Daylighting Design Mohamed Boubekri, 2014-09-25 For thousands of years people have aligned their homes with the sun This tendency decreased with the availability of artificial light Yet due to the health effects of artificial light as well as rising energy costs the issue of designing with daylight is of great importance again today The primary objective of daylight systems is to make maximum use of daylight for certain building types and climates The book documents the various dimensions of the optimum use of daylight with particular reference to window orientation light distribution and prism technology and discusses the health and economic related aspects In the final chapter existing design concepts are documented in detail including the expansion of the Art Institute of Chicago Museum in the United States by Renzo Piano Building Workshop Terminal 3 of the Changi Airport in Singapore by Skidmore Owings Merrill and the Clever House in Germany by Behnisch Architekten **The BIM Manager's Handbook** Dominik Holzer, 2016-05-02 The BIM Manager's Handbook Guidance for Professionals in Architecture Engineering and Construction Building Information Modelling BIM is a design and construction software that manages not just graphics but also information information that enables the automatic generation of drawings and reports design analysis schedule simulation facilities management and cost analysis ultimately enabling any building team to make better informed decisions This allows a range of professionals architects engineers

construction managers surveyors cost estimators project managers and facility managers to share this information throughout a building's lifecycle BIM is now recognized worldwide for the efficiencies it delivers in terms of working collaboratively communication processes cost savings and a property's lifecycle management With the widespread adoption of BIM BIM Managers have become a much needed new breed of professionals in architectural engineering and construction practice Their role is often misunderstood and ill defined and such are the day to day deliverables that they are likely to face The BIM Manager's Handbook provides an in depth account of the breadth of activities that any BIM Manager or staff member who is actively engaged in the delivery of project is required to undertake Providing prereleases of the final work The BIM Manager's Handbook ePart series isolates significant topics around BIM management In the sixth and final ePart BIM is taken to the next level by outlining what is required to truly excel as a BIM Manager It highlights how BIM Managers acquire the necessary communication skills to maximize an efficient information flow between the BIM Manager and others It illustrates how BIM Managers tie their activities to cutting edge BIM research and development globally Lastly this ePart lays out how to promote BIM excellence both within an organization and beyond *The BIM Manager's Handbook, Part 6* Dominik Holzer, 2015-12-23 ePart 6 Excelling your BIM Efforts In this final ePart BIM is taken to the next level by outlining what is required to truly excel as a BIM Manager It highlights how BIM Managers acquire the necessary communication skills to maximise an efficient information flow between the BIM Manager and others It illustrates how BIM Managers tie their activities to cutting edge BIM research and development globally Lastly the ePart will lay out how to promote BIM excellence both within an organisation and beyond Obook ISBN 9781118987971 ePub ISBN 9781118987988 ePDF ISBN 9781118987964 published November 2015 *On the Wings of Modernism* Robert Allen Nauman, 2004 Nauman argues that contrary to the technological and teleological interpretations presented by the polemicists of international style modernism the academy's actual production was squarely grounded in bureaucratic and political processes He demonstrates that selection of both the site and the design firm was the result of political maneuverings involving the U S military leadership BOOK JACKET *Tall Buildings of China* Georges Binder, 2015-07-31 This breathtaking new book compiled by tall buildings specialist Georges Binder showcases more than 100 of the tallest buildings in China across more than 25 cities including those towering over the megacities of Beijing Shanghai and emerging supercities such as Chengdu Guangzhou and Tianjin Georges Binder summarises the history of the Chinese tall building landscape from the 1930s to the present day and features the best in contemporary design including emerging architectural trends showcasing each project with beautiful imagery and detailed plans The book also delves into the hard architectural statistics and buildings features with gritty detail These skyscrapers are a fitting symbol of China's new found prosperity ambition and architectural flair Energy Modeling in Architectural Design Timothy Hemsath, Kaveh Alagheh Bandhosseini, 2017-07-06 Energy Modeling in Architectural Design demonstrates how design elements can lead to energy savings to help you reduce the energy footprint of your buildings In

addition to identifying climate opportunities you ll also learn fundamental passive design elements for software agnostic energy modeling of your projects from conception Using parametric models and testing each element during design will lead you to create beautiful and high performance buildings Illustrated with more than 100 color images this book also includes a pattern guide for high performance buildings discusses energy and daylighting optimization and has a glossary for easy reference
