Taliban Islam Oil The New Great Game:

Taliban Ahmed Rashid, 2008 Since 9 11 the Taliban have dominated headlines around the world The Taliban government allied to Osama Bin Laden collapsed dramatically following the Anglo American invasion of 2001 Since then however the movement has showed an unexpected ability to evolve and has drawn the world s only superpower into a protracted and seemingly unwinnable conflict in this strategically vital country Now just as in the 1980s the Taliban s struggle against a foreign power has drawn the support and interest of radicals across the Islamic world particularly in neighbouring Pakistan Updated to cover the post 2001 period this latest edition describes the group s development from civil war faction to government to a mountain based guerrilla force and its effect on the balance of power in Central Asia As Rashid shows Afghanistan is at the centre of a new Great Game Western oil companies Pakistani Saudi and Iranian intelligence officials and CIA operatives jostle with the Taliban for the prize access to new oil fields control of the transit routes for pipelines and of course control of the narcotics trade Once again the Taliban is a vital player in a key region at a pivotal time **BOOK JACKET**

The Rational Believer Masooda Bano, 2012-03-15 Islamic schools or madrasas have been accused of radicalizing Muslims and participating either actively or passively in terrorist networks since the events of 9 11 In Pakistan the 2007 siege by government forces of Islamabad s Red Mosque and its madrasa complex whose imam and students staged an armed resistance against the state for its support of the war on terror reinforced concerns about madrasas role in regional and global jihad By 2006 madrasas registered with Pakistan s five regulatory boards for religious schools enrolled over one million male and 200 000 female students In *The Rational Believer* Masooda Bano draws on rich interview ethnographic and survey data as well as fieldwork conducted in madrasas throughout the country to explore the network of Pakistani madrasas She maps the choices and decisions confronted by students teachers parents and clerics and explains why available choices make participation in jihad appear at times a viable course of action Bano s work shows that beliefs are rational and that religious believers look to maximize utility in ways not captured by classical rational choice She applies analytical tools from the New Institutional Economics to explain apparent contradictions in the madrasa system for example how thousands of young Pakistani women now demand the national adoption of traditional sharia law despite its highly restrictive limits on female agency and do so from their location in Islamic schools for girls that were founded only a generation ago

examined in the book include those associated with social closure social movements nationalism risk fear and de civilising These are applied within three main themes characteristics of militant Islam multi layered causes and the consequences of militancy in particular Western reactions within the war on terror Interrelationships between religious and secular behaviour terrorism and counter terrorism popular support and opposition are explored Through the examination of examples from across Muslim societies and communities the analysis challenges the popular tendency to concentrate upon al Qa ida and the Middle East This book will be of interest to students of Sociology Political Science and International Relations in particular those taking courses on Islam religion terrorism political violence and related regional studies *War without End* Dilip Hiro,2014-06-03 This book provides the historical and political context to explain acts of terror including the September 11th and the bombing of American Embassies in Nairobi and Dar as Salaam and the West s responses Providing a brief history of Islam as a religion and as socio political ideology Dilip Hiro goes on to outline the Islamist movements that have thrived in Egypt Saudi Arabia and Afghanistan and their changing relationship with America It is within this framework that the rising menace of Osama bin Laden and his Al Qaida network is discussed The Pentagon s amazingly swift victory over the Taliban in Afghanistan is examined along with implications of the Bush Doctrine encapsulated in his declaration so long as anybody is terrorizing established governments there needs to be a war a recipe for war without end **Global Energy Security and American Hegemony** Doug Stokes,Sam Raphael,2010-06-07 This analysis of the United States and energy security examines the close relationship between US military supremacy in oil rich regions and America s maintenance of global power Energy security generally evokes thoughts of American intervention in the Middle East to protect US interests in that region s oil rich fields Doug Stokes and Sam Raphael move beyond that framework to consider US actions in Latin America Central Asia and Africa Drawing on State and Defense Department records and other primary sources and previous scholarship they show how US foreign policy since World War II has sought to maintain a global energy security regime that supports the nation s allies while maintaining American hegemony Stokes and Raphael explain how US intervention in energy rich states insulates and stabilizes those nations transnationally oriented actors and political economies and why American oil diversification strategy strengthens the country s position against rivals in the global capitalist system They argue that counterinsurgency aid and other types of coercive US statecraft protect the recipient states from an array of potentially revolutionary armed and unarmed internal social forces thereby securing the energy supplies of nations deemed strategically important to the United States or its allies Clear and accessible this cutting edge contemporary policy analysis will engage scholars of US foreign policy and international relations as well as policymakers grappling with the importance of energy security in today s world **Women and Fluid Identities** H. Afshar,2012-11-27 This book argues that it is the fluidity of women s identities that enables them to bridge the gender divides and roles ascribed to them by society and culture with those that they have chosen for themselves whilst retaining a sense of their self *Muslim Cultures Today* Kathryn M.

