**Sketches from Bleak House** Mervyn Peake, 1983      **The Original Drawings for Charles Dickens' Famous Novel "Bleak House"** Phiz, 1930\*      **The London of Dickens** Walter Dexter, 1923      *Victorian Subjects* Joseph Hillis Miller, 1991

Written over a thirty five year period these essays reflect the changes in J Hillis Miller's thinking on Victorian topics from an early concern with questions of consciousness form and intellectual history to a more recent focus on parable and the development of a deconstructive ethics of reading Miller defines the term Victorian subjects in more than one sense The phrase identifies an historical time but also names a concern throughout with subjectivity consciousness and selfhood in Victorian literature The essays show various Victorian subjectivities seeking to ground themselves in their own underlying substance or in some self beneath or beyond the self But Victorian subjects also discusses those who were subject to Queen Victoria to the reigning ideologies of the time to historical social and material conditions including the conditions under which literature was written published distributed and consumed These essays taken together sketch the outlines of ideological assumptions within the period about the self interpersonal relations nature literary form the social function of literature and other Victorian subjects      *The American Catalogue ... Ponzio, 2018-03-13 The Victorian age is often portrayed as an era of repressive social mores Yet this simplified view ignores the context of Great Britain's profound shift through rapid industrialization from rural to metropolitan life during this time Throughout his career Charles Dickens addressed the numerous changes occurring in Victorian society His portrayals of organized religion class distinction worker's rights prison reform and rampant poverty resonated with readers experiencing social upheaval Focusing on his novels nonfiction writing speeches and personal correspondence this book explores Dickens's use of these themes as both literary devices and as a means to effect social progress      **The American Catalog**, 1880
