarification of our thinking and the clearing away of ideas that cloud the mind In this book one of the world s preeminent philosophers takes issue with an idea that has found an all too prominent place in popular culture and philosophical thought the idea that while factual claims can be rationally established or refuted claims about value are wholly subjective not capable of being rationally argued for or against Although it is on occasion important and useful to distinguish between factual claims and value judgments the distinction becomes Hilary Putnam argues positively harmful when identified with a dichotomy between the objective and the purely subjective Putnam explores the arguments that led so much of the analytic philosophy of language metaphysics and epistemology to become openly hostile to the idea that talk of value and human flourishing can be right or wrong rational or irrational and by which following philosophy social sciences such as economics have fallen victim to the bankrupt metaphysics of Logical Positivism Tracing the problem back to Hume s conception of a matter of fact as well as to Kant s distinction between analytic and synthetic judgments Putnam identifies a path forward in the work of Amartya Sen Lively concise and wise his book prepares the way for a renewed mutual fruition of philosophy and the social sciences

The Flesh of the Matter Margo Natalie Crawford, C. Riley Snorton, 2024-11-15 PROSE Awards Category Winner Media and Cultural Studies

2025 Hortense Spillers is one of the most important literary critics and Black feminist scholars of the last fifty years Her 1987 scholarly article 'Mama's Baby, Papa's Maybe: An American Grammar Book' is one of the most cited essays in African American literary studies Edited by Margo Natalie Crawford and C. Riley Snorton *The Flesh of the Matter: A Critical Forum on Hortense Spillers* is the first collection to take up directly how Spillers's writing on literature, culture and theory have been signal posts to the varied and universal threads of Black thought as well as countless other areas of the academy Interspersed with archival fragments from Spillers's papers kept at the Pembroke Center for Feminist Thought at Brown University the fourteen essays in this collection demonstrate a fidelity to the ways of reading Spillers has taught us the nomenclature of enslavement keyed into the American lexicon and the ways that history permeates our cultural boundaries today

Intentionality Deconstructed Amir Horowitz, 2024 *Intentionality Deconstructed: An Anti-Realist Theory* argues for the view that there are and can be no intentional states We may put this view in terms of the truth of content ascriptions Content ascriptions in themselves cannot be true or false they lack truth conditions for the concept of intentionality is flawed Nonetheless content ascriptions have truth conditions and can be true or possess a related epistemic merit relative to practices of content ascription The suggested view does not deny the existence of those mental states standardly considered intentional notably the so-called propositional attitudes it affirms it That is the book defends the existence of those states with the properties usually attributed to them but absent intentional properties Specifically it is argued that the so-called propositional attitudes possess logico-syntactic properties The postulation of such properties plays an important role in

addressing the challenge of reconciling intentional anti realism with beliefs being true or having substitute epistemic merits the argument from the predictive and explanatory success of content ascription for intentional realism and the cognitive suicide objection to views that deny intentionality As part of the rejection of this final objection intentional anti realism is presented as a radical view which replaces traditional talk of content ascriptions with talk of quoted logico syntactic structures but which can yet give clear sense to its dispute with its rivals as well as to its own superiority **In the Circuit Court of the United States for the Eastern Division of the Eastern Judicial District of Missouri ,1908 United States of America, Petitioner, V.
