Six Days Or Forever Tennessee Vs John Sc:

Understanding Comparative Politics Mehran Kamrava, 2002-11-01 Comparative politics has undergone significant theoretical changes in recent decades Particularly since the 1980s a new generation of scholars have revamped and rejuvinated the study of the subject Mehran Kamrava examines current and past approaches to the study of comparative politics and proposes a new framework for analysis This is achieved through a comparative examination of state and social institutions the interactions that occur between them and the political cultures within which they operate The book also offers a concise and detailed synthesis of existing comparative frameworks that up to now at least have encountered analytical shortcomings on their own Although analytically different in its arguments and emphasis from the current Mainstream genre of literature on comparative politics the present study is a logical outgrowth of the scholarly works of the last decade or so It will be essential reading for all students of comparative politics The Scopes Trial Randy Moore, Susan E. Brooks, 2022-12-16 The 1925 trial of John Scopes in tiny Dayton Tennessee remains a defining moment in American history This trial of the century a media event before the term was coined addressed issues that still affect our society today such as control of the school curriculum the ongoing tensions between science and faith in public schools and the ramifications of teaching evolution and human origins This book is the first encyclopedic treatment of the Scopes Trial The text draws on media reports family interviews and Scopes personal correspondence providing new information and perspectives The book includes previously unseen photos and information about Scopes and his relatives as well as insights about the trial s instigators participants and issues all organized in a concise and easily accessible format The Scopes "Monkey Trial" Randy Moore, 2022-11-07 This book introduces readers to the Trial of the Century revealing how the trial originated what caused and happened during and after the trial what happened to the trial's participants and why the trial still matters nearly 100 years later Ongoing controversies about school curricula such as the teaching of Critical Race Theory and the role of parents in public education can all be traced to the Scopes Trial Today the question remains who controls the school curriculum This was a foundational issue in the Scopes Trial and we have been debating this question ever since This book will help readers understand where these controversies originated and how courts politicians and the public handled these issues nearly a century ago Featuring new information from previously untapped sources and providing an in depth study of John Scopes himself this book interrogates the facts fictions and legend of the Scopes Trial which historians rank as one of the defining events of the 20th century It is an ideal resource for anyone interested in the ongoing controversy about evolution science and religion in education and American life **The Evangelicals** Robert Krapohl, Charles H. Lippy, 1999-04-30 The different facets of American religious life are more thoroughly understood with an awareness of the Evangelical heritage that intersects the different denominational boundaries Since Evangelicalism is not confined to one religious denomination or group it has associations with a number of American religious movements such as Fundamentalism Pentecostalism the Charismatic Movement and Revivalism This study modeled after the popular Greenwood Denominations in America series analyzes the people institutions and the religious culture of modern American Evangelicals Divided into three sections the book presents a history of American Evangelicalism discusses themes and issues in modern American Evangelicalism and provides a biographical dictionary of modern American Evangelical leaders The combination of critical narrative and reference will appeal to religion scholars and American culture scholars alike Separate bibliographies unique to the history section and to the themes and issues section provide valuable resources for further research Equally helpful is the bibliographic material that completes each entry in the biographical dictionary section of the book The three part organization makes this an accessible research tool clearly organized for easy cross referencing **Dissertations** R. Murray Thomas, Dale L. Brubaker, 2007-08-03 This text moves beyond simplistic procedures to follow to in depth discussions of stages in the research process providing strong reference points and examples for students embarking on the disciplined inquiry of thesis and dissertation research A valuable text for proposal writing classes faculty members who direct dissertations and theses and students throughout the research process Betty J Alford Chair of Secondary Education and Educational Leadership Stephen F Austin State University Graduate students will be in debt to professors Thomas and Brubaker for providing a long overdue guide to the rite of passage known as theses and dissertations This book is realistic clear and refreshingly sensitive to what students need to know Seymour B Sarason Professor of Psychology Emeritus Yale University Take the anxiety out of preparing your thesis or dissertation This revised classic helps graduate students approach the thesis or dissertation writing process with confidence offering updated references and new information on Internet searches narrative summaries plagiarism and Internet publishing options The authors help readers stay on track by providing checklists and multiple examples as they progress through five critical stages Preparation Selecting research topics Collecting and organizing information Interpreting the results The final presentation With thorough quidelines for evaluating research options this indispensable resource helps make the writing process a satisfying and rewarding one A Narrative Analysis of the Scopes Trial Julie Marie Larson, 1995 Six Days Or Forever? Ray Ginger, 1974-11-14 The Southern Agrarians and the New Deal Emily Bingham, Thomas A. Underwood, 2001 Underwood s carefully selected collection of six key Agrarians essays combined with a revealing new introduction offers a radically revised view of the movement as it was redefined and revived during the New Deal American Sociological Review ,1958-02 The Larger Hope: The second Journal of American Culture ,1994 Science John Michels (Journalist),1959
