## **Talked To Death:**

*Talking About Death* Virginia Morris, 2025-05-01 Even in this candidly confessional age we've been conditioned to avoid discussions of death. Our youth worshipping culture does everything to deny death, which is why when the end nears most of us are inadequately prepared to deal with it. And the cost of that is great: many are haunted by memories of how inappropriately or painfully or uncomfortably their parents and grandparents died. Many of us avoid even considering the options in all their complexity that we will most likely face one day given our new longevity and the profound advances in medicine. With its wise and very compelling argument that all of us at any age can and should face death before it faces us, *Talking About Death* addresses the cultural, personal, medical and legal concerns that are necessary for us as individuals and as a society to prepare for a good death: a death where the dying are in control and not as is too often the case, caught in a downward spiral of medical intervention and misunderstood intentions. Virginia Morris skillfully weaves together personal stories and practical matters, scientific fact and spiritual sensitivity into an important book about how we can achieve a greater sense of peace in dying and rediscover the art of living.

*Talking About Death* Susan Walker, 2022-11-30 Death remains a difficult topic to address openly, left to professionals in hospitals and hospices. *Talking About Death* aims to equip ministers and pastoral carers to enable individuals and families to say and do the important things on their minds. It includes *Learning How To Die*, how the medicalisation of death has affected thinking around death, the role of Christian faith, *Talking about death positively*, exploring the strong feelings around death, how theories of loss can be helpful, *Christian Approaches to Talking About Death and Dying*, *Societal Attitudes To Talking About Death And Dying*, What is to be gained by talking about death and dying, Practical examples and stories, *Contemplating our own death*, resources for end of life conversations.

**Death Talk** Margaret A. Somerville, 2001-12-14 There are vast ethical, legal and social differences between natural death and euthanasia. In *Death Talk*, Margaret Somerville argues that legalizing euthanasia would cause irreparable harm to society's value of respect for human life, which in secular societies is carried primarily by the institutions of law and medicine.

**Talking About Death Won't Kill You** Dr. Kathy Kortes-Miller, 2018-03-06 This practical handbook will equip readers with the tools to have meaningful conversations about death and dying. Death is a part of life. We used to understand this and in the past, loved ones generally died at home with family around them. But in just a few generations, death has become a medical event and we have lost the ability to make this last part of life more personal and meaningful. Today, people want to regain control over health care decisions for themselves and their loved ones. *Talking About Death Won't Kill You* is the essential handbook to help Canadians navigate personal and medical decisions for the best quality of life for the end of our lives. Noted palliative care educator and researcher Kathy Kortes-Miller shows readers how to identify and reframe limiting beliefs about dying with humor and compassion. With robust resource lists, Kortes-Miller addresses advance care plans for ourselves and our loved ones, how to have conversations about end of life wishes with loved ones, how to talk to children.

Li,2013-03-14 It is with great pleasure that I write this preface for Or Li s book wh ich addresses the venerable and vexing issues surrounding the problem of whether death can be a harm to the person who dies This problem is an ancient one which was raised long ago by the early Greek philosopher Epicurus who notoriously argued that death is at no time a harm to its victim because before death there is no harrn and after death there is no victim Epicurus s conclusion is conspicuously at odds with our prereflective and in most cases our post reflective intuitions and numerous strategies have therefore been proposed to refute or avoid the Epicurean conclusion that death cannot be an evil after all How then are we to account for our intuition that death is not just an evil but perhaps the worst evil that may befall us This is the key issue that Or Li addresses Or Li s book explores various alternative approaches to the complex and difficult issues surrounding Epicurus s notorious argument and provides a defence ofthe intuitively plausible conclusion that death can indeed be a harm to the person who dies This challenge to Epicurus s claim that death is never a harm to the person who dies is developed by way of a detailed exploration of the issues raised not only by Epicurus but also by his many successors who have responded variously to the challenging issues which Epicurus raised
