Shadow of Sohvan Shane C. Callow,2012-03-22 She stared about in confusion before noticing something The crystal rose was twinkling in the snow She huddled down next to it Her fingers stretched toward it brushing the snow off from the pile it lay in Intently her hazel eyes lingered upon the rose The red surface of the petals reflected her stare She closed her eyes and clutching the rose closer to her chest Her eyes opened Golden light swam across her face and in an instant she was gone only leaving a flash of light behind her passage from Shadow of Sohvan Shadow of Sohvan is a tale of heroics in an epic fantasy world filled with magic monsters and the sword The story follows the quest of a young girl to be reunited with her lost love Her journey takes her from distant shores of the wizard isles to the Tomb of the Ancient Kings in the tall Iterian Mountains

Flowers of the Fern Matthew Allen-Johnson,2023-05-24 About the Book Flowers of the Fern is a small story that provides the reader with quite personal stories about its characters It isn't the high adventure story where a ragtag bunch assembles to take down a sorcerer or destroy an evil king It's more of a detective story wrapped up in fantasy clothing It is not defined by its scale or its intentions in storytelling Instead it provides a different caliber of fantasy story to counteract many of the larger often overbearing series that come out now The tale is something thoughtful engaging and relatable and it is something that won't intimidate the reader with its length or its content About the Author Matthew Allen Johnson was born in Champaign Illinois He is a self proclaimed shut in who spends most of his time reading and writing He enjoys science fiction fantasy and the days of yore Johnson also likes collecting old music from the 1920s through the 1960s He also loves movies especially the bad ones Perhaps because his grandfather was a detective he has always had an inclination towards crime stories and police procedurals In a way this novel is something of a subconscious marriage between his love of Anglo Saxon history and a few episodes of Columbo

Medicine Meets Virtual Reality 13 James D. Westwood, 2005 Magic describes conditions that are outside our understanding of cause and effect Even in modern societies magic based explanations are powerful because given the complexity of the universe there are so many opportunities to use them The history of medicine is defined by progress in understanding the human body from magical explanations to measurable results To continue medical progress physicians and scientists must openly question traditional models For thirteen years MMVR has been an incubator for technologies that create new medical understanding via the simulation visualization and extension of reality Researchers create imaginary patients because they offer a more reliable and controllable experience to the novice surgeon With imaging tools reality is purposefully distorted to reveal to the clinician what the eye alone cannot see Robotics and intelligence networks allow the healer's sight hearing touch and judgment to be extended across distance as if by magic The moments when scientific truth is suddenly revealed after lengthy observation experimentation and measurement is the real magic These moments are not miraculous however book