Afghanistan's Political Stability Ahmad Shaye Qassem,2016-03-16 Political stability has been a central theme of policy for all governments and political systems in the history of modern Afghanistan Since its inception in the mid nineteenth century the country experimented with a diverse succession of political systems and state ideologies matched by few other countries political histories In the span of less than nine decades since independence in 1919 the Afghan state was substantially restructured at least a dozen times This volume looks at Afghanistan s historic relations with Central and South Asia ethno nationalism and development Soviet occupation and transformation of relations with Pakistan stability of the Islamic State and regional cooperation It examines how Afghanistan s different political systems reformed and readjusted policies to make them more conducive to political stability Yet political stability at best has remained a dream unrealized in Afghanistan

Al-Qaida in Afghanistan Anne Stenersen,2017-07-26 Since 9 11 al Qaida has become one of the most infamous and widely discussed terrorist organizations in the world with affiliates spread across the globe However little known are the group s activities within Afghanistan itself something which Anne Stenersen examines in this book Using an array of unique primary sources she presents an alternative narrative of al Qaida s goals and strategies prior to 9 11 She argues that al Qaida s actions were not just an ideological expression of religious fanaticism and violent anti Americanism but that they were actually far more practical and organised with a more revolutionary and Middle Eastern focused agenda than previously thought Through Stenersen s analysis we see how al Qaida employed a dual strategy with a small section focused on staging international terrorist attacks but at the same time a larger part dedicated to building a resilient and cohesive organization that would ultimately serve as a vanguard for future Islamist revolutions

The History of Terrorism Gérard Chaliand, 2016-08-23 This authoritative work provides an essential perspective on terrorism by offering a rare opportunity for analysis and reflection at a time of ongoing violence threats and reprisals Some of the best international specialists on the subject examine terrorism's complex history from antiquity to the present day and find that terror long the weapon of the weak against the strong is a tactic as old as warfare itself Beginning with the Zealots of the first century CE contributors go on to discuss the Assassins of the Middle Ages the 1789 Terror movement in Europe Bolshevik terrorism during the Russian Revolution Stalinism resistance terrorism during World War II and Latin American revolutionary movements of the late 1960s Finally they consider the emergence of modern transnational terrorism focusing on the roots of Islamic terrorism al Qaeda and the contemporary suicide martyr Along the way they provide a groundbreaking analysis of how terrorism has been perceived throughout history What becomes powerfully clear is that only through deeper understanding can we fully grasp the present dangers of a phenomenon whose repercussions are far from over This updated edition includes a new chapter analyzing the rise of ISIS and key events such as the 2015 Paris attacks

Living Islam Magnus Marsden, 2005-12-19 Popular representations of Pakistan's North West Frontier have long featured simplistic images of tribal blood feuds fanatical religion and the seclusion of women The rise to power of the radical Taliban regime in neighbouring Afghanistan enhanced the region's reputation as a place of anti Western militancy Magnus Marsden is an anthropologist who has immersed himself in the lives of the Frontier's villagers for more than ten years His evocative study of the Chitral region challenges all these stereotypes Through an exploration of the everyday experiences of both men and women he shows that the life of a good Muslim in Chitral is above all a mindful life enhanced by the creative force of poetry dancing and critical debate Challenging much that has been assumed about the
