Reader's Guide to Lesbian and Gay Studies Timothy Murphy, 2013-10-18 The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report *Up from Invisibility* Larry Gross, 2001-12-26 A half century ago gay men and lesbians were all but invisible in the media and in turn popular culture With the lesbian and gay liberation movement came a profoundly new sense of homosexual community and empowerment and the emergence of gay people onto the media's stage And yet even as the mass media have been shifting the terms of our public conversation toward a greater acknowledgment of diversity does the emerging visibility of gay men and women do justice to the complexity and variety of their experience Or is gay identity manipulated and contrived by media that are unwilling and perhaps unable to fully comprehend and honor it While positive representations of gays and lesbians are a cautious step in the right direction media expert Larry Gross argues that the entertainment and news media betray a lingering inability to break free from proscribed limitations in order to embrace the complex reality of gay identity While noting major advances like the opening of the Oscar Wilde Memorial Bookstore the first gay bookstore in the country or the rise of The Advocate from small newsletter to influential national paper Gross takes the measure of somewhat more ambiguous milestones like the first lesbian kiss on television or the first gay character in a newspaper comic strip

The View from Somewhere Lewis Raven Wallace, 2023-04-12 MeToo BlackLivesMatter NeverAgain WontBeErased Though both the right and left wing media claim objectivity in their reporting of these and other contentious issues the American public has become increasingly cynical about truth fact and reality In The View From Somewhere Lewis Raven Wallace dives deep into the history of objectivity in journalism and how it's been used to gatekeep and silence marginalized writers as far back as Ida B Wells At its core this is a book about fierce journalists who have pursued truth and transparency and sometimes been punished for it not just by tyrannical governments but by journalistic institutions themselves He highlights the stories of journalists who question objectivity with sensitivity and passion Desmond Cole of the Toronto Star New York Times reporter

Linda Greenhouse Pulitzer Prize winner Rachel Kadzi Ghansah Peabody winning podcaster John Biewen Guardian correspondent Gary Younge former BuzzFeed reporter Meredith Talusan and many others Wallace also shares his own experiences as a midwestern transgender journalist and activist who was fired from his job as a national reporter for public radio for speaking out against objectivity in coverage of Trump and white supremacy With insightful steps through history Wallace stresses that journalists have never been mere passive observers the choices they make reflect worldviews tinted by race class gender and geography He upholds the centrality of facts and the necessary discipline of verification but argues against the long held standard of objective media coverage that asks journalists to claim they are without bias Publisher's website

Historical Dictionary of the Lesbian and Gay Liberation Movements JoAnne Myers, 2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement indeed the terms gay and lesbian were not even used if some other expression could be found Today by contrast hardly a day passes when something important does not occur and is carried by the major media and disseminated on more personal levels through blogs and the social media If anything there is perhaps too much news and not enough information Obviously a book like this cannot keep up with the news but it can do something equally important when it comes to information by reminding us of the past and what has been going on and just how fast events are moving The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross referenced dictionary with over 1000 entries on specific countries and regions influential historical figures laws that criminalized same sex sexuality various historical terms that have been used to refer to aspects of same sex love and contemporary events and legal decisions Including a comprehensive chronology and bibliography this book is an excellent access point for students researchers and anyone interested in learning more about the struggle for equality

Television History, the Peabody Archive, and Cultural Memory Ethan Thompson, Jeffrey P. Jones, Lucas Hatlen, 2019 Television History The Peabody Archive and Cultural Memory is the product of a multiyear collaboration between the Peabody Awards program and over a dozen media scholars with the intent to uncover explore and analyze historical television programming contained in the Peabody Awards archives at the University of Georgia It is an intentional effort to look both wider and deeper than the well known canon of U S broadcast history that dominates popular memory of the relationship of television to American society The Peabody Archive is especially suited to this project because it is an archive of programming produced and submitted not just by the big networks in New York or Los Angeles but by stations and media producers across the nation and more recently around the world This project asks how might these programs change our understanding of television's past and impact the ways we think about television's present and future What new questions can we ask and what new approaches should we take as a result of seeing and experiencing this programming The contributions in this volume offer a dramatic range of approaches for how scholars can productively engage the archive's media and physical holdings to examine and reconsider television history

Out in Culture Corey K.

Creekmur, Alexander Doty, 1995 *Out in Culture* charts some of the ways in which lesbians, gays and queers have understood and negotiated the pleasures and affirmations as well as the disappointments of mass culture. The essays collected here combining critical and theoretical works from a cross section of academics, journalists and artists demonstrate a rich variety of gay and lesbian approaches to film, television, popular music and fashion. This wide ranging anthology is the first to juxtapose pioneering work in gay and lesbian media criticism with recent essays in contemporary queer cultural studies. Uniquely accessible, *Out in Culture* presents such popular writers as B. Ruby Rich, Essex Hemphill and Michael Musto as well as influential critics such as Richard Dyer, Chris Straayer and Julia Lesage on topics ranging from the queer careers of Agnes Moorehead and Pee Wee Herman to the cultural politics of gay drag, lesbian style, the visualization of AIDS and the black sissy queen experience. Of particular interest are two dossiers: the first linking essays on the queer content of Alfred Hitchcock's films and the second on the production and reception of popular music within gay and lesbian communities. The volume concludes with an extensive bibliography, the most comprehensive currently available of sources in gay, lesbian and queer media criticism. *Out in Culture* explores the distinctive and original ways in which gays, lesbians and queers have experienced, appropriated and resisted the images and artifacts of popular culture. This eclectic anthology will be of interest to a broad audience of general readers and scholars interested in gay and lesbian issues, students of film, media, gender and cultural studies and those interested in the emerging field of queer theory.
