Tales of the 04 Ranch Harold J. Cook, 1968-01-01 **Tales of the 04 Ranch** Harold James Cook, 1968 **Field Life** Jeremy Vetter, 2016-11-01 *Field Life* examines the practice of science in the field in the Great Plains and Rocky Mountains of the American West between the 1860s and the 1910s when the railroad was the dominant form of long distance transportation Grounded in approaches from environmental history and the history of technology it emphasizes the material basis of scientific fieldwork joining together the human labor that produced knowledge with the natural world in which those practices were embedded Four distinct modes of field practice which were shared by different field science disciplines proliferated during this period surveys lay networks quarries and stations and this book explores the dynamics that underpinned each of them Using two diverse case studies to animate each mode of practice as well as the making of the field as a place for science *Field Life* combines textured analysis of specific examples of field science on the ground with wider discussion of the commonalities in the practices of a diverse array of field sciences including the earth and physical sciences the life and agricultural sciences and the human sciences By situating science in its regional environmental context *Field Life* analyzes the intersection between the cosmopolitan knowledge of science and the experiential knowledge of people living in the field Examples of field science in the Plains and Rockies range widely geological surveys and weather observing networks quarries to uncover dinosaur fossils and archaeological remains and branch agricultural experiment stations and mountain biological field stations *History of Nebraska* James C. Olson, 1997-01-01 *History of Nebraska* was originally created to mark the territorial centennial of Nebraska and revised to coincide with the statehood centennial This one volume history quickly became the standard text for the college student and reference for the general reader unmatched for three generations This third edition which has been thoroughly revised and rewritten while preserving the spirit and intelligence of the original affirms and extends that record Incorporating the results of thirty years of scholarship and research the third edition of *History of Nebraska* gives fuller attention to such topics as the Native American experience in Nebraska and the accomplishments and circumstances of the state s women and minorities It also provides a historical analysis of the state s dramatic changes in the past thirty years **Gunsmoke and Saddle Leather** Charles G. Worman, 2005-12-15 The many roles played by guns in the old West with personal accounts by many early settlers and hundreds of photos *The Age of Mammals* Chris Manias, 2023-06-27 When people today hear paleontology they immediately think of dinosaurs But for much of the history of the discipline dramatic demonstrations of the history of life focused on the developmental history of mammals *The Age of Mammals* examines how nineteenth century scholars writers artists and public audiences understood the animals they regarded as being at the summit of life For them mammals were crucial for understanding the formation and possibly the future of the natural world Yet as Chris Manias reveals this combined with more troubling notions that seemingly promising creatures had been swept aside in the struggle for life or that modern biodiversity was impoverished

compared to previous eras Why some prehistoric creatures such as the saber toothed cat and ground sloth had become extinct while others seemed to have been the ancestors of familiar animals like elephants and horses was a question loaded with cultural assumptions ambiguity and trepidation How humans related to deep developmental processes and whether the Age of Man was qualitatively different from the Age of Mammals led to reflections on humanity s place within the natural world With this book Manias considers the cultural resonance of mammal paleontology from an international perspective how reconstructions of the deep past of fossil mammals across the world conditioned new understandings of nature and the current environment **Nebraska History** Addison Erwin Sheldon,James Lee Sellers,James C. Olson,1969 Folsom

David J. Meltzer,2006-06-05 In the late 1920s an exciting discovery was made at the New Mexico site of Folsom spear points found embedded between the ribs of an Iron Age bison that was to resolve decades of bitter conflict amongst archaeologists
