Tales From The Left Coast True Stories Of Hollywood Stars And Their Outrageous Politics:

Tales from the Left Coast James Hirsen, NewsMax, 2007-12-18 When Barbra Streisand sends Dick Gephardt a personal fax it makes headline news When international relations expert Sean Penn leads his own tour of peace in Baghdad every news desk across the country reports it It s no secret that Hollywood has a leftward tilt when it comes to politics But what the celebrity fawning media fail to show is how Hollywood s liberal bias affects actors movies and even public policy In *Tales from the Left Coast* author and political commentator James Hirsen digs deep into the liberal underbelly of Hollywood to reveal how biased politics have corrupted the entire entertainment industry Through extensive research and scores of interviews Hirsen uncovers some of the most ridiculous infuriating and damning political stunts pulled by celebrities of yesterday and today and he traces the tangled web of influence the Hollywood elite have over politicians in Washington D C

Hollywood Nation James L. Hunting Down Social Darwinism Stuart K. Hayashi, 2015-02-17 *Hunting Down Social Darwinism* is the third and final installment in the trilogy *The Nature of Liberty* The trilogy gives a secular ethical defense of laissez faire capitalism inspired by Ayn Rand s ideas The trilogy s first book *The Freedom of Peaceful Action* provided the philosophic theory behind the ethics of a free enterprise system based on the individual rights to life liberty and private property which John Locke described The second installment *Life in the Market Ecosystem* explained how free enterprise functions much as a natural ecosystem wherein behavioral norms develop bottom up from repeat interactions among individual participants in the economy As such defenses of free enterprise are frequently criticized as social Darwinism however this third and final installment of the trilogy asks the question What is social Darwinism The book embarks on a hunt for the term s meaning explores social Darwinism s beginnings and examines whether it is fair to describe such nineteenth century free market advocates as Herbert Spencer and William Graham Sumner as social Darwinists It then addresses the accusation that the free market Darwinism commonly ascribed to Spencer and

Sumner rationalized bigotry and founded the pseudoscience of eugenics In the process the book refutes various myths about the topic popularized by such scholars as Richard Hofstadter and John Kenneth Galbraith The extent to which the popular narratives about social Darwinism prove to be inaccurate holds enormous ramifications for current controversies It has implications for debates over the ethical appropriateness of reducing taxpayer spending on social welfare programs and also sheds new light on the pros and cons of attempts to apply biological evolutionary theory to the study of human social institutions Additionally discussed is the manner in which various prominent figures in economics evolutionary psychology and Complexity Theory have grown famous for advancing ideas which Spencer and Sumner originated even as such figures simultaneously downplay the importance of Spencer and Sumner to their field Following the hunt for social Darwinism this work sums up the trilogy with some final thoughts on the importance that liberty holds for every effort to live life to the fullest Landmark Briefs and Arguments of the Supreme Court of the United States United States. The Saturday Review of Politics, Literature, Science and Art ,1882 Shocking Representation Adam

Lowenstein,2005-12-22 In this imaginative new work Adam Lowenstein explores the ways in which a group of groundbreaking horror films engaged the haunting social conflicts left in the wake of World War II Hiroshima and the Vietnam War Lowenstein centers Shocking Representation around readings of films by Georges Franju Michael Powell Shindo Kaneto Wes Craven and David Cronenberg He shows that through allegorical representations these directors' films confronted and challenged comforting historical narratives and notions of national identity intended to soothe public anxieties in the aftermath of national traumas Borrowing elements from art cinema and the horror genre these directors disrupted the boundaries between high and low cinema Lowenstein contrasts their works often dismissed by contemporary critics with the films of acclaimed New Wave directors in France England Japan and the United States He argues that these New Wave films which were embraced as both art and national cinema often upheld conventional ideas of nation history gender and class questioned by the horror films By fusing film studies with the emerging field of trauma studies and drawing on the work of Walter Benjamin Adam Lowenstein offers a bold reassessment of the modern horror film and the idea of national cinema **On the Air** John Dunning,1998-05-07 Now long out of print John Dunning's Tune in Yesterday was the
